III. SCHOOLS AND OFFICIALS CENTER INFORMATION, ON-LINE ENTRIES, RULES MEETING PRESENTATION, WITHDRAWAL PROCEDURE, ELIGIBILITY, AFFIRMATIVE ACTION AND REGIONAL/SECTIONAL ONLINE LIST OF PARTICIPANT DECLARATIONS

A. The policy for Original School Entry Deadlines, Late Entries, and Late Withdrawals shall be the policies and procedures regarding entry for all IHSA-sponsored sport/activities. For complete instructions, please login to the IHSA Schools & Officials Center with your Official Representative USER ID and Password. Click on the activity tracker and click the button to add sports for the upcoming year. **Sports Entry Deadline is August 29.**

B. On-Line School Entries

All Official Representatives must login to the IHSA School Center; click on "Sport & Activity Tracker"; click on "enter your teams or

individuals". There you will select the sports and activities your school will participate in during the 2022-2023 school term. IHSA uses this information to assign schools to Regionals and Sectionals after the Fall entry deadline (August 29).

C. Late On-Line School Entries: Schools that wish to enter after August 29 will be considered late. To be considered for late entry, the Principal/Official Representative must email Kraig Garber (kgarber@ihsa.org) for approval. The penalty for late entry shall be a payment of \$100.00 for that sport/activity by the school.

D. Roster Declaration/List of Participant Declarations Six Contest Verification (Team entries only): By checking the Six Contest Verification box in your athletic.net account, schools are verifying that the school's boys or girls interscholastic team has participated in six boys or girls interscholastic meets during the current Boys and Girls Cross Country season. This allows teams to compete for team honors (trophy) during the state meet in accordance with IHSA By-law 3.054.

Individuals: Schools with only individuals competing **do not check the Six Contest Verification box.** Individual entries are not eligible to compete for team honors (trophy).

E. REQUIRED RULES VIDEO (Head Coaches of every participating school and Officials): The Cross Country On-Line Rules Video begins August 9 and ends on September 13. Each participating school must have their **HEAD COACH** view and receive credit for the 2022-2023 cross country rules video. Track and Field Officials opting to participate in the Cross Country State Series must also view the on-line video. To receive credit, the coach/official must view the video in their respective IHSA School/Officials Center. Refer to the Cross Country Manual for Schools for detailed instructions.

NOTICE: If you coach at two different schools or you are a coach and an official, you must contact Cheryl Lowery at the IHSA Office (clowery@ihsa.org), once you have been given credit for watching the presentation once so she can verify and manually give you credit for the other position you hold. Our server runs an update every evening, **if you view the presentation and it doesn't give you credit (within 24 hours) the first time, contact Cheryl Lowery at the IHSA Office.**

F. Breach of Contract By-Law 6.041 (Withdrawal Procedure): You must withdraw by notifying the IHSA Office, not the Regional/Sectional Manager. To withdraw without penalty, the Official Representative from the school must email Tammy Craig (tcraig@ihsa.org) at the IHSA Office, notifying IHSA of the school's intention to **withdrawal by 11:59 p.m. Monday, October 17, 2022.**

G. Eligibility

All member schools in good standing may enter an individual(s) or team under the provisions of IHSA By-law 3.054. In accordance with By-law 3.050, schools are subject to entering eligible student-athletes.

Skill of the Sport Interpretation: In Track and Field as well as in Cross Country the interpretation of the Skill of the Sport is made based upon the surface being used for the individual contest. In the definitions section of the IHSA Handbook the definition for Cross Country Skill of the Sport is: Cross Country — Running any distance on any surface other than a track. For Track and Field, the definition is: Track and Field — Running any distance on a track, jumping for height or distance, throwing or using any implement, technique or motion associated with any field event. Therefore, this means that an IHSA cross country athlete during the IHSA cross country season would be allowed to participate in any non-interscholastic running event so long as it was conducted in total on a track. The track and field athlete during the IHSA season would be allowed to participate in any running event so long as the entire race was conducted on any surface other than a track.

H. Affirmative Action Policy: Only boys may participate in the boys' competition in the meet series and only girls may participate in the girls' competition in the meet series, except as provided in the Illinois High School Association Affirmative Action Policy.

I. Athletic.net Regional/Sectional Online List of Participant declarations: Please review the instructions in the Manual for Schools & Managers for complete instructions. This is the list of athletes which will be participating for your school. Each school entering the state series (whether entering a team or an individual) must submit its Regional/Sectional Online List of Participant declarations via Athletic.net. If a school does not submit the Regional/Sectional Online List of Participants by the deadline, the IHSA administrator for

Cross Country may permit late LOP entries with a \$100 penalty fee. The IHSA administrator for Cross Country may waive the \$100 penalty fee for extenuating circumstances. Other penalties for failing to complete the Online List of Participant declarations by the deadline could include, but not be limited to being ruled ineligible to coach and/or athletes being ruled ineligible to compete in the state series. Schools that do not submit their Online List of Participant declarations by the deadline and are consequently ruled ineligible to compete in the state series will be withdrawn from the state series. A \$100.00 penalty fee will be assessed for failure to withdraw before the LOP deadline, and the school will be locked out from entering through the School's Center during the next school term.

REQUIRED CERTIFIED COACHES NAMES FOR STATE SERIES MEETS:

All coaches who will represent your Cross Country athletes must be designated in the IHSA Schools Center. If a coach on your coaching staff doesn't appear in the drop-down menu on the "Coach Data Form" in the IHSA Schools Center, ALL of the following requirements must be completed: Athletic Directors can verify by logging into the IHSA Schools Center and look in the Staff Responsibility tab in your IHSA Schools Center:

- 1) Designated as Head Cross Country Coach, or Assistant Coach
- 2) Designated coaching certification (ASEP/ISBE/NFHS)
- 3) Designated completion date for the PES Examination
- 4) Designated completion date for the Concussion Risk Management Exam (80%-24 out of 30) Every two school terms.
- 5) Designated completion date for the Hate Speech/Harassment Video (Every Two School Terms).

