VIII. TOURNAMENT RULES

A. Rules of Play:

The National Federation Soccer Rules are adopted as the official rules of play for the 2017-18 series of tournaments with the following provisions:

1) Each game in the tournament series will be played in two forty-minute halves.

2) During the State Series Tournament, if there is a seven (7) goal differential at the start of the second half or anytime after the start of the second half, the clock shall be reduced by half of the remaining time.

3) During Regional Quarterfinals, Semifinals, and Finals, and during Sectional Semifinals and Finals, if the first half has ended, and if play cannot be continued due to conditions such as darkness, weather, etc., the game shall be terminated unless tied. If the game is tied and cannot be continued, the game shall be considered suspended and must be continued from the point of interruption at the next available playing time (except Sunday). Once the game has begun, the game officials are solely responsible for the decision.

4) If a Super-Sectional game is suspended due to conditions that make it impossible to play, the game will be rescheduled for the next day from point of suspension or if mutually agreed upon by both head coaches that the game may be considered final. If the game cannot be played or completed by the Thursday night prior to the State Semifinals, the team with the lead will be declared the winner. If the teams are tied and the game cannot be completed, then a coin toss shall determine which team will qualify for the State Finals.

5) During weekday state series contests (M-Th), if a game is delayed (inclement weather, power outage, etc.) the game must resume by 10 p.m. No games shall start after 9 p.m. Local ordinances take precedence and will override the above.

6) No coach or other school official shall, during the progress of a game, be allowed on the field of play except by permission of the game officials.

7) The captain and the head coach shall be the official spokesmen and the sole representatives of their team in all communications with the officials.

B. Resolution of Tie Games:

Note 1: If the Class 1A, 2A & 3A third place game is tied at the end of regulation, the tie is broken by proceeding straight to penalty kicks following the procedure below.

The overtime used in the Illinois High School Association tournament series shall be as follows:

Play the regulation game and, if a tie exists;

5-minute break between regulation and 1st overtime

10 minutes-1st overtime period

2 minutes-between overtime period 1 and overtime period 2

10 minutes-2nd overtime period; and if a tie exists:

a) A coin toss occurs before: the first overtime; the first 5 kicks and the second set of 5 kicks. The visiting captain shall call the toss.

b) Each coach shall select five (5) players from the team roster to take tie-breaker kicks. The team winning the coin toss shall have the choice of shooting first or second. The goalkeeper for each team shall be any eligible team member determined by the coach. The teams will then each take five (5) tie-breaker kicks, alternating kickers. The team scoring on the greater number of these five (5) kicks shall be the winner.

c) If the score is still tied, a series of sudden victory tie-breaker kicks shall be taken. Each team shall designate five (5) different players to kick. Players shall kick alternately. If the first kicker from Team A scores and the first kicker from Team B does not score, the game is ended and Team A is the winner. If both first kickers score, the second kickers from each team take tie-breaker kicks and, if one scores but the other does not, the game is ended and the team of the scoring kicker is the winner. This process shall be repeated through as many as five (5) kickers for each team until there is a winner.

d) If the score is still tied, each team shall designate five (5) different players who did not kick under "c" above to take sudden victory tie-breaker kicks. Then the process of "c" is repeated. If the score is still tied, after these five (5) kickers from each team have taken their kicks, the process of "c" shall be repeated again, with any eligible player from the roster permitted to kick. **Note:** In any sequence of either the regular or sudden victory tie-breaker kicks no player may kick more than once in each ten (10) kick series. However, a player may kick in each ten kick series so, for example, a player may kick three times in a tie-breaker series which is not resolved until the twenty-fourth (24th) tie-breaker kick.

e) Kicking Procedure for tie-breaker kicks in the tie-breaking system: Kicks taken for tie-breaking purposes will be taken according to the following procedure:

(1) The kicker and goalkeeper will take their positions in preparation for the kick without delay.

(2) When ready, the referee will sound a whistle.

(3) The goalkeeper must start with both feet on the line and can only move laterally when the whistle sounds.

