I. SCHOOL CLASSIFICATION

Competition in the IHSA Girls Badminton Tournament Series will be held for all member schools without classification.

II. DATES AND SITES

A. Sectional meets will be held on Thursday, Friday, or Saturday, May 3, 4 or 5, 2018, at sixteen (16) sites.

B. The State Final tournament will be held at Eastern Illinois University, Charleston on May 11-12 2018. An optional Hit-A-Round will be held on Thursday, May 10, 2018. Mr. Kevin Hussey, professor at Eastern Illinois University, shall serve as the state final manager.

III. ON-LINE ENTRIES, WITHDRAWAL PROCEDURES, ELIGIBILITY, AFFIRMATIVE ACTION, AND ON-LINE LIST OF PARTICIPANTS

The policy for Original Entry Deadlines, Late Entries, and Late Withdrawals shall be the policies and procedures regarding entry for all IHSA-sponsored sport/activities included in the 2017-18 Entry Policies and Procedures.

A. On-Line Entries: All member schools must enter their school into the state series competition through the IHSA Schools Center on the IHSA Website at (www.ihsa.org). The deadline for entry is February 1, 2018. The 2017-18 Entry Policies and Procedures outlining the online entry procedures for all IHSA-sponsored tournaments can be found in the Schools Center on the IHSA website.

B. Late Entries: Any attempt to enter a sport or activity on-line after the established deadlines will be denied. Schools that wish to enter after the deadline will be considered late. To be considered for late entry, the Principal/Official Representative must contact the IHSA administrator in charge of that sport or activity. The penalty for late entry shall be a payment of \$100.00 for that sport/activity by the school.

C. List of Participants Penalty: In order for a school to complete the entry process for girls' state badminton series, they must enter their team or individual(s) and complete the *List*

of Participants by the established deadline date. Schools who fail to complete both parts of the entry process will not be entered into the state series unless a late entry fee is paid.

D. Breach of Contract By-Law 6.041 (Withdrawal Procedure): To withdraw without penalty, the Principal must notify the IHSA Office, in writing, of the school's withdrawal from the respective sport prior to the date the seeding meeting date and/or the date the *List of Participants* is due for that sport.

If a school withdraws after the seeding meeting date/*List of Participants* due date and/or does not show up for competition, the school will be charged a \$100 penalty. If applicable, the school may be charged for any additional financial loss sustained by the offended school(s) or the Association as a result of such breach.

E. Eligibility: All member schools in good standing may not enter more than two doubles teams and two singles players under the provisions of IHSA by-law 3.054. A player may not enter both the singles and doubles events.

F. Affirmative Action: Only girls shall be permitted to participate in this state series except as provided in the IHSA Affirmative Action Policy.

G. On-Line List of Participants: Each school must complete the On-Line *List of Participants* by **Monday, April 30, 2018**. If a school does not submit the On-Line *List of Participants* by the deadline, coaches and/or participants from the school are subject to sanctions which could include, but not be limited to, coaches or players being ruled ineligible to coach or compete in the state series.

The *List of Participants* will provide the overall records of each singles player and each doubles team seeking consideration for sectional and state final seeding. Coaches whose player(s) are not requesting a consideration for a seeded position need only to complete the *List of Participants* indicating names of the players being entered into the tournament series.

The *List of Participants* is a school entry. Once the sectional seeds have been made in conjunction with the sectional draw, all positions are finalized and cannot be adjusted. There can be no substitutions or changes to the singles or doubles teams unless there is a case of injury, illness or ineligibility as certified by the principal of the player's school. Refer to "VIII. Tournament Rules" for substitutions and *List of Participants* entry information.

Payment will be made through the IHSA Office, after completion of the tournament series, at a rate of \$.30 per mile in excess of 70 miles round trip. No compensation will be permitted for trips of less than 70 miles round trip per contest.

Steps Needed to Participate in the IHSA Girls Badminton State Series

This manual includes pertinent information related to this year's state series. Please read the information in this manual along with the Badminton Terms and Conditions which are the rules of which your school has agreed to play by during the state series.

School Manual: The school manual will be posted online each year at the end of December. No hard copies will be sent to participating schools. Schools will use the IHSA girls' badminton website (www.ihsa.org click on girls' badminton) to access general information and to also access the IHSA Schools Center (password protected) to manage LOP and Rules Meeting. Coaches can talk to the Athletic Director to get their school's ID and passwords needed for the School Center.

