The student must pass twenty five (25) credit hours of high school work for that semester in order to be scholastically eligible in the next semester. "Withdrawn passing" is not considered to be passing work for the semester. - 91.2)** Q. When a student transfers from one state to a member school and is scholastically ineligible according to that state's academic standards, what is the student's academic eligibility status?

- A. High school sports are best controlled and conducted fairly when students reside full time with their parents and attend high school in the district in which they reside with their parents. Departure from this basic premise requires circumstances which are within the parameters established within Article 1.460 of the IHSA Constitution, which do not conflict with the overall purpose and scope of the by-laws. (By-law 3.031.1)

### **92) ELIGIBILITY WHEN PARENTS MOVE**

(By-law 3.031.1) If the family move occurs after the beginning of the school term, and the student has not participated in a sport during that school term prior to the transfer, the student may attend either the public or private school in the school district into which the student and parents have moved, but the student will be ineligible for a period of thirty (30) days. If the student in this situation has participated, by trying out for, practicing or competing as a member of a team in a sport during the school term prior to the transfer, the student will be ineligible for the remainder of the school year in that sport and will be ineligible for a period of thirty (30) days from the date of the transfer in all other sports.

- Q. In multiple high school districts, may a student attend a district wide academy or attendance center within the school district, but outside of their attendance area, and retain athletic eligibility? (special education program, gifted program, vocational program, ROTC, etc)
  - A. Yes. However, a student must enter the special center as an incoming freshman or as a transfer student enrolling in the district for the first time. Any subsequent transfer to a high school within the district may result in a period of ineligibility not to exceed 365 days. (By-law 3.031.1)

- 95)**
- Q. In multiple high school districts, is an incoming freshman eligible if he/she attends the high school where his/her sibling currently attends, even if high school is outside of their attendance area?

- 96)**
- Q. Does By-law 3.031.1 apply to students enrolled in multiple high school districts prior to the 2010-11 school term?
  - A. No. By-law 3.031.1 takes effect for incoming freshmen and transfer students beginning with the 2010-11 school term. (By-law 3.031.1)

- 97)**
- Q. Are students who enroll as incoming freshmen in a high school outside of their attendance area as a result of court ordered plan eligible?
  - A. Yes. However, any subsequent transfer to a high school within the district may result in a period of ineligibility not to exceed 365 days. (By-law 3.031.1)

- 98)**
- Q. In the same situation as the previous Illustration, may the student become eligible for a subsequent term if he/she never transfers to a school in the district into which the parents have moved?
  - A. No. (By-law 3.034.2)

- 99)**
- Q. Where is a student eligible if the parents are maintaining residences in two or more school districts?

In the second situation, the student must continue to reside in the district where he/she attended school the previous school term. (By-law 3.031.3)

**100) LEGAL GUARDIANSHIP**

- Q. What is legal guardianship, and how must it be documented when requesting an eligibility ruling?
- A. Legal guardianship entails issuance of Letters of Guardianship of a student's person or person and estate by a court. It must be an order signed by a judge and/or the clerk of the court as the judge's representative. A file stamped copy of the Letters of Guardianship court order, along with a copy of the petition filed with the court at the hearing seeking that order and other evidence the court had to determine appointment of the guardianship, must be attached to each request for an eligibility ruling involving a change in legal guardianship. (By-laws 3.030 and its sub-sections and 3.040 and its sub-sections)

**101) TUITION PAYMENT AND ELIGIBILITY**

- Q. If a student's parents do not reside in the district and the student is a tuition paying nonresident at the high school he/she attends, is the student eligible?