(4) Once the kicker starts his approach toward the ball, he may not interrupt his movement. The kicker will be permitted only one touch on the ball in taking the kick.

C. Tournament Officials

3) Yellow cards received during regular season or tournament competition are tracked by the member schools. If a coach or player enters the tournament series having accumulated five or more yellow cards during the season, their yellow card count continues.

2017-18 SOCCER STATE ASSOCIATION ADOPTIONS

New to #8 Caution Count:

Note 3: Team Caution Count

Any Varsity team during the regular season that receives a total of 25 or more yellow cards will be prohibited from participating in the IHSA State Tournament series beginning with the 2014-15 State Tournaments.

The team count includes: Yellow cards issued to players, coaches and all bench personnel.

1. Players wearing Caps:

Soft and yielding caps during inclement weather. Caps must be alike in color.

2. Players using tape/velcro to secure game socks:

If anything (i.e. tape or Velcro) is worn on the outside of the sock it must be clear or similar in color of the socks.

3. Officials pre-game meeting with ball runners:

1. Meeting occurs prior to each game.
2. Runners should be at least of Junior High age.
3. Be consistent, be active and pay attention.
4. Keep up with play.
5. Don't coach or cheer for your team; remain neutral.
6. Hand the ball to the player or place on the ground then retrieve the other ball.

4. Official's Jurisdiction:

Once an official arrives and enters the site of competition, their jurisdiction begins. Since officials are on the field during warm ups, their jurisdiction begins at that point, not solely 15 minutes prior to the game.

5. Pre-Game Protocol:

During regular season contests, when the warm-up clock runs to 0:00 (5 minutes before posted start time), officials, coaches and players meet for the equipment check, sportsmanship talk and coin flip.

If an announcer is present, introductions begin. If no announcer, game begins immediately. Following this protocol will allow athletes to warm up uninterrupted in preparation for the game.

6. Regular Season and State Series Contests:

In the event a game is suspended due to conditions that make it impossible to play, the head referee shall declare it an official game if one complete half or more of the game has been played.

If less than one half of the game has been played, the game may be continued from the point of interruption to the next available playing time; i.e., a delay may be called or a game suspended until rescheduled.

7. Class 1A/2A/3A Super-Sectionals Only:

In the event a game is suspended due to conditions that make it impossible to play, the game will be rescheduled for the next day from point of suspension. Or if mutually agreed upon by both head coaches, the game may be considered final. If the game cannot be played or completed by the end of Thursday night prior to the State Semifinals, the team with the lead will be declared the winner. If the teams are tied and the game cannot be completed on Thursday, then a coin toss shall determine which team will qualify for the State Finals.

8. Caution Count:

Yellow cards received during regular season or tournament competition must be counted. Once a coach or player has accumulated five yellow cards, they are suspended for the next game. Once the coach or player accumulates three additional yellow cards, they are suspended for the next two games; three more - they are suspended three games, etc. These are minimum penalties.

a. All yellow cards must be reported by the official to the IHSA and the member school as currently practiced with all ejection reports. Schools are responsible to keep track of all yellow cards issued to their coaches and players. A yellow/red card form is available online through the IHSA Schools Center and the IHSA soccer webpage for schools to download during the season. Coaches are encouraged to complete the form and submit it to their Athletic Director after each game.

Soccer State Association Adoptions, continued

- b. At the start of the IHSA tournament series, a coach or player will begin the tournament with a clean slate if they have accumulated four or fewer yellow cards during the regular season.
- c. If a coach or player enters the tournament series having accumulated five or more yellow cards during the season, their yellow card count continues. Once the individual accumulates 8 total cards they are suspended for two games; 11 yellows they are suspended for three games, etc.
- d. Officials who submit a yellow card report or an ejection report through the Officials Center do not need to send a separate report to the school. Schools are able to immediately see the yellow card or ejection report on their Schools Center.
- e. Officials who submit a yellow card report or an ejection report via fax to the IHSA need to send a separate report to the school.
- f. Schools or coaches who do not receive a special report electronically or by fax within 48 hours of the contest must send the officials name and ID number to the IHSA office for follow up. Officials who do not submit yellow/red cards will be contacted by the IHSA and may face sanctions.