Manager's Manual: Included on the website is a manual for managers who are hosting a sectional.

List of Participants (LOP): All coaches must complete their final entries also known as List of Participants (LOP) by the deadline. Coaches should bring a hard copy of their LOP's to the seeding meeting along with their playing schedule. Only those coaches who have completed their LOP's may participate in the seeding talks or vote. Additionally, coaches who do not complete the LOP have not completed their school's entry process and therefore are not entered into the state series. A fee of \$100.00 is required for any late entries.

Sectional Host Schools: Sectional host schools will be selected at the sectional complex meeting. The highest seeded team will have the first opportunity to host. If your school is interested in hosting a sectional, complete the Willing to Host form and bring it along.

Forms: All the necessary forms are included in your Badminton School Manual and the Managers Manual with the exception of the LOP which is online in the School Center.

State Final Information: If your school qualifies a team or individual(s) to the state finals at EIU, final information will be posted on the badminton webpage.

Volunteers at State: Any coach planning to attend the state tournament and is interested in working as a scorer or on the games committee, please contact Stacey Lambert (slambert@ihsa.org).

IHSA Season Questions

- 1Q. What is the starting date for the IHSA Badminton Season?
 1A. Schools may begin practice on Monday, Feb. 26, 2018. That date changes each year but practice each year may begin on the Monday of Week 35.
- 2Q. When do players have to cease their non-school participation, competition or involvement with badminton leagues, competition or non-school events?
 2A. High School players must cease non-school participation and competition 7 days after their school engages in its first practice.
- 3Q. When does the season end?
 3A. The season ends on the date of the school's last contest at their level in badminton. At that time, high school players may, on their own and voluntarily, resume their participation in leagues and non-school competitions.

Non-school Participation Questions

- 1Q. Can a player take private lessons from a badminton instructor and if so when?
 1A. Yes, a player may take a private lesson at anytime during the school year, during the season or during summer provided the person giving the lessons gives lessons to the general public. Students can also attend coaching schools/camps/or clinics during the school year as long as no coach from their school is involved. If any coach from their school is involved, no more than two students from that school may attend.
- 2Q. How is a private lesson defined?
 2A. A private lesson may have no more than 2 people from the same school receiving instruction in the skill of the sport or the strategy of the sport.
- 3Q. When can a player begin her involvement with her non-school participation and/or competition?
 3A. Once the high school badminton season is over a player may resume or begin her league and non-school participation.

Non-school Team Rosters

- 1Q. How many players from the same school can be on a non-school badminton team when no high school coach or employee from the school is involved?
 1A. Unlimited.

 2A. No more than 3 players from the coach's or employee's school can be on a non-school badminton team.
- 3Q. How is a high school coach defined?
 3A. Any person who is employed or volunteers at the school falls under the definition of a high school coach.

Practices and Competition

- 1Q. Can a multiple number of high school or non-school teams practice in the same facility?
 1A. Yes, as long as they are on separate courts and they do not interact in any manner with other players from other teams (including drills, conditioning, debriefing, etc) with each other.
- 2Q. Who can a high school compete against during the high school season?
 2A. IHSA member schools may only compete against other IHSA member schools. Therefore, IHSA interscholastic teams may not compete against any non-school or club teams.
- 3Q. What is the definition of a competition?
 3A. An event in which teams or individuals compete against one another utilizing one or more skills of the sport is a competition. Any athletic competition including a scrimmage in which students representing 2 or more high schools participate with or against each other is considered a contest.
- 4Q. What is the difference between a coaching school and an independent team?
 4A. Both a coaching school and a league may provide instruction but a non-school team culminates in competition. High school players may participate on independent team outside the badminton season.
- 5Q. How soon must competition take place for an independent non-school team?

Girls Badminton - Does What's Right!

What Our Schools Believe

Sportsmanship is a core value and its promotion and practice are essential. All persons involved in interscholastic athletics and activities are expected to be positive role models.

Sportsmanship of School Representatives By-law

By-law 2.041

Students, school staff, boards of education, spectators and all other persons connected directly or indirectly with a member school shall practice and promote the highest principles of sportsmanship and the ethics of competition in all interscholastic relationships.

SAWA Report

Let's Recognize Good Sportsmanship!

The IHSA has a Sport A Winning Attitude (SAWA) Report form online through the School Center. Good sportsmanship should be recognized. You can do so by simply reporting to the IHSA (using the online form) an exceptional situation that occurred in a contest. IHSA will follow up on this to the school demonstrating a winning attitude.