The Regional/Sectional Online List of Participant declarations through Athletic.net must be completed by **11:59 p.m. Monday, October 17, 2022**. The runners listed on the Regional/Sectional Online List of Participant Declarations are the only runners the school may use during the state series, beginning with the regional. Substitutions at the sectional and/or state final must come from the list of 14 runners on the Regional/Sectional Online List of Participant declarations.

If a school does not submit the Regional/Sectional Online List of Participant declarations by the deadline, coaches and/or participants from the school will be subject to sanctions which could include, but not be limited to being ruled ineligible to coach and/or athletes will be ineligible to compete in the State Series. Schools which do not submit their school's Regional/Sectional Online List of Participant declarations are consequently ruled ineligible for the State Final Series and will be withdrawn from the state series. A \$100.00 penalty fee will be assessed, and the school will be locked out from entering through the School's Center during the next school term.

J. Coaching Staff

All coaching staff must be in compliance with all IHSA coaching requirements and listed in the IHSA School's Center. Please login to your schools center and identify your coaches no later than October 17, 2022. IHSA will use the names from the Schools Center in the State Final program.

Please login to the IHSA Schools Center. Click on IHSA Sport & Activity Tracker; Scroll to Boys or Girls Cross Country; under Online Forms. Click on pink box "Coach Data Form".

Athletic Directors should update the coaching staff in the IHSA School's Center with all eligible coaches. Coaches who are not listed in the IHSA School's Center will not be eligible to coach during the Regional, Sectional or State Final Levels of competition. Participants can't participate without their Certified Coach.

Unauthorized timed (or untimed) races are prohibited on the state final course in the state final Saturday and on days preceding the state finals. Additionally, when meet management declares the course open for practice, only the state qualifiers and coaches whose names appear in the IHSA official List of Participant Declarations will be eligible to be on the course. This will include the week leading up to the state finals, including Friday and Saturday. The penalty for violating this rule will range from placing the offending school on probation up to immediate suspension and disqualification of the offending school, coaches and all qualifiers from participation in the current (and/or future) state finals. Final decisions relative to the severity of the consequences will be at the discretion of the IHSA Cross Country Administrator. This rule is in effect for all CC state series events.

A. Regional to Sectional: In Class 1A the first seven (7) placing teams and the first five (5) runners who are not members of the

advancing teams in each regional will advance to sectional competition at the site to which they are assigned. In addition, in the event the 6th, 7th or 8th place overall individual finisher in the regional is not on a qualifying team, such 6th, 7th or 8th place overall finisher in the individual race shall advance from the regional to the sectional meet.

In Classes 2A and 3A the first six (6) placing teams and the first five (5) runners who are not members of the advancing teams in each regional will advance to sectional competition at the site to which they are assigned. In addition, in the event the 6th, 7th or 8th place overall individual finisher in the regional is not on a qualifying team, such 6th, 7th or 8th place overall finisher in the individual race shall advance from the regional to the sectional meet.

B. Sectional to State Final: In Class 1A, the first six (6) placing teams and the first ten (10) runners who are not members of the advancing teams in each sectional will advance to state final competition at Detweiller Park.

In Classes 2A and 3A, the first seven (7) placing teams and the first ten (10) runners who are not members of the advancing teams in each sectional will advance to state final competition at Detweiller Park.

C. Regional/Sectional Team Ties: For purposes of advancement of teams from regional to sectional and sectionals to the State Final, ties for all team places except the last qualifying spot will be broken per NFHS Rule 8-2-4 (i.e. comparing the 6th runner from the tied teams). If a tie occurs at the last qualifying spot, the teams tied advance. **Note: In the State Finals, team ties for the first three places will be broken by comparing the 6th runner from each of the teams involved in the tie.**

VIII. TOURNAMENT RULES

Host schools must have an AED available and on site at all IHSA post season contests.

A. Substitution: Teams shall be considered to consist of a minimum of five (5) up to a maximum of fourteen (14) runners, each of whose names must appear on the Regional/Sectional Online List of Participant Declarations through Athletic.net. Seven (7) runners may be entered at any level in the state series. Any runner listed on the Regional/Sectional Online List of Participant Declarations through Athletic.net, and only those listed, may be used as one of the seven (7) in the regional, sectional and/or state final. Note: No substitutions may be made by a team (coach) after a tag has been issued to any runner from that team at the starting line.

B. Scoring:

1) **Team Scoring:** The scores of the first five (5) runners from each school to finish

the race will be counted in determining the team's score. Runners from these schools will be eligible for team awards. Schools that enter fewer than five (5) runners and/or schools that have fewer than five (5) runners finish the race at any level in the series will not be eligible for team honors. Schools that are not in compliance with by-law 3.054 are not eligible for team scoring.

2) **Individual Scoring:** Runners from all schools may earn individual awards as provided in section X. Awards A-B-C.

3) **Regional/Sectional Video Review:** The host school conducting all regional and sectional events must provide some form of video review of the finish line. This video review can be as simple as one video camera and one monitor (television or computer, etc.) or as sophisticated as the host school chooses. Placement of this camera is critical. Please consider its placement (height, angle, etc.) carefully. Meet managers must consult the Meet Referee as the decision regarding camera placement is considered. Only the video of the meet management may be used to review the finish of any race. The Meet Referee will review the video of the finish of race to facilitate accurate scoring of each race. Only the referee and meet management may view the finish line video (the games committee may also view the video, but only if invited to do so by the meet referee). IHSA or IHSA Assigned Meet Referees will not view any video from spectators or coach(es) to determine the outcome or placement in a race.

C. Length of Course: Courses for the regional, sectional and state final meets in either the boys/girls series shall be no more than 3.12 miles (5K) nor less than 2.75 miles in length. Every effort should be made to run on three-mile courses. The length of the course for the respective boys/girls Class 1A, 2A and 3A state final will be 3.0 miles.

D. Practice on Course: Practice on the course may be closed if the weather jeopardizes the conditions of the regional, sectional or state final meet course. Weather permitting, practice at the state finals will be allowed beginning at 1:00 p.m. on Friday afternoon.