Notes:

- 1. Once the game restarts cards cannot be rescinded after being issued, therefore all yellow and red cards MUST be reported to the school and the IHSA.
- 2. All yellow cards received are included in the yellow card count, regardless of how many the players or coach receives in a single game. For example: If a player receives a caution during the game and then receives a subsequent straight red during the same game, that player's yellow card count will be charged for one and the red card count shall be charged for one.

Note 3: Team Caution Count

Any Varsity team during the regular season that receives a total of 25 or more yellow cards will be prohibited from participating in the IHSA State Tournament series beginning with the 2014-15 State Tournaments.

The team count includes: Yellow cards issued to players, coaches and all bench personnel.

9. Straight Red Card Count:

Straight red cards received by a player or coach are to be tracked by the school and the IHSA. Recipients of a straight red card will have the following consequences:

- 1st straight red card = 1 game suspension (current practice);
- 2nd straight red card = 2 game suspension for recipient;
- 3rd straight red card = 3 game suspension for recipient etc.

The straight red card(s) count accumulated during the regular season will continue through the state series.

10. Goal Differential

During the regular season and State series games, if there is a seven (7) goal differential at the start of the second half or any time after the start of the second half, the clock shall be reduced by half of the remaining time. There are no other acceptable variations.

11. Coaches Box

During regular and post season contests, and per NFHS rules, a designated coach's box must be marked for each game. By State Association Adoption, if one box or both boxes are not designated then coaching staff from each team must remain seated throughout the game.

First occurrence as a staff: Warning

Second occurrence as a staff: Caution

Third occurrence as a staff: Red Card and Ejection

12. Regular Season Overtime:

Once a regular season game begins, and overtime has not been discussed or agreed upon in the event of a tie score, there is no opportunity to play overtime or go to PK's to determine a winner. (Be cognizant of standing conference rules.)

Options to determine regular season games ending in a tie:

- 1. No OT – game ends in a tie
- 2. Up to 2 – 10 minute periods playing both OT's to the end. If still tied, the game is recorded as a tie.
- 3. Up to 2 – 10 minute periods playing with golden goal. If still tied, the game is recorded as a tie.
- 4. Up to 2 – 10 minute periods and PK's

STUDENT MEDIA CREDENTIALS FOR PARTICIPATING SCHOOLS

Congratulations on qualifying for an IHSA state final in a team sport. In order to provide the best possible coverage of this event for your school newspaper, yearbook and AV club, etc. you are entitled to have up to three students receive credentials to cover this event as official media members. In the event that you have less than three students, an adult sponsor may be included on this list. To apply for student media credentials, please have your Athletic Director or an individual involved with the aforementioned programs email Matt Troha (mtroha@ihsa.org) at the IHSA with the following information:

- 1) The names of individuals attending
- 2) Whether they are students or adults

Student media who are registering for credentials are expected to maintain a level of professionalism while covering this event. That includes no cheering while in the press box or game coverage area. Proper attire is also required. Wearing school shirts and colors is acceptable, but students wearing face paint, costumes, carrying props, etc. will be required to change before receiving credential clearance.

The individual applying for student media credentials will receive specific information on credential pick-up and media regulations at the event via email in the days leading up to the state final.

Please note that student media credentials are only available for state final events in team sports. Due to the sheer volume of schools who qualify in individual sports, our press facilities would be unable to accommodate student media from all participating schools in individual sports. Student media are also welcome to cover IHSA state final activities. Credentials are not required for these events, but please have your students check-in with state final personnel upon arrival for media coverage regulations.

VIDEO TAPING STATE FINALS FOR COACH FILM BREAKDOWN

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL PRIOR TO THE SEASON

1. Send a reminder card or email to the officials after you have them scheduled.
2. Reminder should include date of contest, time, level, location and sport.