Guidelines for IHSA Badminton Programs

Comments

Cheering at meets is a great way for players and fans to show sportsmanship, but cheering should always be positive. Players and fans should observe the following:

1. Cheers should be in celebration of a great play or in support of a team or a team member.
2. Cheering should never be an "in your face" sort of cheer that makes fun of, belittles, or otherwise puts down another player, opponent, or coach.
3. Cheers may be loud, organized, and enthusiastic, but screaming is not acceptable.
4. Be courteous and keep your cheers in good taste, at a good time and performed with a sporting attitude.

IHSA Special Report

Process to Address Questionable Behavior

First talk to the coach of the participants to whom you have a concern. Work cooperatively to resolve the issue. Use the sportsmanship guidelines to determine if there is a problem. If the guidelines are not being followed, and the issue is not fully resolved, talk to your athletic director or principal about it after the meet. Ask your administration to help. Typically both athletic directors will communicate with each other and reach a good outcome. If the school administration does not feel like there has been a good resolution, then the athletic director can file a Special Report with the IHSA. IHSA will check into the situation and assist in getting schools to collaborate. Good communication is always the best way for everyone to benefit.

How To Humidify Badminton Shuttlecocks

How to humidify a shuttlecock for the season.

Use a large garbage can (32 gal.)

Place two large sponges at the bottom

Add 1 inch of pine sol and enough water to cover the sponges

Place a wire/mesh rack over the sponges – the rack should not touch the water

Place opened tubes of shuttlecocks on top of the rack

As the season progresses, replace the water as needed

Change mixture mid-way through the season

This formula is designed to keep the shuttlecocks humidified and at the same time keep them from getting mildew or mold forming on the tips. This formula is a tradition passed on to Deb Ofcky from Lee Kennicke formerly from New Trier High School.

Emergency Action Plan (EAP)

In accordance with By-law 2.150, a school shall have on file for each student that participates (including practice) in interscholastic athletics a certificate of physical fitness issued by a licensed physician, physician's assistant or nurse practitioner as set forth in the Illinois State Statutes not more than 395 days preceding any date of participation in any such practice, contest or activity. As this By-law addresses pre-participation certification only, there is not a guideline or By-law in place to address release to interscholastic activity following an injury, with the exception of head injury/concussion. With the understanding that schools throughout the state have different needs and services available to them, this document was produced to provide guidelines on an athlete's return to activity following an injury.

Each school should have a written Emergency Action Plan (EAP) in place to address medical emergencies among athletes, staff, officials, and spectators, regardless of severity, occurring during a practice or competition. The plan should also address severe weather, fire, electrical failure, bomb threat, criminal behavior, or other possible emergencies. This plan should be developed to address the unique needs of the individual sport and venue.

EAP's should consist of the following components:

- Personnel
- Communication
- Equipment
- Emergency Medical Care
- Player Medical Information
- Game-day Responsibilities (includes appropriate sideline preparedness)
- Catastrophic Incident Plan

While each school's sports medicine/medical service needs and availability are different, guidelines should also be developed to assist the coaching staff on what injuries should be allowed to return to competition without a medical release. It is not practical to identify every situation or injury; however the following guidelines should assist the school/coaching staff on determining if the athlete should be allowed to return to activity without a release.

1. No swelling or deformity.
2. No headache, nausea, blurred vision, tingling, numbness or sensory changes.
3. Symmetrical (equal to the other side) joint range on motion and strength.
4. Ability to bear weight, without a limp, if injury occurs to the lower body.
5. Ability to complete full functional sporting activities without compensation.

Please remember that the majority of high school athletes are a minor. If there is a question as to their injury and ability to participate, the parents/guardian should be consulted.

Athletes that are unable to meet the above criteria should be encouraged to seek medical treatment prior to return to interscholastic activity. Those athletes that seek medical treatment should be required to provide a written medical release indicating their ability to participate. Without obtaining this release, the school may assume legal liability if the athlete is allowed to participate in activities not permitted by their medical provider.

A proper plan establishes accountability, should be comprehensive, yet flexible, practical, and easily understood. The written EAP must be revised, approved, distributed, and should be rehearsed regularly prior to every athletic season. The athletic department, administration, and sports medicine team share the responsibility to establish, practice, and execute the EAP.

