

Judges Scoring Form

Each judge will submit a score form for each performer in each of the events he is judging. After the scores are approved by the Head Judge, and the scores recorded, the forms are to be stapled together with the performer's name on the top sheet. The judge's number should also be on each score form.

It is recommended that each judge maintain a record of his scores by event and performer until the end of the meet and all discrepancies have been eliminated.

Computer will generate the Judges Scoresheet