E. Uniforms: Contestants in the complete meet series shall wear school issued or school approved regulation uniforms that meet NFHS rules and the IHSA interpretations that follow:

1) All competitors will wear a school issued or school approved uniform (shorts, jersey, or bodysuit; one or two-piece, and shoes). Refer to the online rules video for clarification.

2) Competitors are permitted to wear bodysuits in competition. Previously, shorts were required at meets. The bodysuits must still meet other NFHS uniform restrictions, including logo restrictions. They can be either one or two-piece suits.

3) Each team member shall wear the same color and design school issued or school approved uniform (shorts, jersey, or body suit; one or two piece). Same means "similar" or varying shades of the same color. The printing, design, and or lettering on the jersey or bodysuit must be such that each runner can be easily identified, so that as a person views the runner's uniforms together, they appear similar and the team is easily identified. Any undergarments worn under the school issued or school approved uniform are not subject to being the same in color or style. It is legal for a team to wear more than one undergarment.

4) All participants will be issued a numbered bib to be worn on both the front and back of their jersey.

5) Once the race has started, there will be no disqualification for an improper uniform (**unless the uniform is altered after being approved at the starting line by an official**). It is the responsibility of the clerk of the course and or the referee/starter to inspect each competitor's uniform prior to the start of a race. They are not to allow a runner to compete in an illegal uniform. If the clerk is unsure of the uniform's compliance with the rules, they will request a ruling from the referee/starter prior to the start of the race. Any runner that alters their uniform after being approved by a clerk of the course will be disqualified for unsporting conduct (this would include but not be limited to, rolling the top up which could expose the midriff).

6) Removable arm sleeves, calf sleeves and wrist sweat bands are legal to wear in competition.

F. Jewelry: Contestants wearing jewelry will be permitted to compete. Narrow headbands, to keep the hair from interfering with a contestant's vision will be permitted. Contestants with painted bodies or faces as well as any costumes will not be permitted to compete nor participate in awards ceremonies.

G. State Series Rules: All meets will be conducted in accordance with the Track and Field and Cross Country Running rules published in the current National Federation Track and Field Rule Book (or Illinois interpretation of said rules).

1) **Finish Line:** In the regional meets, sectional meets and at the state final, runners will finish each race at the mouth of the chute (the wide mouth chute is required for regional/sectional/state meets and is highly recommended for all races conducted during the season). This is the front end (wide part-front end) of the chute and not the neck (narrow part-back end) of the chute. The width of the finish line at the State Final Meet will be 15 feet. That is also the minimum width for the finish line for races at the regional and sectional. It is recommended the depth of the chute at the regional and sectional be 15-25 feet. Coaches need to practice their runners finishing races by running past the finish line approximately 15-

20 feet in practice and during the regular season. Runners should be taught to run through the finish line just like in races on the track.

2) The races in the regional, sectional and state final meets will finish at the "mouth" of the chute.

3) **State Series Bib Requirements**

a. **Regional and Sectional Bib Requirements:** At all Regional and Sectional Meets, bibs are required (7 ½" x 6"). Bib placement on the front of the uniform will be at the discretion of the Meet Management. Bibs should be white with dark black numerals.

b. **State Final:** At the State Final Meet, computer scoring will be used. The (RFID) computer tag will be attached to the front bib. The bib/chip will be attached with 4 safety pins in a position that is visible on the front of the competitor's uniform. The bib/chip will not be returned to meet management. Competitors must be careful not to bend the front bib as this may damage the computer chip which is attached to the bib.

H. Ergogenic Aids: The use of oxygen, glucose gel, inhalers, water or other prescribed medication that is not a performance enhancer shall be allowed without prior approval.

I. Timing Devices/Watches:

Competitors will be allowed to use/wear watches of any type during IHSA cross country competition.

J. Spiked Shoes: The use of spiked shoes will be permitted in the IHSA Cross Country Series; however, it is recommended that spikes not exceed 5/8 inch in length.

K. Starting Boxes & the area in front of the starting line used for run-out: the only persons allowed in the starting boxes & the area in front of the starting line used for run-out will be the competitors and coaches. Coaches must leave the boxes prior to the start of competition. Once teams and individuals have been called to the starting line by the announcer for final instructions, no further run-out shall be permitted (NFHS Rule 8-4-4). Starting boxes should be between 4 and 6 feet in width. Starting box assignments for the state finals will be determined by a blind draw. The box assignments will be drawn and posted on the IHSA cross country web page following the sectional competition.

L. Finish Line: Meet managers must make every effort to clearly define the finish line. The use of brightly colored cones placed on the outside ends of the actual finish line are recommended.

M. Ethics of Competition and Sportsmanship: Unethical and unsportsmanlike conduct by competitors, coaches and spectators will be penalized under the provisions of By-laws 6.011 and 6.012.

N. The Games Committee: A games committee as described in the National Federation Track & Field rules 3-2-1, through 3-2-8 will be appointed by the Meet Manager. This committee shall act as a jury of appeals (3-5-1). The committee may also be called to meet to discuss the suspension of play due to hazardous weather conditions (Note that either the Meet Referee or Meet Management may make the decision to suspend competition as a result of severe weather). Selected individuals can include school representatives. **NO IHSA OR NFHS RULE MAY BE SET ASIDE OR IGNORED BY THE GAMES COMMITTEE/JURY OF APPEALS.**

O. Posting of State Final Results: Results of the individual races and team scores will be posted for the coaches at a designated area following each race. Complete results will be posted on the IHSA Cross Country respective Websites once they have been certified by Meet Officials.

P. Posting of Regional/Sectional results: Regional/Sectional race results will not be posted by meet management or their designee until the results have been evaluated and approved (signed) by the IHSA meet referee. For all levels of the state series, a period of not less than 15 minutes will be provided for coaches' review of official results after posting and prior to going to the awards stand.

Q. It is highly recommended that an athletic trainer or other EMS be present at cross country state series events (as well as during the regular season).

