Regional Scoring Program Information

When the regional host schools are selected at the seeding meeting, you will need to get from the regional host school an email address. The IHSA will email the regional scoring program to each regional host. Following the completion of each regional, regional managers should email results of the meet to the Sectional manager and fax a copy of the results to the IHSA.

What you do with the Regional results

IHSA will need the sectional host school's email address, too. We will email the "sectional scoring program" and the "paste and assist program" to each sectional host. Once the regionals are completed, you should use the paste and assist program to collect and sort the results of the four regional meets that feed into your sectional. Use the Sectional scoring program to score the sectional.

Please read this statement to start your seeding meeting

The scores used for team seeding shall be from gymnastics meets where the team score was determined by adding 4 scores on all events. For seeding purposes, at the sectional seeding meeting each team will average their top three scores to come up with their seed score. In order to verify their seed score, coaches are required to either bring the signed score sheets from the meets used in averaging their seed score, or fax them in advance of the meeting to the seeding meeting host.

The second purpose of tonight's meeting is to determine regional host schools. Only those programs who have a signed host consent form are eligible to host. A Regional coaches meeting shall be held immediately following this seeding meeting. We encourage all the coaches to be involved with their respective regional meeting because the order of performance will be determined.

At the conclusion of this meeting, the seeds will be sent to the IHSA and a Master Schedule will be posted on the IHSA web site.

In order to verify their seed score, coaches are required to either bring the signed score sheets from the meets used in averaging their seed score, or fax them in advance of the meeting to the seeding meeting host.
 - a) Dual or multiple meet scores can be used only once.
 - b) If a team competed in a meet that used three scores for team scoring, whether four or more competitors were used, that score can not be used as part of the seeding information.
3. Determine regional hosts from the seeds in addition to the all team assignments.
4. Do not seed or assign schools that are competing for individual honors. IHSA will assign them geographically following the sectional complex meeting.

Assembly Instructions for IHSA State Series Trophies

(please use caution when assembling the trophies)

Upon receipt of your Trophies and Awards, please inspect them immediately so replacements can be shipped to you, if you notice a damaged trophy or figurine. If replacements need to be issued, please contact A & M Products at the number below.

We recommend the following for attaching the figures to the IHSA State Trophy:

- Unwrap each figure. If there is a hex nut on the post of the figure remove it. It should not be needed.
- Lay the trophy on its back on a flat surface and remove the hex nut from the rods from underneath the trophy.
- Push the rod through the top of the trophy and remove the ferrule (the hollow threaded tube) from the rod and attach the ferrule to the threaded post of the figure. Screw the ferrule all the way up the threaded post of the figure.
- Screw the rod back onto the ferrule until it is tight.
- Place the rod, with the figure attached, back through the top of the base and through the holes in the bottom of the base.

IMPORTANT - please be careful that the figure(s) is not supporting the weight of the trophy. **Figures can be easily broken.**

DO NOT OVER TIGHTEN THE FIGURE ONTO THE BASE THIS CAUSES THE BOLT TO BE PULLED OUT FROM UNDERNEATH THE FIGURE

Please do not pick up and carry the trophy by the side figures.

The **CHAMPION** and **RUNNER-UP** trophy receive **three** of the bigger #1 figures.

The **THIRD PLACE** and **FOURTH PLACE** trophy receive **one** of the bigger #1 figures for the top. And the **two** smaller #2 figures are the side figures.

If you have any questions please call A & M Products, (815) 875-2667

The interscholastic athletics and activities experience is something we cannot take for granted. For more than 100 years the I-H-S-A has provided the vehicle for recognition of students, their schools and their communities through competition in I-H-S-A state series in sports and non-athletic activities. But participation in sports and activities is a lot more than just winning and losing. Students who participate in programs offered by their schools are taught valuable life lessons that will make them a success in whatever endeavors they choose. We must teach our students, their coaches, their families and their supporters that it is very important to participate. They must take advantage of the learning opportunities that are uniquely made available to them through I-H-S-A programs.

Girls Gymnastics Regional Draw

• www.ihsa.org • Phone: 309-663-6377 • Fax: 309-663-7479 •

CONCEPT

Assigning A Competitor Number

Purpose is to identify teams and individuals for the computer. This information will be automatically transferred to the next qualifying level. It is the computer's form of a name. The process for the numbering is based on a regional and its corresponding sectional. The number assignments are predetermined by the IHSA's computer program.

Order of Competition

The team block style is used. It allows for all competitors from a school to compete in each event as a team before rotating to the next event. For schools that have individual entries only, their entries will be assigned together.

The Rotation (Draw)

The purpose of the draw is to create an order for competing schools/individuals to rotate from one event to another.

Making the Draw: The draw shall be made literally pulling the names of all competing schools out of a hat.

Note: if there is more than one competitor from the same school, then they will be assigned to the same rotation and order.

Order of Events

The order of events for regionals shall be vault and uneven bars concurrently followed by balance beam and floor exercise, which shall also be run concurrently.

Order of Performance

The order of performance determines what order a school will perform within the event and prevents one school from always going first.

REGIONALS

REGIONAL ROTATION PROCEDURES

How to Determine the Draw

In determining the order in which each school shall participate in the regional meet, the manager must first determine the total number of schools that are sending competitors to his/her regional. A school, not competing for team honors but with individual entrants, shall be counted in the total number. All schools, regardless of the number of competitors from that school shall be counted for the purpose of the draw. Knowing that total number will help the manager determine which rotation chart should be used. The charts for four (4) teams through ten (10) teams can be found later in this section.