A sample venue-specific is included as a part of this document, which was developed from portions of the third and fourth editions of National Federation of State High School Associations Sports Medicine Handbook. Managing Heat and Heat Illness

These guidelines represent minimum standards that IHSA member schools should follow for athletic competitions. Schools with more restrictive guidelines are not expected to modify any pre-existing guidelines in order to meet this policy. These guidelines will be used by managers or their designees at all IHSA state series events when the Wet Bulb Globe Temperature (WBGT) is above 80 degrees Fahrenheit. State series tournament managers will make the decisions to suspend and resume activity in accordance with these guidelines using those devices or systems usually used at the state series venue/site.

1. Thirty minutes prior to the start of an activity, and again 60 minutes after the start of the activity, temperature and humidity readings will be taken at the site of the activity. Using a Wet Bulb Globe Thermometer is recommended, although a conversion to WBGT can be made from air temperature and relative humidity using chart 2. Record the readings in writing and maintain the information in files of the tournament manager and/or host school administration. Tournament managers may designate someone other than themselves to take these readings.

Use the Table 1 (see below) with an on-site WBGT reading for appropriate exercise modifications during exercising in the heat:

Table 1

a. ≤79.9 degrees F

- i. All sports
 1. Provide ample amounts of water. This means that water should always be available and athletes should be able to take in as much water as they desire.
 2. Optional water breaks every 30 minutes for 10 minutes in duration. Coordinate breaks with assigned contest officials.
 3. Ice-down towels for cooling.
 4. Watch/monitor athletes carefully for necessary action.

b. 80.0-84.5 degrees F

- i. All sports
 1. Provide ample amounts of water. This means that water should always be available and athletes should be able to take in as much water as they desire.
 2. Optional water breaks every 30 minutes for 10 minutes in duration. Coordinate breaks with assigned contest officials.
 3. Provide cooling stations using methods such as ice towels.
 4. Watch/monitor athletes carefully for necessary action
- ii. Contact sports and activities with additional protective equipment (in addition to the above measures)
 1. Helmets and other possible equipment removed while not involved in contact.
- iii. Reduce time of outside activity. Consider postponing activity to later in the day.
- iv. Recheck air temperature and humidity every 30 minutes to monitor for increased heat conditions or sooner if personnel on the field suspects potential heat stress.

c. 84.6-87.5 degrees F

- i. All sports
 1. Provide ample amounts of water. This means that water should always be available and athletes should be able to take in as much water as they desire.
 2. Schedule at least 4 separate 4:00 breaks within each hour, or a 10:00 break every 30:00 of training or competition.
 3. Coordinate breaks with assigned contest officials.
 4. Have cooling stations for before, during, and after exercise/training/competition.
 5. Watch/monitor athletes carefully for necessary action
 6. Reduce time of outside activity as well as indoor activity if air conditioning is unavailable.
 7. Consider postponing activity to later in the day or another day (with approval from IHSA Administration)
 8. If practicing, maximum of 2 hours of training/practice while temperature is in this range.

- ii. Contact sports and activities with additional protective equipment (in addition to the above measures)
 - 1. Helmets and other possible equipment removed if not involved in activity or necessary for safety. If necessary for safety, suspend activity.
- iii. Recheck air temperature and humidity every 30 minutes to monitor for increased heat conditions.

d. 87.6-89.9 degrees F

- i. All sports
 - 1. Provide ample amounts of water. This means that water should always be available and athletes should be able to take in as much water as they desire.

 - 3. Coordinate breaks with assigned contest officials.
 - 4. Have cooling stations for before, during, and after exercise/training/competition.
 - 5. Watch/monitor athletes carefully for necessary action
 - 6. Reduce time of outside activity as well as indoor activity if air conditioning is unavailable.
 - 7. Consider postponing activity to later in the day or another day (with approval from IHSA Administration)
 - 8. If practicing, maximum of 1 hour of training/practice while temperature is in this range.
- ii. Contact sports and activities with additional protective equipment (in addition to the above measures)
 - 1. Helmets and other possible equipment removed if not involved in activity or necessary for safety. If necessary for safety, suspend activity.
- iii. Recheck air temperature and humidity every 30 minutes to monitor for increased heat conditions.

e. 90 degrees F

- i. All sports
 - 1. No training/competition
 - 2. Cancel and/or postpone activity to cooler time of the day

NOTE: While most attention will be given to outdoor sports in the fall and spring, indoor venues/facilities (gymnasiums, wrestling rooms, and swimming/diving facilities) that are not air conditioned should not be neglected for the purposes of this policy. Additionally, sometimes conditions will vary for different aspects of the same competition. For example, one part of a cross-country course may be hotter or more humid than other parts. The best course of action for managers is to take a WBGT reading at the place of the most severe conditions.