Quick Start Guide for Event Managers/Timers	https://support.athletic.net/article/lil5s5h41q-quick-start-guide-for-event-managers-timers

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL PRIOR TO THE SEASON

1. Send a reminder card or email to the officials after you have them scheduled.
2. Reminder should include date of contest, time, level, location and sport.

Even though many schools and conferences have assignment chairpersons, sending a reminder is highly recommended. When an official does not show, people in your community won't know who the assignment chairperson is, but they do know the athletic director. **Avoid embarrassment.**

3. Have a standard wage scale set for your different sports and levels and a method in place to raise the pay periodically.
4. If possible, let the working officials know who their partner(s) will be.
5. Hire police and security along with medical assistant or athletic trainer coverage for events whenever possible.
6. Set a policy with your school board on fan, coach and player behavior.
7. Make sure all officials have a contract that is signed by your school—preferably by the principal or IHSA Official Representative.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL PRIOR TO THE CONTEST

1. Prior to the contest, provide the officials with directions and inform them of any special activities that might be occurring (i.e., Homecoming, Senior Night, etc.)
2. Give the official a number they can call in case of an emergency or postponement due to weather.
3. Have competent workers assigned at all contests (scorers, announcers, chain crew, etc.). These people are of great assistance to the official during the contest.
4. Have a host assigned to meet the officials as they arrive. The host should do the following for the officials:
 - A) Provide a reserved parking space.
 - B) Meet officials and take them to the dressing room.
 - C) Have refreshments available for halftime and postgame.
 - D) Ask for any additional needs.
 - E) Introduce the officials to those game workers pertinent to the contest (i.e., scorer, announcer, chain gang, etc.).
 - F) Get the proper pronunciation of officials' names so they are correct when given by the public address announcer.
5. Athletic director should discuss with the officials any special events, conference rules, national anthem time, etc. that would affect the game.
6. Provide the officials with the name of the adult supervisor for that contest and where that person can be found in the event a challenging situation should occur.
7. Make officials aware of location of an athletic trainer or other first responders during the contest. Have a doctor on site when possible (especially at football contests).
8. Make sure all bench personnel are properly attired.
9. Do a check on game scoreboards and lighting systems prior to the game or contest.
10. Make sure the playing area is properly marked and meets National Federation guidelines for that contest.
11. Provide appropriate secured dressing area and hot water showering facilities.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL DURING THE CONTEST

1. Insist coaches display good sportsmanship and are proper examples for your players and crowd.
2. Have your public address announcer or cheerleader read the IHSA sportsmanship statement and remain unbiased during contest.
3. Make sure the event supervisor understands the duties and responsibilities pertinent to that contest.
4. Make sure the playing area is maintained during halftime of each contest. For wrestling, make sure the mat is properly cleaned and washed.
5. Help with adverse weather conditions; monitor accordingly.
6. Make sure proper crowd control is visible and in place. Good administrative control can prevent difficult situations.
7. Observe the crowd during the contest and prevent any disturbances that may occur.
8. Work with the official during the game regarding crowd control.
9. Retrieve the game ball at the end of the contest.
10. Escort the officials back to the dressing room at halftime and at the conclusion of the contest.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL AFTER THE CONTEST

1. Escort the officials safely back to the dressing room and parking lot.
2. Do not allow unauthorized persons in the dressing room after the game. This includes coaches.
3. Have refreshments available for the officials after the contest.
4. Be sure to thank the officials for their time and effort, regardless of the outcome of the game.
5. Make sure arrangements for paying the officials have been completed. It is preferable to pay the official the day of contest.
6. Ensure that officials are not confronted by anyone after the contest.

Emergency Action Plan (EAP)

In accordance with By-law 2.150, a school shall have on file for each student that participates (including practice) in interscholastic athletics a certificate of physical fitness issued by a licensed physician, physician's assistant or nurse practitioner as set forth in the Illinois State Statutes not more than 395 days preceding any date of participation in any such practice, contest or activity. As this By-law addresses pre-participation certification only, there is not a guideline or By-law in place to address release to interscholastic activity following an injury, with the exception of head injury/concussion. With the understanding that schools throughout the state have different needs and services available to them, this document was produced to provide guidelines on an athlete's return to activity following an injury.

Each school should have a written Emergency Action Plan (EAP) in place to address medical emergencies among athletes, staff, officials, and spectators, regardless of severity, occurring during a practice or competition. The plan should also address severe weather, fire, electrical failure, bomb threat, criminal behavior, or other possible emergencies. This plan should be developed to address the unique needs of the individual sport and venue.

EAP's should consist of the following components:

- Personnel
- Communication
- Equipment
- Emergency Medical Care
- Player Medical Information
- Game-day Responsibilities (includes appropriate sideline preparedness)
- Catastrophic Incident Plan

While each school's sports medicine/medical service needs and availability are different, guidelines should also be developed to assist the coaching staff on what injuries should be allowed to return to competition without a medical release. It is not practical to identify every situation or injury; however the following guidelines should assist the school/coaching staff on determining if the athlete should be allowed to return to activity without a release.

1. No swelling or deformity.
2. No headache, nausea, blurred vision, tingling, numbness or sensory changes.
3. Symmetrical (equal to the other side) joint range on motion and strength.
4. Ability to bear weight, without a limp, if injury occurs to the lower body.
5. Ability to complete full functional sporting activities without compensation.

Please remember that the majority of high school athletes are a minor. If there is a question as to their injury and ability to participate, the parents/guardian should be consulted.

Athletes that are unable to meet the above criteria should be encouraged to seek medical treatment prior to return to interscholastic activity. Those athletes that seek medical treatment should be required to provide a written medical release indicating their ability to participate. Without obtaining this release, the school may assume legal liability if the athlete is allowed to participate in activities not permitted by their medical provider.

A proper plan establishes accountability, should be comprehensive, yet flexible, practical, and easily understood. The written EAP must be revised, approved, distributed, and should be rehearsed regularly prior to every athletic season. The athletic department, administration, and sports medicine team share the responsibility to establish, practice, and execute the EAP.