(By-law 3.031.2)

**102) ELIGIBILITY OF SHARED-TIME STUDENT**

- Q. What is the eligibility status of a student who takes part in a shared-time instructional program at two or more schools?
- A. Such student will be eligible at his/her home high school, provided he/she is enrolled there, all credit earned at other attendance centers is recorded toward graduation from the home high school, and the student is meeting all of the IHSA academic and other eligibility requirements. May a special education student, who is enrolled at a member high school but participates in a special education program at an area cooperative center or school location assigned by the Special Education Cooperative, make an annual choice of the school at which he/she will be a participant in interscholastic athletics?
- A. Yes. Students from member high schools assigned to special education centers or other locations may be eligible to participate either at the school housing the student's classes or at their home high school. At the beginning of each school term, such students must determine the site at which they wish to participate during that year. They are then eligible, in regard to residence and attendance, for that year only at the school chosen, and any change constitutes a transfer subject to compliance with all by-laws. (By-laws 3.011 & 3.031.1)

## **3.040 TRANSFER**

The eligibility of a student who transfers attendance from one high school to another high school is subject to the following Sections 3.041-3.047 and their sub-sections. Such student must additionally be in compliance with the applicable residency provisions of By-laws 3.031-3.034 and their respective sub-sections after the transfer. Except as provided in Section 6.010 of these by-laws, a student who does not comply with the applicable provisions of Sections 3.041-3.047 of these by-laws and their sub-sections shall be ineligible for a period not to exceed 365 days.

**3.041** In all transfer cases, both the principal of the school from which the student transfers and the school to which the student transfers must approve of the transfer and execute a form provided by the IHSA Office. This form is to be initiated and signed by the principal of the school to which the student transfers and provided to the principal of the school from which the student transfers for signature by that principal. The concurrence of the principals accepting a transfer shall not be determinative of eligibility or binding on the Executive Director and/or the Board of Directors who shall have the discretion to investigate the accuracy of such conclusion and to override the acceptance of a transfer if evidence of violation or avoidance of non compliance with any by-law, or recruiting in connection with the transfer is found. A student is not eligible to participate in an interscholastic contest until the transfer form, fully executed by both principals, is on file in the offices of the school to which the student transfers.

**3.042** **After the official start date of an IHSA sport season** for the current school year, if a student changes attendance from that high school to another high school, the student shall be ineligible for the remainder of the school year in any sport in which he/she participated or was participating in a practice or interscholastic contest in the current school year at the school from which the transfer occurs; or

Once classes begin in a school for the current school year, if a student changes attendance from that high school to another high school, the student shall be ineligible for a period of thirty days, commencing on the first day of attendance at the new high school, in any sport in which he/she was not participating or had not participated during the current school year at the school from which the student transferred.

**3.043** In addition, a student who transfers attendance from one high school to another high school pursuant to these by-laws, shall be ineligible unless:

- 3.043.1** The student transfers attendance in conjunction with a change in residence by both the student and his or her parents, custodial parent, surviving parent (in the case of a student with one deceased parent), or guardian from one public high school district to a different public high school district; or
- 3.043.2** The student transfers attendance from one public high school in a school district which supports two (2) or more public high schools to another public high school in that school district, and the transfer is in conjunction with a change in residence by both the student and his or her parents, custodial parent, surviving parent, or guardian to a residence within the boundaries established by the governing board of the school district for the high school to which the student transfers; or

**3.043.3** In the event the student transfers attendance from any high school to any other high school, and the transfer is not in conjunction with a change in residence by both the student and his or her parents, custodial parent, surviving parent, or guardian to a residence outside the boundaries of the public school district attendance area the family originally resided in, the Executive Director then grants eligibility based on documentation that the transfer was necessitated by one or more of the following:

- Change in family's financial position
- Extenuating circumstances documented by the sending school's principal or official representative

**3.043.4** The student, who is a child of divorced or legally separated parents, transfers attendance from one high school to another in conjunction with a change in legal custody between the parents by action of a judge of a court of proper jurisdiction, and a change in the student's residence from the former custodial parent to the parent to whom custody has been awarded by the court, provided that a copy of the petition and the court order so changing custody is on file with the principal of the high school to which the student transfers.

**3.044** The student, who (a) is an orphan; (b) is a child of divorced, legally separated, or unmarried parents with respect to whom there has not been a change in custody ordered by a court of proper jurisdiction; or (c) is a ward of the state who transfers attendance from one high school to another high school, shall be subject to the eligibility provisions of Sections 3.043.1-3.043.3 as if the student resided with his/her parent(s), provided that following the transfer, the student continues to reside with the same family, foster family, group home or other unit or entity after the transfer as prior to and at the time of the transfer.

