Manager shall fill in rotation with individuals and complete the order within each rotation where applicable.

Step 2 - Add Individuals

When all the teams are placed in the Rotation Chart the individuals shall be drawn. You will need to count the number of competitors in each event. If there is less than 12 competitors in an event, then the number in each event should be equalized. Following the same procedures as was done for the teams, randomly draw individuals making sure that gymnasts from the same school should be kept together.

Step 3 - Order of Performance

The order of performance prevents one team from always going first on an event. Sectional managers will need to conduct a random draw for each competitive "letter" group (A, B, C, D) for each event in each round in order to ensure there is a randomness to the order of performance.