Once it has been determined which rotation chart shall be used, the manager will draw out the name of a school and place it in the #1 spot for all events. The manager will then continue drawing school names out and place them in the appropriate numerical spot on the rotation chart being used.

Example of a 6 team rotation

1. Draw schools for the six (6) spots
 - 1-Orland Park (Sandburg)
 - 2-Frankfort (Lincoln Way-East)
 - 3-Tinley Park (Andrew)
 - 4-Olympia Fields (Rich Central)
 - 5-Bradley-Bourbonnais
 - 6-Flossmoor (Homewood-Flossmoor)

2. Insert the schools into the appropriate positions on a six (6) team rotation chart

Vault	Unevens	Beam	Floor
1 Sandburg	4 Rich Central	3 Andrew	6 H-F
2 LW-East	5 BBCHS	2 LW-East	5 BBCHS
3 Andrew	6 H-F	1 Sandburg	4 Rich Central
4 Rich Central	1 Sandburg	6 H-F	3 Andrew
5 BBCHS	2 LW-East	5 BBCHS	2 LW-East
6 H-F	3 Andrew	4 Rich Central	1 Sandburg

NOTE: Competition will continue with the next team in the rotation chart if a competing school with an individual competitor is not entered in an event.

CONCEPT

Assigning A Competitor Number

Purpose is to identify teams and individuals for the computer. This information will be automatically transferred to the next qualifying level. It is the computer's form of a name. The process for the numbering is based on a regional and its corresponding sectional. The number assignments are predetermined by the IHSA's computer program.

Order of Competition

The team block style is used. It allows for all competitors from a school to compete in each event as a team before rotating to the next event. For schools that have individual entries only, their entries will be assigned together.

The Rotation (Draw)

The purpose of the draw is to create an order for schools to rotate from one event to another.

Making the Team Draw: The draw for teams shall be made by the luck of the draw by literally pulling the schools names out of a hat.

Making the Individual Draw: The draw for an individual(s) from a school that does not have a team shall be designed to even out each rotation. The luck of the draw principle still controls.

Note: If there is more than one competitor from the same school, then they will be assigned to the same rotation and order.

Order of Events

The order of events for the sectionals shall run all four events concurrently.

Order of Performance

The order of performance determines what order a school will perform within the event and prevents one school from always going first.

STEP 1 SECTIONAL ROTATION PROCEDURE – Determined by IHSA

IHSA will conduct the draw for the sectional rotation. Instead of selecting the teams by the luck of the draw (as done with the regionals), sectional managers will simply insert the regional winners into the chart below to determine the rotation. The IHSA will post the draw for managers to use on January 16, after they have received the seed results from each sectional.

Individuals will need to be added to the rotation by the manager. Managers will need to count the number of competitors in each event. If there is less than 12, then the number in each event should be equalized. Randomly draw individuals making sure that gymnasts from the same school are kept together and add them to the rotation.

As a point of information on IHSA procedures used to determine this draw, Sectionals have been numbered according to the date in which they are to compete. Regionals within the sectional were also numbered (regional 1, regional 2, regional 3, regional 4) according to the date in which they are to compete.

- At Large #2 (in alpha by city) _____
- In case of tie advancing 7 teams _____
- In case of 8 teams advancing _____

Manager shall fill in rotation with individuals and complete the order within each rotation where applicable.

Step 2 Add Individuals

When all the teams are placed in the Rotation Chart the individuals shall be drawn. You will need to count the number of competitors in each event. If there is less than 12 competitors in an event, then the number in each event should be equalized. Following the same procedures as was done for the teams, randomly draw individuals making sure that gymnasts from the same school should be kept together.

Step 3 Order of Performance

The order of performance prevents one team from always going first on an event. Sectional managers will need to conduct a random draw for each competitive "letter" group (A, B, C, D) for each event in each round in order to ensure there is a randomness to the order of performance.

State Rotation

• www.ihsa.org • Phone: 309-663-6377 • Fax: 309-663-7479 •

Rationale: All participating schools with teams are informed in advance of their draw. Since the draw is done by the IHSA for all sectional teams prior to the advancing teams being determined, this process provides for an ease of management and better communication for the coaches.

Process: Completing the rotation is a 3 step process. The first step determines the teams that will be paired together for competition. This is done in a manner similar to that used for sectional meets. Once completed, the second step involves placing individuals into each competition group in order to balance the number of competitors in each group. The final step then requires a random draw to be completed for each competition group at each event. Doing so ensures that teams won't necessarily follow the same team or individuals during each rotation/event.

- At Large #1 (in alpha by city) _____
- At Large #2 (in alpha by city) _____
- At Large #3 (in alpha by city) _____
- At Large #4 (in alpha by city) _____

Step 2 Insert Individuals into the Rotation (completed by meet manager)

This step is similar to regional and sectional meets. After the number of individual qualifiers there are for event has been determined, the manager will insert them into the rotation in order to maintain balance for each performance group.

Step 3 Determining the Order of Performance (completed by IHSA Office)

Once all the performers, both teams and individuals, have been determined for each performance group, a random draw will occur. This draw shall occur for each performance group for each rotation on each event. For each group, the names of the schools involved in the group will be randomly selected one at a time. The order of selection will determine the order of performance within that rotation. Again, this selection process needs to occur for each group for each event, thereby insuring a sense of randomness to the process and keeping one team from always following another.

Financial Reports Must Be Filed Online

The final phase of your hosting responsibilities is to file a financial report with the IHSA. The financial report forms are available in the password-protected Schools Center area of the IHSA Web site.

Log in to the Schools Center with your school ID and an administrator password. On the main menu of the Schools Center, under the heading "Tournament Management", you will find a link to the financial report. Please fill out the one-page form and press the submit button to file your report.