**3.045** In the case of a student who transfers attendance from one high school to another in conjunction with the adoption of the student after the student has entered high school for the first time, or a change in guardianship of the student by order of a court of proper jurisdiction, the student shall be ineligible pending a ruling by the Executive Director. In such cases, the Executive Director may grant eligibility only if it is determined, after investigation, that the circumstances giving rise to the change of guardianship or adoption and the transfer were completely beyond the control of all of the following:

- (1) the student
- (2) the student's parent(s)/guardian(s)
- (3) the schools to and from which the student transferred.

Any action, inaction, or voluntary or self-initiated decision of the student, parent/guardian or the school to or from which the student transfers, or any one or more of them, which results in, affects, causes or pertains to the transfer shall not be considered to be "circumstances completely beyond the control." The student may practice, but shall not participate in an interscholastic athletic contest until a ruling on the student's eligibility has been made by the Executive Director.

**3.046** In all other circumstances involving a transfer, the student shall be ineligible pending a ruling by the Executive Director. In such cases, the Executive Director may grant eligibility if it is determined after investigation that the circumstances giving rise to the transfer were completely beyond the control of all of the following:

- (1) the student
- (2) the student's parent(s)/guardian(s)
- (3) the schools to and from which the student transferred.

Any action, inaction, or decision of the student, parent/guardian or the school to or from which the student transfers, or any one or more of them, which results in, affects, causes or pertains to the transfer shall not be considered to be "circumstances completely beyond the control." The student may practice, but shall not participate in an interscholastic athletic contest until a ruling on the student's eligibility has been made by the Executive Director.

**3.047** The member school to which a student transfers shall enforce any period of ineligibility imposed or that would have been imposed upon the student by the school from which the student is transferring, even if the student is otherwise eligible under these by-laws. The period of ineligibility at the school to which the student transfers shall be the remaining duration of the period of ineligibility imposed or that would have been imposed had the student not transferred, but not longer than 365 days after the date of the transfer, whichever is less.

- 104)** Q. What evidence is required to affirm that a student and his/her parents have moved to a new school district and are living there full time?  
A. Documents requested by the Executive Director, including but not limited to some or all of the following: a lease or rental contract, closing documents, recorded title, affidavit of parent and student, documentation from the principals of the respective schools involved, telephone/utility and post office records, and such other evidence as may be deemed necessary by the Executive Director in a particular situation to enable the Executive Director to verify the facts. Schools requesting an eligibility ruling that provide such documents and information shall be subject to penalty if the information provided is found to be false.
- 105)** Q. What evidence is required to affirm that a student and his/her parents are living within a 30 mile radius of the private school the student attends?  
A. The same documents as set forth in response above.
- 106)** Q. If a family (parents and children) moves from one school district to another school district after the official start date of an IHSA sports season, what factors will the Executive Director consider in applying By-law 3.042 and ruling on the eligibility of students who transfer in connection with such moves?  
A. Factors to be considered by the Executive Director will include but not be limited to the following:  
(1.) Whether it is documented that the move was necessitated by an employment transfer.  
(2.) Whether it is documented that the move was necessitated by a change in employment.  
(3.) Whether it is documented that the move was necessitated by a change in family status.
- 107)** Q. If parents divorce or become legally separated after the start of classes for the school term and their child transfers to live in a different district with the parent who is granted custody, what factors will the Executive Director consider in ruling on the student's eligibility?  
A. Factors to be considered by the Executive Director will include but not be limited to the following:  
(1.) Certified court documentation of custody.  
(2.) Copies of file stamped court documents pertaining to the divorce or legal separation.  
(3.) Documentation of specific circumstances which necessitate the student's transfer, particularly if the transfer occurs after the start of classes in a school term.