Table 2. Estimate WBGT from ambient temperature and relative humidity assuming full sun conditions

Cooling Methods Due to Heat Related Illness

Exertional heat stroke (EHS) is relatively uncommon among exercise associated medical conditions, but is a frequent cause of exercise related death. The majority of evidence shows that early institution of body cooling is the most effective method of decreasing mortality in EHS. The following contains recommendations regarding the methods of body cooling, including tubs, ice bags, iced towels (towels with water that have been frozen) water, fans, and shade. The recommendations are classified as essential (foundational to the implementation of treatment, should have resources and personnel directed towards implementation), and desirable (important in maximal implementation, should have resources and personnel directed towards implementation as budget and resources allow). The recommendations are only guidelines, are not intended as a standard of care, and should not be considered as such. These guidelines should only be considered in the care of athletes who can be expected to be at risk of EHS due to the sport or the environmental situation of the activity. Sports especially at risk include football with and without equipment, soccer, and long distance track. Other sports and activities, such as cycling, golf, baseball, tennis, track and field, and band, may also be at risk due to long duration exposure to extreme environmental conditions.

It is essential that member schools and school administrators/officials:

- Establish a written plan coordinated with local EMS for emergency treatment of EHS that includes transport to a hospital and conduct drills in the implementation of the plan as practicable.
- Know how to assess environmental conditions and determine when extreme conditions exist.
- Identify a specific spot at the athletic facility that has shade.
- Have immediate access to ice and bags to contain ice.
- Have access to water, and provide water breaks as outlined in the IHSA Managing Heat and Humidity Policy.
- Know the most effective sites for application of ice to the body.
- Obtain and use, when environmental conditions are determined to be extreme, a tub or pool, filled with water and ice before activity begins, to be used in body immersion for maximal cooling, and have personnel trained in this technique.

It is desirable that member schools and school administrators/officials:

- Have a certified athletic trainer (ATC) on staff, as budget and resources allow, to develop and implement these guidelines.
- Have immediate access to water.
- Provide shade breaks.
- Provide fans when environmental conditions are determined to be extreme.
- Have close access to an air conditioned room.
- Have access to and use iced towels that can be rotated to appropriate areas of the body, including the axilla, groin, and back of the neck.

IHSA Protocol for Implementation of NFHS Sports Playing Rule for Concussions

“Any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the contest and shall not return to play until cleared by an appropriate health care professional.”

The above language, which first appeared in all National Federation sports rule books for the 2010-11 school term, reflects a strengthening of rules regarding the safety of athletes suspected of having a concussion, but not a revision in primary responsibilities in these areas. Previous rules required officials to remove any athlete from play who was “unconscious or apparently unconscious.” This revised language reflects an increasing focus on safety, given that the vast majority of concussions do not involve a loss of consciousness. However, the revised language does not create a duty that officials are expected to perform a medical diagnosis. The change in rule simply calls for officials to be cognizant of athletes who display signs, symptoms, or behaviors of a concussion from the lists below and remove them from play.

NOTE: The persons who should be alert for such signs, symptoms, or behaviors consistent with a concussion in an athlete include appropriate health-care professionals, coaches, officials, parents, teammates, and, if conscious, the athlete him/herself.

Definition of a Concussion

A concussion is a traumatic brain injury that interferes with normal brain function. An athlete does not have to lose consciousness (be “knocked out”) to have suffered a concussion.

Behavior or signs observed indicative of a possible concussion

- Loss of consciousness
- Appears dazed or stunned
- Appears confused
- Forgets plays
- Unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Shows behavior or personality changes
- Can’t recall events prior to or after the injury

Symptoms reported by a player indicative of a possible concussion

- Headache
- Nausea
- Balance problems or dizziness
- Double or fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish
- Feeling foggy or groggy
- Concentration or memory problems
- Confusion

This protocol is intended to provide the mechanics to follow during the course of contests/matches/events when an athlete sustains an apparent concussion. In accordance with the Youth Sports Concussion Safety Act, appropriate health care professionals are defined as: physicians licensed to practice medicine in all its branches in Illinois, certified athletic trainers, advanced practice nurses (APN) and physician assistants (PA).