A sample venue-specific is included as a part of this document, which was developed from portions of the third and fourth editions of National Federation of State High School Associations Sports Medicine Handbook. Persons interested in purchasing this handbook can do so at the following location: <http://www.nfhs.org/resources/publications/>

Managing Heat and Heat Illness

Wet Bulb Globe Temperature

These requirements represent minimum standards that IHSA member schools must follow for all athletic activities and competitions, both outdoors and indoor facilities that are not airconditioned. Schools with more restrictive guidelines are not expected to modify any pre-existing guidelines in order to meet this policy. These guidelines will also be used by managers or their designees at all IHSA state series events when the Wet Bulb Globe Temperature (WBGT) is above 80 degrees Fahrenheit. Decisions to suspend and resume activity will be in accordance with these guidelines.

Pre-Practice Preparation:

1. Thirty minutes prior to the start of an activity, and minimally every 30 minutes after the start of the activity, temperature and humidity readings will be taken at the site of the activity. Using a Wet Bulb Globe Thermometer is required.
- a. Record the readings in writing and maintain the information in files of the tournament manager and/or host school administration. Tournament managers may designate someone other than themselves to take these readings.
2. Provide cooling stations such as shade, ice towels, misting fans, etc. for before, during, and after activity.
3. Provide ample amounts of water. This means water should always be available and athletes should be able to take in as much water as they desire.

Use the Table 1 (see below) with an on-site WBGT reading for appropriate exercise modifications during exercising in the heat:

< 79.9	Normal Activities – Provide at least three separate rest breaks each hour with a minimum duration of 3 min each during the workout.
80.0 - 84.5	Use discretion for intense or prolonged exercise; Provide at least three separate rest breaks each hour with a minimum duration of 5 min each. Cold Water Immersion must be available. (see below)
84.6- 87.5	Maximum practice time is 2 h. Contests may conclude if the temperature moves to orange mid-game with the required breaks provided. No new contests may be started if the temperature is in this range. <u>For Football:</u> players are restricted to helmet, shoulder pads, and shorts during practice. If the WBGT rises to this level during practice, players may continue to work out wearing football pants without changing to shorts. <u>For All Sports:</u> There must be 20 min of rest breaks distributed throughout each hour of practice. Cold Water Immersion must be available. (see below)
87.6 - 89.9	Maximum practice time is 1 h. <u>For Football:</u> No protective equipment may be worn during practice, and there may be no conditioning activities. <u>For All Sports:</u> There must be 20 min of rest breaks distributed throughout the hour of practice. Cold Water Immersion must be available. (see below) Consider postponing games or practices until a cooler time of day.
> 89.9	No outdoor workouts. Delay practice until a cooler WBGT is reached. Table 1 (all temperature readings as measured by WBGT devise)

Treatment of Exertional Heat Stroke and Cold-Water Immersion:

In the event of potential Exertional Heat Stroke (EHS), each school participating in interscholastic sports shall be properly prepared and equipped to activate EMS and initiate rapid whole-body cooling using an evidence-based cooling modality. The current best practice for the treatment of exertional heat stroke is rapid whole-body cooling via Cold Water Immersion (CWI) on-site followed by transport to advanced medical care (Cool first transport second). If whole-body CWI is not readily available, alternate evidence-based whole-body cooling techniques can be utilized (e.g. TACO method). The best practices shall be carried out by a licensed athletic trainer, designated healthcare provider, or EMS provider. In the event that these medical providers are not available and heat illness is suspected, cooling should be initiated until advanced medical personnel arrives.

The cooling modality shall be ready for immediate use when WBGT is at or above 80F. At WBGT temperatures below 80F the cooling modality should be readily available.

Cooling Methods Due to Heat Related Illness

Exertional heat stroke (EHS) is relatively uncommon among exercise associated medical conditions, but is a frequent cause of exercise related death. The majority of evidence shows that early institution of body cooling is the most effective method of decreasing mortality in EHS. The following contains recommendations regarding the methods of body cooling, including tubs, ice bags, iced towels (towels with water that have been frozen) water, fans, and shade. The recommendations are classified as essential (foundational to the implementation of treatment, should have resources and personnel directed towards implementation), and desirable (important in maximal implementation, should have resources and personnel directed towards implementation as budget and resources allow). The recommendations are only guidelines, are not intended as a standard of care, and should not be considered as such. These guidelines should only be considered in the care of athletes who can be expected to be at risk of EHS due to the sport or the environmental situation of the activity. Sports especially at risk include football with and without equipment, soccer, and long distance track. Other sports and activities, such as cycling, golf, baseball, tennis, track and field, and band, may also be at risk due to long duration exposure to extreme environmental conditions.

It is essential that member schools and school administrators/officials:

- Establish a written plan coordinated with local EMS for emergency treatment of EHS that includes transport to a hospital and conduct drills in the implementation of the plan as practicable.
- Know how to assess environmental conditions and determine when extreme conditions exist.
- Identify a specific spot at the athletic facility that has shade.
- Have immediate access to ice and bags to contain ice.
- Have access to water, and provide water breaks as outlined in the IHSA Managing Heat and Humidity Policy.
- Know the most effective sites for application of ice to the body.
- Obtain and use, when environmental conditions are determined to be extreme, a tub or pool, filled with water and ice before activity begins, to be used in body immersion for maximal cooling, and have personnel trained in this technique.

It is desirable that member schools and school administrators/officials:

- Have a certified athletic trainer (ATC) on staff, as budget and resources allow, to develop and implement these guidelines.
- Have immediate access to water.
- Provide shade breaks.
- Provide fans when environmental conditions are determined to be extreme.
- Have close access to an air conditioned room.
- Have access to and use iced towels that can be rotated to appropriate areas of the body, including the axilla, groin, and back of the neck.

IHSA Severe Weather Safety Guidelines

To be used during any IHSA state series contest

When thunder is heard, or a cloud-to-ground lightning bolt is seen, the thunderstorm is close enough to strike your location with lightning. Take shelter immediately.

Lightning is one of the most consistent and underrated causes of weather-related deaths or injury in the United States. Nearly all lightning-related injuries occur between the months of May and September and between the hours of 10:00 a.m. and 7:00 p.m. Therefore, the greatest concern for injuries in an outdoor contest appears to be during that time, though it can happen any time of year.