(5.) Documents to show the residence of the student and the custodial parent.
- 108)** Q. If parents divorce or become legally separated with joint custody assigned by the court, and the student moves to live with one parent or the other in a different district and transfers to a member school in connection with this move, what factors will the Executive Director consider in applying By-law 3.040 and its sub-sections and ruling on the student's eligibility?  
A. The same factors as stated above plus an acknowledgment that the student is eligible at only one school, and any move thereafter will create the need for a ruling from the Executive Director before the student can participate on a school team.
- 109)** Q. A student's parents never married and no court custody has been established. What is the student's eligibility regarding residence if the student:  
(a.) Lives with the birth mother and attends school in the district where they live together full time?

In c, the student is eligible in regard to the transfer by-law.
- 111) LEGAL GUARDIANSHIP**
- Q. What is legal guardianship, and how must it be documented when requesting an eligibility ruling?  
A. Legal guardianship entails issuance of Letters of Guardianship of a student's person or person and estate by a court. It must be an order signed by a judge and/or the clerk of the court as the judge's representative. A file stamped copy of the Letters of Guardianship court order, along with a copy of the petition filed with the court at the hearing seeking that order and other evidence the court had to determine appointment of the guardianship, must be attached to each request for an eligibility ruling involving a change in legal guardianship. (By-laws 3.030 and its sub-sections and 3.040 and its sub-sections)

- 112)** Q. May a student who has transferred to an IHSA member school from out of state participate in the same sport he/she was participating in prior to the transfer?  
 A. In a situation like the one above, a ruling from the IHSA office is required. If it is determined that the student, the family and the school are in a circumstance completely beyond their control, the student may be ruled eligible. (By-law 3.042)
- 113)** Q. May a student who played girls soccer for her high school in the fall in Missouri play girls soccer in the spring in Illinois if her family moves from Missouri to Illinois?  
 A. Yes. The IHSA Board of Directors has determined that the season in which a sport is played in another state is a circumstance beyond the control of the student, the family and the school. (By-law 3.042)

### 3.050 PARTICIPATION LIMITATIONS

**3.051** After they enroll in the ninth grade, students shall be eligible for no more than eight (8) semesters. They shall not be eligible for more than the number of semesters for which their school is recognized by the Illinois State Board of Education.

**3.052** Their last two (2) semesters of possible eligibility shall be consecutive. Other semesters of possible eligibility need not be consecutive.

**3.053** After becoming a student in ninth grade, the student shall not be eligible for more than four (4) consecutive school years of competition in any sport.

 A. A ninth grader, whether or not he/she participates on high school or junior high school athletic teams, uses two possible semesters of eligibility and has no more than six remaining. If such a student participates in either high school or junior high school athletics, that participation counts as one school year of athletic competition in each sport in which the student participates. (By-law 3.051 and 3.053)

**116) JUNIOR HIGH PLAYERS ON HIGH SCHOOL TEAMS**

- Q. May students who are not yet in high school practice or participate on high school teams?  
 A. No. (By-laws 3.051, 3.053, 3.011 and 3.132)

**117) SIX-CONTEST RULES**

Note: The following illustrations are all written in the context that the six (6) required contests under the by-laws must be played in the same sport in the season in which the state tournament series for the sport is conducted.

- 117.1)** Q. If a school permits girls to participate on its boys cross country team and those girls run in six or more boys cross country meets during the season, may the boys meets satisfy the requirement of six (6) interscholastic meets needed by the girls to qualify for team competition in the girls state meet series?  
 A. No. (By-law 3.054)
- 117.2)** Q. Does participation in summer baseball games satisfy the six contest requirement for state tournament series participation?

If a school has eight girls softball games scheduled with signed contracts, and three of those contests are rained out and cannot be rescheduled and played prior to the date of the beginning of the state tournament series, may the school participate as a team in the girls softball state series even though it has actually played only five softball games prior to the beginning of the series?

- 117.4)** Q. If a school has too few participants on its wrestling team to enter a contestant in each weight class, but has competed in more than six contests against other schools during the season, may the school participate as a team in the IHSA state wrestling series?  
 A. Yes. (By-law 3.054)
- 117.5)** Q. How is a double dual or a doubleheader counted under the terms of the participation limitations and the six-contest requirements of By-law 3.054?