1. During the pre-game conference of coaches and officials, the official shall remind the head coaches that a school-approved appropriate health care professional (who meets the description above) will need to clear for return to play any athlete removed from a contest for an apparent head injury.
2. The officials will have no role in determining concussion other than the obvious situation where a player is unconscious or apparently unconscious as is provided for under the previous rule. Officials will merely point out to a coach that a player is apparently injured and advise the coach that the player should be examined by the school-approved health care provider.
3. If it is confirmed by the school’s approved health care professional that the student did not sustain a concussion, the head coach may so advise the officials during an appropriate stoppage of play and the athlete may re-enter competition pursuant to the contest rules.
4. Otherwise, if an athlete cannot be cleared to return to play by a school-approved health care professional as defined in this protocol, that athlete may not be returned to competition that day and is then subject to his or her school’s Return to Play (RTP) protocols before the student-athlete can return to practice or competition.
5. Following the contest, a Special Report shall be filed by the contest official(s) with the IHSA Office through the Officials Center.
6. In cases where an assigned IHSA state finals event medical professional is present, his/her decision to not allow an athlete to return to competition may not be over-ruled.

Additional information regarding concussion has been made available to IHSA member schools and licensed officials and can be accessed on the IHSA Sports Medicine website at <http://www.ihsa.org/Resources/SportsMedicine.aspx>.

Concussion Information

Return to Play (RTP) and Return to Learn (RTL)

Background: With the start of the 2010-11 school term, the National Federation of State High School Associations (NFHS) implemented a new national playing rule regarding potential head injuries. The rule requires “any player who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the game and shall not return to play until cleared by an appropriate health care professional.” In applying that rule in Illinois, it has been determined that only certified athletic trainers, advanced practice nurses (APN), physician’s assistants (PA) and physicians licensed to practice medicine in all its branches in Illinois can clear an athlete to return to play the day of a contest in which the athlete has been removed from the contest for a possible head injury.

In 2015, the Illinois General Assembly passed the Youth Sports Concussion Safety Act, and this legislation, among other items, required schools to develop Concussion Oversight Teams and create Return to Play (RTP) and Return to Learn (RTL) protocols that student-athletes must meet prior to their full return to athletic or classroom activity

Mandatory Concussion Education

Required concussion education for all athletic coaches and marching band directors is another component of the Youth Sports Concussion Safety Act passed by the Illinois General Assembly in the fall of 2015.

The IHSA program includes two video presentations and other supplementary materials that ALL high school athletic coaches, marching band directors, and Concussion Oversight Team members need to review prior to taking a required exam over the curriculum. Individuals will be required to demonstrate proficiency on the exam by scoring at least 80% in order to serve as an athletic coach or marching band director at an IHSA member school.

The program offers training in the subject matter of concussions, including evaluation, prevention, symptoms, risks, and long-term effects. Coaches will be able to access the program after logging into the IHSA Schools Center and clicking on the “CON” tab, which will be located under the ‘Departments’ heading on the Schools Center homepage.

For more information on the Youth Sports Concussion Safety Act, including specific requirements of the law and other concussion education providers besides IHSA, individuals can access Sports Medicine resources on the IHSA website at <http://www.ihsa.org/Resources/SportsMedicine.aspx>.

For those first adopters of this training, new curriculum from the IHSA/IESA is expected to be released in March of 2018 so those whose training will expire in 2018 will be able to remain in compliance with the law.

Unmanned Aerial Vehicle (Drone) Policy

For IHSA Tournaments

Effective February 18, 2015

The use of unmanned aerial vehicles (“UAV”), also known as drones, is prohibited for any purpose by any persons at IHSA tournament venues. Tournament management shall refuse admission or entry to anyone attempting to use a UAV; and if necessary, tournament management shall remove anyone attempting to use a UAV and/or confiscate the UAV until the event has been completed.

For purposes of this policy, a UAV is any aircraft without a human pilot aboard the device.

An exception to this policy may be made in specific cases for IHSA broadcast partners, provided the management of the tournament facility permits the presence of UAVs for broadcast purposes under the control of the IHSA.

IHSA Tournament Managers/Hosts,

The advent of greater broadcasting technology over the past few years has brought about many new potential broadcasters and many new broadcasting platforms and mediums, especially as it pertains to broadcasting video over on the internet. It is important to remember that most internet video streams of IHSA State Series (Regionals, Sectionals, Super-Sectionals, Football Playoffs) events will require that a broadcast rights fee be paid by the broadcasting individual/company. A new internet video broadcasting fee schedule has been developed and is located below, but first please read these reminders on how to determine if a fee is necessary should you be approached about a video webcast of the State Series event you are hosting. If at any time you ever have questions on the fees or any other matters related to broadcasting or media, please call Matt Troha at the IHSA office (309-663-6377).