It is essential that local managers, competing schools, and contest officials establish dialogue in advance of contests or events to ensure that all involved are aware of what the plan will be in determining whether or when to suspend play. Local managers are encouraged to share their plan with competing schools and assigned contest officials prior to the start of the tournament/event.

If competing schools have portable devices they will be bringing to a contest/event and/or have specific policy or directions from their administration that they must follow, the school must communicate those to the tournament manager. Tournament managers must know the policies of each school assigned to their tournament or event prior to its start.

PROACTIVE PLANNING

- 1) Assign staff to monitor local weather conditions before and during practices and contests
- 2) Develop an evacuation plan, including identification of appropriate nearby safer areas and determine the amount of time needed to get everyone to a designated safer area:
 - a. A designated safer place is a substantial building with plumbing and wiring where people live or work, such as a school, gymnasium or library. An alternate safer place from the threat of lightening is a fully enclosed (not convertible or soft top) metal car or school bus.
- 3) Develop criteria for suspension and resumption of play:
 - a. When thunder is heard, or lightning is seen*, the leading edge of the thunderstorm is close enough to strike your location with lightening. Suspend play for at least 30 minutes and vacate the outdoor activity to the previously designated safer location immediately.
 - b. 30 minutes rule. Once play has been suspended, wait at least 30 minutes after the last thunder is heard or lightning is witnessed* prior to resuming play.
 - c. Any subsequent thunder or lightning* after the beginning of the 30-minute count will reset the clock and another 30-minute count should begin.
 - d. When lightning-detection devices or mobile phone apps are available, this technology could be used to assist in making a decision to suspend play if a lightning strike is noted to be within 10 miles of the event location. However, you should never depend on the reliability of these devices and, thus, hearing thunder or seeing lightning* should always take precedence over information from a mobile app or lightning-detection device.
**- At night, under certain atmospheric conditions, lightning flashes may be seen from distant storms. In these cases, it may be safe to continue an event. If no thunder can be heard and the flashes are low on the horizon, the storm may not pose a threat. Independently verified lightning detection information would help eliminate any uncertainty.*
- 4) Review the lightning safety policy annually with all administrators, coaches and game personnel and train all personnel.
- 5) Inform student-athletes and their parents of the lightning policy at start of the season.

EVACUATION PLAN

Safe Areas: All personnel, athletes and spectators should be clearly informed of available safe structures or shelters in the event a thunderstorm approaches. A safe structure is any fully enclosed building frequently used by people. In absence of that – athletes and spectators should go to any vehicle with a hard metal roof. Roll up the windows and do not touch the sides of the vehicle. If no safe structure or vehicle is available, find a thick grove of small trees surrounded by taller trees or a dry ditch. Assume a crouched position on the ground with only the balls of your feet touching the ground. Wrap your arms around your knees and lower your head. Minimize contact to the ground since lightning often travels through the ground.

Avoid: Tall trees or objects like light poles or flagpoles, individual trees, standing pools of water and open fields. Also avoid being the highest object on the field. Do not take shelter under trees. Avoid bathrooms if another building is available, and do not use a land-line telephone. A cellular phone or portable phone is a safe alternative if in a secure shelter or vehicle.

Resuming Activity: The NSSL (National Severe Storms Laboratory) recommends that everyone should wait at least 30 minutes after the last flash of lightning or sound of thunder before returning to the field or activity.

Inclement Weather Plan for Regional & Sectional Cross Country Meets

The Meet Referee/Starter and Meet Manager have the authority to postpone or suspend a meet due to inclement weather. Inclement weather includes but is not limited to thunder, cloud to ground lightning, hail, and tornados. Wind, rain, and cold temperatures do not constitute inclement weather. The following protocol should be followed in regard to circumstances surrounding inclement weather:

- A. **If, prior to the start of the first race, inclement weather is in the area**, and it appears that it will interrupt a race, **wait until the inclement weather has cleared** (ensuring that there has been no thunder or lightning for at least 30 minutes) before starting any race. It is in the best interest of everyone not to start the race if inclement weather appears imminent.

- B. **If inclement weather occurs after the start of a race, three long blasts of an airhorn shall be used to notify coaches and runners**. Coaches, umpires, and meet personnel should then begin getting runners off the course and into a safe area. If there is thunder or lightning, seek shelter in a bus, vehicle or nearby shelter. Do not go under a tree or under tents with metal poles. Meet Managers should identify and communicate to coaches any nearby safe areas prior to the meet taking place.

- C. If the race is suspended with the lead runner **less than half-way** through the course, then there will be a **one-hour rest period**. After the rest period, the same runners will go back to the starting line and start the race from the beginning. The Meet Referee and Meet Manager should establish the half-way mark prior to the meet and communicate this information to coaches in advance.

- D. If the race is suspended with the lead runner **more than half-way** through the course, then there will be a **two-hour rest period**. After the rest period, the same runners will go back to the starting line and start the race from the beginning.

- E. **If the majority of the runners have finished** and the race has to be suspended due to inclement weather, **the results will stand if** the appropriate number of **team and individual qualifiers can be determined** per the Cross Country Terms and Conditions and **the last runners who have not finished do not affect the results of the top teams or individual qualifiers that advance**.

- F. If the Meet Referee and Meet Manager feel that a race cannot be completed on the scheduled day, then they must contact the IHSA Cross Country Administrator for further direction. When it is safe to resume, **every effort to complete the race on its scheduled day should be made**.

IHSA Protocol for Implementation of NFHS Sports Playing Rule for Concussions

“Any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the contest and shall not return to play until cleared by an appropriate health care professional.”

The above language, which first appeared in all National Federation sports rule books for the 2010-11 school term, reflects a strengthening of rules regarding the safety of athletes suspected of having a concussion, but not a revision in primary responsibilities in these areas. Previous rules required officials to remove any athlete from play who was “unconscious or apparently unconscious.” This revised language reflects an increasing focus on safety, given that the vast majority of concussions do not involve a loss of consciousness. However, the revised language does not create a duty that officials are expected to perform a medical diagnosis. The change in rule simply calls for officials to be cognizant of athletes who display signs, symptoms, or behaviors of a concussion from the lists below and remove them from play.