A double dual in which the participants compete only once will be counted as one (1) date (for the school) and two contests (for an individual). A double dual in which the participants compete twice (against different opponents) will be counted as two (2) contests. (By-law 3.054)
- 117.6)** Q. If a girls team competes against boys teams from other schools, may such contests be counted toward the six contest requirement for the girls team in that sport?

- 117.8)** Q. May a freshman, sophomore or junior varsity team contest be counted as one of the six required contests?  
 A. No. Only varsity team contests may be counted. (By-law 3.054)

 A. In most sports, the school identifies a team it defines as "varsity" at the start of the season and that team fulfills a schedule of contests arranged for the "varsity" team. This team is considered to be the team which comprises the most skilled competitors in the sport and is the team which is the school's representative at its highest level of competition, including the state series. (Constitution 1.420)
- 117.10)** Q. What determines whether a contest is a varsity contest?  
 A. The level of competition for a contest is regularly specified on the contract which schools enter into for a given contest. It is the Board of Directors' interpretation that unless otherwise mutually agreed upon by the principals/official representatives of all competing schools prior to the contest, the level of competition specified on the contract designates the level of the competition. (Constitution 1.420)

**118) INDIVIDUALS IN STATE SERIES**

- Q. If a school does not maintain a team in a sport that involves individual events, but has one student who wishes to compete in a state series, may the school enter the individual student in the state series?

In the enforcement of the rule, member schools shall be responsible for any violation committed by any person associated with the school, including principals, assistant principals, coaches, teachers, any other staff members or students, or any organization having any connection to the school.

- 3.071** Recruitment of students or attempted recruitment of students for athletic purposes is prohibited, regardless of their residence.
- 3.072** It shall be a violation of this rule for any student athlete to receive or be offered any remunerations of any kind or to receive or be offered any special inducement of any kind which is not made available to all applicants who enroll in the school or apply to the school.

Special inducement shall include, but not be limited to:

- (1) Offer or acceptance of money or other valuable consideration such as free or reduced tuition during the regular year or summer school by anyone connected with the school.   - (10) Offer or acceptance of help in securing a college athletic scholarship.
- 3.073** It shall also be a violation of this rule to induce or attempt to induce or encourage any prospective student to attend any member school for the purpose of participating in athletics even when special remuneration or inducement is not given.

Schools are not prohibited from conducting academic recruitment programs, programs which may include information concerning the school's extracurricular offerings. However, such recruitment programs must be designed to provide an overview of the academic and extracurricular programs offered by a school and are not to be used as a subterfuge for recruiting students for athletic purposes. Such general recruitment programs permissible under this rule shall be carried out under the following guidelines:

- With the exception of an open house conducted at a member school, no member of a school's coaching staff may present or distribute the school's information to students not yet in high school unless they are representing all phases of the entire high school program at official junior high functions such as high school nights, fairs, days or visits.
- Any information presented or distributed shall be limited to the academic and extracurricular offerings provided by the school. The information may include a description of the athletic facilities available at the school.
- Any information presented or distributed shall not imply, in any manner, that the member school's athletic program is better or more accomplished than any other member school's athletic program.

- Information may be presented or distributed only at an open house conducted at a member school or at a school housing grades below the ninth from which the member school can normally expect enrollment.

## Illustrations for Section 3.070 of the By-laws

The illustrations and situations it contains are for purposes of assisting in understanding the application of the particular by-law to which they pertain. In the case of any conflict, whether actual or believed, between the illustrations, examples or situations in this publication and the constitution or by-laws of the IHSA, the constitution and by-laws shall control.

### Introduction

IHSA By-law 3.070 and its sub-sections focus attention on the solicitation or inducement of young people to attend a particular high school in connection with participation in interscholastic athletics. It is important to note that these rules do not prohibit legitimate high school public relations, promotion or marketing. Rather, these rules prohibit capitalization upon a school's athletic program and/or a young person's athletic interest, potential or proficiency as a factor in determining school attendance.