Even though many schools and conferences have assignment chairpersons, sending a reminder is highly recommended. When an official does not show, people in your community won't know who the assignment chairperson is, but they do know the athletic director. **Avoid embarrassment.**

3. Have a standard wage scale set for your different sports and levels and a method in place to raise the pay periodically.
4. If possible, let the working officials know who their partner(s) will be.
5. Hire police and security along with medical assistant or athletic trainer coverage for events whenever possible.
6. Set a policy with your school board on fan, coach and player behavior.
7. Make sure all officials have a contract that is signed by your school—preferably by the principal or IHSA Official Representative.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL PRIOR TO THE CONTEST

1. Prior to the contest, provide the officials with directions and inform them of any special activities that might be occurring (i.e., Homecoming, Senior Night, etc.)
2. Give the official a number they can call in case of an emergency or postponement due to weather.
3. Have competent workers assigned at all contests (scorers, announcers, chain crew, etc.). These people are of great assistance to the official during the contest.
4. Have a host assigned to meet the officials as they arrive. The host should do the following for the officials:
 - A) Provide a reserved parking space.
 - B) Meet officials and take them to the dressing room.
 - C) Have refreshments available for halftime and postgame.
 - D) Ask for any additional needs.
 - E) Introduce the officials to those game workers pertinent to the contest (i.e., scorer, announcer, chain gang, etc.).
 - F) Get the proper pronunciation of officials' names so they are correct when given by the public address announcer.
5. Athletic director should discuss with the officials any special events, conference rules, national anthem time, etc. that would affect the game.
6. Provide the officials with the name of the adult supervisor for that contest and where that person can be found in the event a challenging situation should occur.
7. Make officials aware of location of an athletic trainer or other first responders during the contest. Have a doctor on site when possible (especially at football contests).
8. Make sure all bench personnel are properly attired.
9. Do a check on game scoreboards and lighting systems prior to the game or contest.
10. Make sure the playing area is properly marked and meets National Federation guidelines for that contest.
11. Provide appropriate secured dressing area and hot water showering facilities.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL DURING THE CONTEST

1. Insist coaches display good sportsmanship and are proper examples for your players and crowd.
2. Have your public address announcer or cheerleader read the IHSA sportsmanship statement and remain unbiased during contest.
3. Make sure the event supervisor understands the duties and responsibilities pertinent to that contest.
4. Make sure the playing area is maintained during halftime of each contest. For wrestling, make sure the mat is properly cleaned and washed.
5. Help with adverse weather conditions; monitor accordingly.
6. Make sure proper crowd control is visible and in place. Good administrative control can prevent difficult situations.
7. Observe the crowd during the contest and prevent any disturbances that may occur.
8. Work with the official during the game regarding crowd control.
9. Retrieve the game ball at the end of the contest.
10. Escort the officials back to the dressing room at halftime and at the conclusion of the contest.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL AFTER THE CONTEST

1. Escort the officials safely back to the dressing room and parking lot.
2. Do not allow unauthorized persons in the dressing room after the game. This includes coaches.
3. Have refreshments available for the officials after the contest.
4. Be sure to thank the officials for their time and effort, regardless of the outcome of the game.
5. Make sure arrangements for paying the officials have been completed. It is preferable to pay the official the day of contest.
6. Ensure that officials are not confronted by anyone after the contest.

Boys/Girls Soccer Post Season Tie-Breaker Procedure

RESOLUTION OF TIE GAMES

The overtime used in the Illinois High School Association tournament series shall be as follows:

Play the regulation game and, if a tie exists;

5 minute break between regulation and 1st overtime

10 minutes-1st overtime period

2 minutes-between overtime period 1 and overtime period 2

10 minutes-2nd overtime period; and if a tie exists:

a) A coin toss occurs before: the first Overtime; the first 5 kicks and the second set of 5 kicks. The visiting captain shall call the toss.

b) Each coach shall select five (5) players from the team roster to take tie-breaker kicks. The team winning the coin toss shall have the choice of shooting first or second. The goalkeeper for each team shall be any eligible team member determined by the coach. The teams will then each take five (5) tie-breaker kicks, alternating kickers. The team scoring on the greater number of these five (5) kicks shall be the winner.