BROADCAST RIGHTS FEE PAYMENT REQUIRED

There is an IHSA broadcast rights fee required with the broadcast if any one of the options below is applicable...

- 1) The internet video webcast is originated and accessible to viewers on any third-party website (i.e. media website, IHigh, Ustream, High School Cube, fan site, etc.).
- 2) If the crew producing the internet video webcast is not affiliated with the high school or not composed entirely of high school students and/or high school personnel.

BROADCAST RIGHTS FEE PAYMENT *NOT* REQUIRED

There is no IHSA broadcast rights fee required if both guidelines below are met...

Sectional Complex Seeding Meeting: Each Sectional Complex manager will conduct a seeding meeting for the purpose of seeding **teams** for the sectionals. All four Sectional Complex Seeding meetings shall take place on Monday, April 30, 2018, beginning at 5:30 p.m. Sectional Complex managers will contact schools in their complex announcing the time and place of their meeting. The ultimate objective of Sectional Complex Seeding is to judge the **teams** and their comparative strength so accurately that the four best **teams** are sent to separate sectional tournaments within the complex. Therefore, coaches will be seeding the potential sectional participants that will represent their team in a sectional. Teams should be seeded as fairly as possible whether coaches of a team are at the meeting or not. Individuals entered in the state series will be assigned to the sectional with the least number of teams. If all sectionals have the same number of teams, individuals will be assigned based on the sectional assignment structure.

* A school's entry in singles and doubles, regardless of their position rank, should be considered for a seed.

Sectional Seeding Meeting: Following the Sectional Complex Seeding meeting, schools at the sectional complex meeting will break into their assigned sectionals and conduct a second seeding meeting. The ultimate objective of sectional seeding is to judge the **individuals** and their comparative strength so accurately that the best singles and doubles teams are separated in the sectional draw. Singles and doubles players should be seeded as fairly as possible whether coaches of a team are at the meeting or not.

List of Participants/Playing Schedule is Mandatory: Coaches must complete the online List of Participants prior to the seeding meeting (due no later than 10:00 a.m. on Monday, April 30, 2018). The most current List of Participants must be brought to the seeding meeting along with the school's badminton schedule. A coach can print the List of Participants from the School Center. At the Sectional Complex meeting, school/teams that wish to be considered for a 1-4 Sectional Seed, need to submit an LOP for all athletes. Coaches who do not bring both of these to the meeting will not be allowed to participate in the discussion or vote.

Seeding Factors: Coaches should use the List of Participants as a focus of their discussion. At the end of the discussion, coaches must be able to justify their votes for teams based on the following factors:

- Head-to-head victory
- Record against common opponents
- Total win-loss
- Strength of schedule
- Tonight's evaluation

Seeding in Groups: The seeding will be done in groups of four. The coaches will determine by a vote, the top four teams. The rank of these four teams and the other groups should not be announced until all the seeds have been determined. (Managers can post each group of four on the spreadsheet in alphabetical order.) This prevents the remaining teams from manipulating the assignments. Once these four teams have been determined, the next four teams (5-8) will be voted on. This will continue with 8-12, 13-16, 17-20. Each group of four will be voted on by coaches. Scores/votes will not accumulate. Most likely, the teams in the previous group not seeded will be dropped down to the next group. The sectional draw is to have the top seeds receive the bye.

Group Vote: Coaches will **NOT** vote for their own team. The actual seed vote will not take place until after the groups have been decided. Coaches will use the manager's spreadsheet distributed at the beginning of the meeting to cast their final vote. The coaches must seed within the identified group. (1-4, 5-8, etc.) The previous seeds will have new life. That is the seed's groups will be based on a clean slate. Pass on your seed where your school should fall in the four school grouping and continue to the next number.

The manager will record all the coaches' votes and post them on the overhead using the spreadsheet.

Sectional Assignments: Once the seeds have been determined, the seeds need to be placed in one of four sectionals based on the following structure:

Sectional A	1	8	9	16	17	24	25
Sectional B	2	7	10	15	18	23	26
Sectional C	3	6	11	14	19	22	
Sectional D	4	5	12	13	20	21	Individuals

Sectional Sites: The top seed in each sectional have the first opportunity to host their sectional. If the top seed is not able to host, the next highest seed in the sectional is offered the opportunity, etc. The host school must have presented a Willing to Host Form signed by the athletic director. This form ensures that the facility is available to host.