### Contacts with Prospective Students

- 120)** Q. May an employee, booster club member, alumna/alumnus or individual providing volunteer service to a member school make a home visit to a prospective student athlete for recruiting purposes?  
A. No. (By-law 3.073)
- 121)** Q. Does registration and attendance at a school's "Open House for Prospective Students" constitute a "formal request for admissions information"?  
A. Yes. (By-law 3.073)
- 122)** Q. May a coach initiate contact with a prospective student-athlete?  
A. No. (By-law 3.073)
- 123)** Q. May school administrators initiate contact with a prospective student-athlete?

- 124)** Q. May a coach or school official who is approached by a parent distribute contact information for the school?  
A. Yes. (By-law 3.073)
- 125)** Q. May school personnel respond to an inquiry by providing information either verbally or in writing about the school's academic and/or athletic program?  
A. Yes, provided the information is purely factual and provided the responding individual is not a coach relating to his/her own sport(s) or in any way appraising the inquirer's talent, potential opportunities or prospects for athletic participation at the school. (By-law 3.073)
- 126)** Q. If a family is moving into the area and has stopped by the athletic office because they are "shopping" for a school, may specifics about a particular sport be discussed?  
A. Yes, provided "specifics" includes only factual information and the family initiates the contact. However, the family must be directed to the administrative or admissions office. (By-law 3.043)
- 127)** Q. May high school personnel direct inquiries regarding feeder teams to feeder team personnel?  
A. The name or designation of the team is not material. High school personnel may provide information regarding all programs in their community which provide participation opportunities for pre-high school students. No specific program may be singled out or identified as preferable, recommended or advised, or in any other way connected to the high school. (By-law 3.073)

### School Publicity and Promotions

A. Yes. (By-law 3.072)
- 133)** Q. Is there a distinction between a scholarship and financial assistance?  
A. Yes. "Financial assistance" is a monetary contribution or credit toward payment of school costs, granted exclusively on the basis of objectively determined need. A "scholarship" is monetary contribution, remission of tuition, or credit toward payment of school costs based upon selection criteria of any kind other than need. (By-law 3.072)

- 139)** Q. May a student-athlete receive a scholarship for high school attendance?  
 A. Yes, provided: (a) the scholarship is administered and approved by the school, (b) the school maintains and follows published criteria for the eligibility and selection of recipients which comply with the criteria approved by the Board of Directors as required in Section 1.250 of the Constitution, and (c) athletic interest, experience, skill, performance, talent or potential are in no respect any part of the selection and/or eligibility criteria for the scholarship. **167) WHAT CAN BE PROVIDED TO CHAMPIONS?**

- 167.1)** Q. In recognition of a team's accomplishments, may team members receive items such as gift certificates for dinners, jackets, sweaters, watches, etc.?  
A. Gifts such as these are permitted only if no individual item exceeds \$75 in "fair market value" and items totaling no more than \$75 in fair market value are provided by any one sponsor. (By-law 3.083)
- 167.2)** Q. Is it acceptable if, by virtue of a student's performance in an athletic contest, the student is awarded:  
(a) \$1,000 in the form of a college scholarship?  
(b) \$1,000 donated to the scholarship fund of the college of his choice?  
(c) \$1,000 donated in the student's name to charity?  
(d) \$1,000 donated in the student's name to the athletic program at high school?  
A. IHSA By-laws prohibit a student from receiving any amount of cash for participating in an athletic contest. This is true even if the reward is delayed for presentation following the student's graduation from high school. Consequently, example (a) is not permitted, but examples (b), (c) and (d) are acceptable, since the student personally does not and will not receive any cash or merchandise. (By-law 3.083)  
Note: While a student may not directly receive a scholarship, a scholarship may be given to a college or university and the student may receive the benefits of the scholarship fund if he/she attends that university. Failure to attend the school designated by the students forfeits the student's opportunity to receive any and all benefits of the scholarship. In such an event, the student may not receive any portion of the scholarship in cash. (By-law 3.083)

- Q. May a student participate in a "jog-a-thon," "swim-a-thon," or other "-thon" activity and receive cash or merchandise prizes for his fund-raising effort?