NOTE: The persons who should be alert for such signs, symptoms, or behaviors consistent with a concussion in an athlete include appropriate health-care professionals, coaches, officials, parents, teammates, and, if conscious, the athlete him/herself.

Definition of a Concussion

A concussion is a traumatic brain injury that interferes with normal brain function. An athlete does not have to lose consciousness (be “knocked out”) to have suffered a concussion.

Behavior or signs observed indicative of a possible concussion

- Loss of consciousness
- Appears dazed or stunned
- Appears confused
- Forgets plays
- Unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Shows behavior or personality changes
- Can't recall events prior to or after the injury

Symptoms reported by a player indicative of a possible concussion

- Headache
- Nausea
- Balance problems or dizziness
- Double or fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish
- Feeling foggy or groggy
- Concentration or memory problems
- Confusion

This protocol is intended to provide the mechanics to follow during the course of contests/matches/events when an athlete sustains an apparent concussion. For the purposes of this policy, appropriate health care professionals are defined as: physicians licensed to practice medicine in all its branches in Illinois and certified athletic trainers.

1. During the pre-game conference of coaches and officials, the official shall remind the head coaches that a school-approved appropriate health care professional (who meets the description above) will need to clear for return to play any athlete removed from a contest for an apparent head injury.
2. The officials will have no role in determining concussion other than the obvious situation where a player is unconscious or apparently unconscious as is provided for under the previous rule. Officials will merely point out to a coach that a player is apparently injured and advise the coach that the player should be examined by the school-approved health care provider.
3. If it is confirmed by the school's approved health care professional that the student did not sustain a concussion, the head coach may so advise the officials during an appropriate stoppage of play and the athlete may re-enter competition pursuant to the contest rules.
4. Otherwise, if an athlete cannot be cleared to return to play by a school-approved health care professional as defined in this protocol, that athlete may not be returned to competition that day and is then subject to his or her school's Return to Play (RTP) protocols before the student-athlete can return to practice or competition.
5. Following the contest, a Special Report shall be filed by the contest official(s) with the IHSA Office through the Officials Center.
6. In cases where an assigned IHSA state finals event medical professional is present, his/her decision to not allow an athlete to return to competition may not be over-ruled.

Additional information regarding concussion has been made available to IHSA member schools and licensed officials and can be accessed on the IHSA Sports Medicine website at <http://www.ihsa.org/Resources/SportsMedicine.aspx>.

Concussion Information

Return to Play (RTP) and Return to Learn (RTL)

Background: With the start of the 2010-11 school term, the National Federation of State High School Associations (NFHS) implemented a new national playing rule regarding potential head injuries. The rule requires “any player who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the game and shall not return to play until cleared by an appropriate health care professional.” In applying that rule in Illinois, it has been determined that only certified athletic trainers, advanced practice nurses (APN), physician’s assistants (PA) and physicians licensed to practice medicine in all its branches in Illinois can clear an athlete to return to play the day of a contest in which the athlete has been removed from the contest for a possible head injury.

In 2015, the Illinois General Assembly passed the Youth Sports Concussion Safety Act, and this legislation, among other items, required schools to develop Concussion Oversight Teams and create Return to Play (RTP) and Return to Learn (RTL) protocols that student-athletes must meet prior to their full return to athletic or classroom activity

Mandatory Concussion Education

Required concussion education for all athletic coaches and marching band directors is another component of the Youth Sports Concussion Safety Act passed by the Illinois General Assembly in the fall of 2015.

The IHSA program includes two video presentations and other supplementary materials that ALL high school athletic coaches, marching band directors, and Concussion Oversight Team members need to review prior to taking a required exam over the curriculum. Individuals will be required to demonstrate proficiency on the exam by scoring at least 80% in order to serve as an athletic coach or marching band director at an IHSA member school.

The program offers training in the subject matter of concussions, including evaluation, prevention, symptoms, risks, and long-term effects. Coaches will be able to access the program after logging into the IHSA Schools Center and clicking on the “CON” tab, which will be located under the ‘Departments’ heading on the Schools Center homepage.

For more information on the Youth Sports Concussion Safety Act, including specific requirements of the law and other concussion education providers besides IHSA, individuals can access Sports Medicine resources on the IHSA website at <http://www.ihsa.org/Resources/SportsMedicine.aspx>.

For those first adopters of this training, new curriculum from the IHSA/IESA is expected to be released in March of 2018 so those whose training will expire in 2018 will be able to remain in compliance with the law.

Unmanned Aerial Vehicle (Drone) Policy

For IHSA Tournaments

Effective February 18, 2015

The use of unmanned aerial vehicles (“UAV”), also known as drones, is prohibited for any purpose by any persons at IHSA tournament venues. Tournament management shall refuse admission or entry to anyone attempting to use a UAV; and if necessary, tournament management shall remove anyone attempting to use a UAV and/or confiscate the UAV until the event has been completed.

For purposes of this policy, a UAV is any aircraft without a human pilot aboard the device.

An exception to this policy may be made in specific cases for IHSA broadcast partners, provided the management of the tournament facility permits the presence of UAVs for broadcast purposes under the control of the IHSA.

Preparation of the Cross Country Course

Flags:

- The course should be marked by signs or flags clearly visible for a distance of 100 feet. These flags should be at least 6 feet above the ground.
- Flag Designations:**
 - a red flag indicates a turn to the left;
 - a yellow flag indicates a turn to the right;
 - a blue flag indicates a course straight ahead.

Lines:

- Turns and guidelines should be indicated by a line on the ground drawn with White Athletic Field Marker (Non-Caustic). The NFHS allows that the course be marked by a set of two parallel lines if meet management chooses to do so. Remember that if flags are also used in conjunction with two lines, it is always the flags that take precedent when defining the actual course. The time and effort put into the marking and placing of proper guides on the course will result in a better understanding by the coaches and runners.