c) If the score is still tied, a series of sudden victory tie-breaker kicks shall be taken. Each team shall designate five (5) different players to kick. Players shall kick alternately. If the first kicker from Team A scores and the first kicker from Team B does not score, the game is ended and Team A is the winner. If both first kickers score, the second kickers from each team take tie-breaker kicks and, if one scores but the other does not, the game is ended and the team of the scoring kicker is the winner. This process shall be repeated through as many as five (5) kickers for each team until there is a winner.

d) If the score is still tied, each team shall designate five (5) different players who did not kick under "c" above to take sudden victory tie-breaker kicks. Then the process of "c" is repeated. If the score is still tied, after these five (5) kickers from each team have taken their kicks, the process of "c" shall be repeated again, with any eligible player from the roster permitted to kick. Note: In any sequence of either the regular or sudden victory tie-breaker kicks no player may kick more than once in each ten (10) kick series. However, a player may kick in each ten kick series so, for example, a player may kick three times in a tie-breaker series which is not resolved until the twenty-fourth (24th) tie-breaker kick.

e) Kicking Procedure for tie-breaker kicks in the tie-breaking system: Kicks taken for tie-breaking purposes will be taken according to the following procedure:

- (1) The kicker and goalkeeper will take their positions in preparation for the kick without delay.
- (2) When ready, the referee will sound a whistle.
- (3) The goalkeeper must start with both feet on the line and can only move laterally when the whistle sounds.
- (4) The kicker will be permitted only one touch on the ball in taking the kick.

Managing Heat and Heat Illness

These guidelines represent minimum standards that IHSA member schools should follow for athletic competitions. Schools with more restrictive guidelines are not expected to modify any pre-existing guidelines in order to meet this policy. These guidelines will be used by managers or their designees at all IHSA state series events when the Wet Bulb Globe Temperature (WBGT) is above 80 degrees Fahrenheit. State series tournament managers will make the decisions to suspend and resume activity in accordance with these guidelines using those devices or systems usually used at the state series venue/site.

1. Thirty minutes prior to the start of an activity, and again 60 minutes after the start of the activity, temperature and humidity readings will be taken at the site of the activity. Using a Wet Bulb Globe Thermometer is recommended, although a conversion to WBGT can be made from air temperature and relative humidity using chart 2. Record the readings in writing and maintain the information in files of the tournament manager and/or host school administration. Tournament managers may designate someone other than themselves to take these readings.

Use the Table 1 (see below) with an on-site WBGT reading for appropriate exercise modifications during exercising in the heat:

Table 1

a. ≤ 79.9 degrees F

- i. All sports
 1. Provide ample amounts of water. This means that water should always be available and athletes should be able to take in as much water as they desire.
 2. Optional water breaks every 30 minutes for 10 minutes in duration. Coordinate breaks with assigned contest officials.
 3. Ice-down towels for cooling.
 4. Watch/monitor athletes carefully for necessary action.

b. 80.0-84.5 degrees F

- i. All sports
 1. Provide ample amounts of water. This means that water should always be available and athletes should be able to take in as much water as they desire.
 2. Optional water breaks every 30 minutes for 10 minutes in duration. Coordinate breaks with assigned contest officials.
 3. Provide cooling stations using methods such as ice towels.
 4. Watch/monitor athletes carefully for necessary action
- ii. Contact sports and activities with additional protective equipment (in addition to the above measures)
 1. Helmets and other possible equipment removed while not involved in contact.
- iii. Reduce time of outside activity. Consider postponing activity to later in the day.
- iv. Recheck air temperature and humidity every 30 minutes to monitor for increased heat conditions or sooner if personnel on the field suspects potential heat stress.

c. 84.6-87.5 degrees F

- i. All sports
 1. Provide ample amounts of water. This means that water should always be available and athletes should be able to take in as much water as they desire.
 2. Schedule at least 4 separate 4:00 breaks within each hour, or a 10:00 break every 30:00 of training or competition.
 3. Coordinate breaks with assigned contest officials.
 4. Have cooling stations for before, during, and after exercise/training/competition.
 5. Watch/monitor athletes carefully for necessary action
 6. Reduce time of outside activity as well as indoor activity if air conditioning is unavailable.
 7. Consider postponing activity to later in the day or another day (with approval from IHSA Administration)
 8. If practicing, maximum of 2 hours of training/practice while temperature is in this range.