**170) ATHLETE AS A MODEL**

- Q. If a student-athlete who is selected by audition is paid \$250 to appear in a TV commercial for athletic equipment, is the student in violation of the amateur rules?

**171) COMPETE WITH PRO**

- Q. May a student participate as a team member with a professional?  
A. Yes, provided the student does not receive cash of any amount or merchandise prizes which exceed \$75 in "fair market value". (By-law 3.083)

**172) COMPETE AGAINST PRO**

- Q. May a student participate in a contest against a professional?  
A. Yes. (By-law 3.083)

**173) DESIGNATION OF WINNINGS TO OTHERS**

- Q. May a student participate as a substitute in a non-school sports program with the person for whom the student substitutes receiving cash or merchandise prizes as a result of (1) the student's substitute performance, or (2) the performance of the team to which the substitute student contributed?
- A. In (1), the student will be considered to have received cash or illegal merchandise in violation of the by-laws, even though actual possession of the reward was granted to another individual. Designation of cash or merchandise won by a student in competition to an individual is viewed to be acceptance of the award by the student and may be in violation of the provisions of IHSA amateur rules. (By-law 3.083)
- In (2), a student's score may contribute to a team score by which other members of the team may win a cash, gift certificate or merchandise reward, provided the student personally receives nothing other than a medal, cup or trophy. If a team on which a student is a substitute wins a cash or merchandise prize that is divided among team members, the student is not in violation if the individual substituted accepts a share of the team prize. The student simply cannot accept or designate to someone else a share of the prize for his/her own performance with the team. (By-law 3.083)

**174) EXPENSE REIMBURSEMENT**

- Q. Does acceptance of reimbursement of expenses for non-school competition constitute an amateur rule violation?

**175) EVIDENCE OF EXPENSE**

- 3.091** In the event students participate in interscholastic competition under any other name than their own, a student's principal shall immediately suspend violators from further interscholastic participation. The future interscholastic participation of violators and/or persons contributing to a violation shall then be considered by the Board of Directors.

---

**3.100 INDEPENDENT TEAM PARTICIPATION**

- 3.101** During the school season for a given sport, in a school which maintains a school team in that sport, a student shall not participate on any non-school team, nor as an individual unattached in non-school competition, in that given sport or in any competition that involves the skill of the sport in question. - 3.105** Students or teams at member schools shall not be permitted to participate on, practice with or compete against any college, junior college or university athletic team. This restriction shall apply in all situations, regardless of the competitive structure or sponsor of the competing entities for such events.
- 3.106** To be eligible for a school team in a given sport, students must cease non-school practice and competition in that sport no later than seven (7) days after the date on which the school team engages in its first practice or tryout in that sport.
- 3.107** During the school year, a person who is a coach in any sport at a member school, may be involved in any respect with any non-school team, only if the number of squad members from his/her school which are on the non-school team roster does not exceed one-half the number of players needed to field a team in actual IHSA state series competition in that sport. The number of non-school team squad members that are counted only include those that are eligible to play in the next season of that sport.
- 3.108** The Illinois School for the Visually Impaired (ISVI), may with the permission of the IHSA Executive Director, under the guidance of the Board of Directors, conduct cooperative practices with another team in the immediately geographic area of Jacksonville, Illinois.

For example, since “running any distance on a track” is a skill essential to the sport of track and field, a discus thrower, whose specific track and field event may not utilize the skill of running, is still prohibited from engaging in non-school running competition during the school track and field season, because “running” is a skill of his/her sport. Beginning on that date, any student from the school who subsequently practices or competes outside the school in the sport, will violate this by-law. (By-law 3.101)

- 185)** Q. May a high school student-athlete be randomly selected from the crowd at a sports event to shoot from half-court and win a prize if the shot is made?

A. No. (By-law 3.104)
- 192)** Q. May a student in a school which does not maintain a school team in a given sport participate in a scrimmage in the sport at a neighboring school?  
A. No. (By-law 3.104)
- 193)** Q. May a school which does not maintain a school team in a given sport enter one or more of its students in competition against a neighboring school during the regular season for the sport?