Host School Material – Awards and Shuttlecocks: Awards and shuttles will be shipped to the Sectional Complex Seeding manager. Sectional Complex Seeding managers should distribute one sectional plaque, four individual medals for singles, four individual medals for doubles players, and the shuttlecocks.

State Final Games Committee: Two coaches from each Sectional Complex meeting are to be elected to serve on the Games Committee. Members of the Games Committee will act as roving officials and rule on issues related to the code of conduct.

Forms: All forms needed to conduct or participate in the Sectional Complex Seeding meeting and/or the sectional meeting is included in the Badminton Manual for Schools and Badminton Manual for Managers.

Step One

Coaches will vote on which schools should be in each group of 4. Here there were 6 schools who wanted to be considered a top 4 team. The schools that were not voted as one of the top 4 will be dropped to the next seed. All coaches will vote in each category for the teams up for consideration although coaches will not vote for themselves.

Step Two

New life vote: Every coach must seed all teams in each group. If a school is in group 1, the school can receive no lower than a 4 seed and no higher than a 1 seed. Again, coaches *will NOT vote for themselves*. Once the manager totals the seeds, the schools are assigned to a sectional based on the Terms and Conditions. Additionally a host school will be assigned for the sectional competition.

The sectional host schools will be determined based on the sectional team seeds. As a measure to prevent confusion, we ask that the coach of a school that is interested in hosting a sectional, communicate with her/his athletic director about the availability of the school's facilities, prior to the Sectional Complex/Sectional Meeting. This "Willing to Host Form" will assist in that communication.

The purpose of the Sectional Complex/Sectional Seeding Meeting is to seed all the school teams assigned to the sectional complex and distribute them to a sectional. The seeded teams will be placed in one of four sectionals, based on their seeds. The highest seeded team in a sectional will have the first opportunity to host their sectional provided there are six or more courts. The next highest seeded team in that sectional will have the next opportunity to host if turned down by the number 1 seed.

If your school has the opportunity to host a badminton sectional, will you be willing to host on one of these dates? (Please mark your preferences by 1, 2, 3 for the dates your school prefers to host.)

State Final Badminton Draw Instructions

Making the State Final Draw

SEEDING CRITERIA IS BASED ON THE FOLLOWING FACTORS:

1. The player(s) entire season shall be the main consideration for the seeding process. Therefore, the results of a sectional win-loss record, direct/indirect victories and losses are only one factor that the committee is to consider.
2. The position played (position 1 or position 2) during the regular season is a factor to consider.
3. The player(s) record as it relates to the strength of the overall season's schedule is a factor to consider.
4. Injury is a factor.
5. Information on the List of Participants is a factor.
Note: These factors all play into determining the seeds and they cannot be ranked or prioritized.
6. Coaches who are serving on the seeding committee whose player(s) are being discussed at the state final seeding meeting shall remove his/herself from participating in the discussion.

A championship and consolation draw of 64 will be used for single and doubles competition.

Members of the IHSAA Girls Badminton Seeding Committee will seed up to 16 singles and 16 doubles based on information presented from the *IHSAA List of Participants* and any last minute information from coaches following the sectional competition.

Once the top singles and doubles players are selected and set aside, an anonymous vote will take place by the state seeding committee to determine the actual seed each player(s) receives. A list of potential players to be seeded will be typed and the seeding committee will have the opportunity to individually vote on each player. The highest and lowest seed each player receives will be thrown out and an average will be taken of the remaining seeds to determine the player(s) overall seed in the state tournament. This vote is final and once completed a player's seed cannot be adjusted.

The anonymous voting is to take place at the state final seeding committee meeting.

1. The committee selects the nominations for seeded players.
2. The players get bunched in rank order 1-4, 5-8, 9-12, 13-16.
3. The committee then votes on the kids 1-4, and selects their seeded positions.
4. The committee then votes on the 5-8 group on who is removed from the group and repeats the process for 9-12 and 13-16 until there are only 16 seeded players left.

The IHSAA will compile data to help prepare the seeding meeting for seeding and completing the draw. Once the seeds have been determined by the seeding committee, they will proceed with the following steps:

1. Teammates from the same school will be placed in opposite halves of the draw.
2. Sectional competitors from the same sectional should be placed in a different quarter of the draw.
3. First place sectional champ does not play any seeded player in the first round.
4. All other players will be randomly placed.