Safety:

- It is recommended that in the interest of safety:
 - use rigid poles that are padded;
 - place the poles near natural boundaries such as trees and bushes;
 - have an official stationed by the flags and poles;
 - protect all metal chute posts with padding or wrap.
- Obstructions on the ground that might cause tripping should be removed from the path of the runners. These obstructions may result in serious fall and possible injuries.

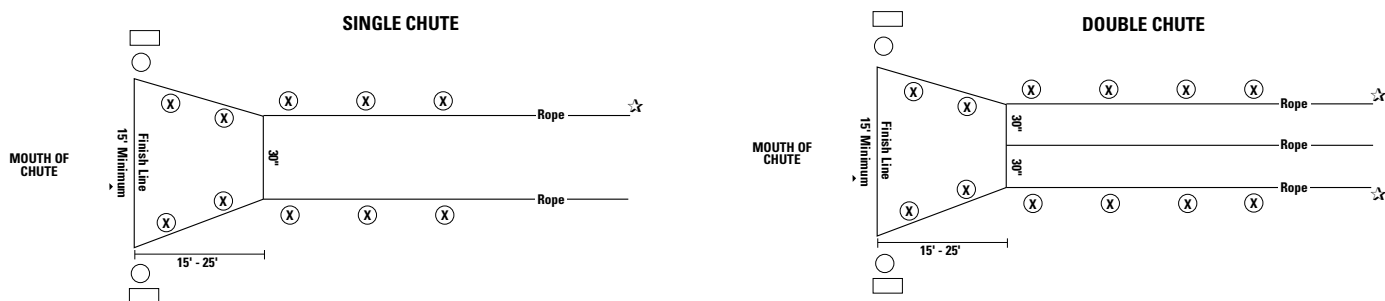

Starting Line:

- The starting line should be placed so that there is a long straight-away before a turn is reached. A minimum of 300 yards should be available to the runners before there is a gradual narrowing. This allows the runners to become spread out before the turn. The straight-away at the start should be wide enough to accommodate all the teams and individual runners.
- The starting line should be drawn with White Athletic Field Marker (Non-Caustic), 2 inch wide, and placed at a right angle to the direction for the starting straight-away. It should extend a distance that provides that starting boxes are between 6 and 8 feet wide. If a number of single entries are in the meet, additional space on the starting line should be provided.

Finish Line:

- The finish should be at the end of a straight-away extending a distance of at least 150 yards. The finish line should be at the “mouth” of a rope chute. The mouth of the funnel should be at least 15 feet wide. The chute should be 15-foot wide at the mouth and narrow down at least 15-25 deep. Give the runners ample space in the chute. The rope should be supported by stakes place approximately 20 feet apart. The stakes at each end should be driven in to ground or set in post holes. They should be solid enough to permit the rope to be drawn tight. They should be padded. **It is a requirement to have at least one camera set up to capture the finish of each regional/sectional race.**

Diagram of the Chute

Length of chute: 15-25 feet or more

Width of chute: 15 feet down to 30 inches

Height of rope: 40 inches

○ TIMER ☆ TAG PULLERS

Posts at the finish line should be well padded.

Rope on each side of finish line for a distance of approximately six feet beyond the finish line should be wrapped to prevent rope burns.

Posts should be placed approximately 20 feet apart.

All officials and workers should be made thoroughly familiar with the duties and responsibilities. Typewritten instruction sheets, prepared in advance and placed in their hands, will remove the necessity of last-minute instructions.

2. assist at the starting line

Finish Judge

1. stand at the finish line and determine the proper order of contestants as they cross the finish line; have final authority on the order of finish.

The Finish Judges and the Chute Judges are responsible in seeing fairness prevail. It can get hectic when a jam-up occurs. The video cameras prevail most creditably in these circumstances. Use another official (assistant referee) to read the videos should a conflict arise. (This eliminates any time delays for the next race.)

Chute Inspector

1. supervise the runners in the chute. Any runner after crossing the finish line is entitled to his/her position in the line;
2. assist in every way possible to see that each runner is properly checked in the order of his/her finish.
The "**CHUTE**" **INSPECTORS** gather at the Finish Line and go over all finish procedures. Nothing is left to chance — the officials should be experienced in their duties. Track and Field officials registered with the IHSA are preferred.

Caller

1. be located in such a position at the finish line that he/she can clearly see the number of each contestant as they cross the finish line;
2. call the numbers of each contestant in the order of their alignment at the finish. The caller's voice should be of a quality that can be clearly understood by the checkers recording the finish. In the event more than one finisher crosses the finish line at the same time, the Finish Judge will determine the placing of the runners.

Procedures at the "End of the Chute"

1. You may consider using a "Caller" with a cellular phone that reads the competitors number when they reach the end of the chute. The cellular connects with an official inside the school building (where it is warm and quiet). This is the "Primary Method" for scoring.
2. Back-up systems are as follows:
 - a. The "Caller" has a tape recorder that identifies finishers.
 - b. Assistant to the "Caller" writes down the competitor's number.
 - c. Video Review in some form is required at all regional and sectional meets.
3. At the State Final, the "Timing Tape" is a back-up taken and recorded.

Checkers

It shall be the duty of the Checkers to record the order of the finish as given to them by the caller and/or finish judge(s). In case of a conflict in records, if two are in agreement, their records shall be recorded as official. If an agreement cannot be reached, the final decision shall be made by the referee.

Course Umpire

1. observe the conduct and course of the runners during the race;
2. record the numbers of contestants that are in violation and report the infractions to the referee.

It shall be the duty of the Timers to time the winner of the race.

Numbers

Numbers may be prepared from sign cloth, white window blind material or any other material durable enough to prevent safety pins from pulling out.

The manager should assign a number to each team and each runner on the team should be assigned a number in the order of his/her ability.

Example:

A team is assigned number 3. Then each runner on the team will bear the team number and, in addition, his/her number on the team. The members of the team, in order of their ability, would bear the following numbers on both the front and back:

3-1, 3-2, 3-3, 3-4, 3-5, 3-6, 3-7

This system of numbering simplifies the scoring at the end of the meet.