Cooling Methods Due to Heat Related Illness

Exertional heat stroke (EHS) is relatively uncommon among exercise associated medical conditions, but is a frequent cause of exercise related death. The majority of evidence shows that early institution of body cooling is the most effective method of decreasing mortality in EHS. The following contains recommendations regarding the methods of body cooling, including tubs, ice bags, iced towels (towels with water that have been frozen) water, fans, and shade. The recommendations are classified as essential (foundational to the implementation of treatment, should have resources and personnel directed towards implementation), and desirable (important in maximal implementation, should have resources and personnel directed towards implementation as budget and resources allow). The recommendations are only guidelines, are not intended as a standard of care, and should not be considered as such. These guidelines should only be considered in the care of athletes who can be expected to be at risk of EHS due to the sport or the environmental situation of the activity. Sports especially at risk include football with and without equipment, soccer, and long distance track. Other sports and activities, such as cycling, golf, baseball, tennis, track and field, and band, may also be at risk due to long duration exposure to extreme environmental conditions.

It is essential that member schools and school administrators/officials:

- Establish a written plan coordinated with local EMS for emergency treatment of EHS that includes transport to a hospital and conduct drills in the implementation of the plan as practicable.
- Know how to assess environmental conditions and determine when extreme conditions exist.
- Identify a specific spot at the athletic facility that has shade.
- Have immediate access to ice and bags to contain ice.
- Have access to water, and provide water breaks as outlined in the IHSA Managing Heat and Humidity Policy.
- Know the most effective sites for application of ice to the body.
- Obtain and use, when environmental conditions are determined to be extreme, a tub or pool, filled with water and ice before activity begins, to be used in body immersion for maximal cooling, and have personnel trained in this technique.

It is desirable that member schools and school administrators/officials:

- Have a certified athletic trainer (ATC) on staff, as budget and resources allow, to develop and implement these guidelines.
- Have immediate access to water.
- Provide shade breaks.
- Provide fans when environmental conditions are determined to be extreme.
- Have close access to an air conditioned room.
- Have access to and use iced towels that can be rotated to appropriate areas of the body, including the axilla, groin, and back of the neck.

IHSA Severe Weather Safety Guidelines

To be used during any IHSA state series contest

When thunder is heard, or a cloud-to-ground lightning bolt is seen, the thunderstorm is close enough to strike your location with lightning. Take shelter immediately.

Lightning is one of the most consistent and underrated causes of weather-related deaths or injury in the United States. Nearly all lightning-related injuries occur between the months of May and September and between the hours of 10:00 a.m. and 7:00 p.m. Therefore, the greatest concern for injuries in an outdoor contest appears to be during that time, though it can happen any time of year.

It is essential that local managers, competing schools, and contest officials establish dialogue in advance of contests or events to ensure that all involved are aware of what the plan will be in determining whether or when to suspend play. Local managers are encouraged to share their plan with competing schools and assigned contest officials *prior to the start of the tournament/event*.

Advance Planning:

Local Managers should have a documented plan in place, designated people who are responsible for monitoring the weather and a qualified person (typically a trained manager and/or officials) to make the decision to suspend play. In state series competitions, the local tournament manager or official(s), if assigned, can make the decision to suspend play.

Monitoring Weather:

Local Managers during the contest should be aware of any potential thunderstorms that may form during the competition; if an evacuation is needed, managers should also know how long it would take teams to get to their safest location. Monitoring the weather with a weather alert radio, or with lightning detection systems, or any other available means, is recommended.

If competing schools have portable devices they will be bringing to a contest/event and/or have specific policy or directions from their administration that they must follow, the school must communicate those to the tournament manager. Tournament managers must know the policies of each school assigned to their tournament or event prior to its start.

Lightning Awareness

Generally speaking, it is felt that anytime a cloud-to-ground strike of lightning can be seen, or thunder heard, risk is already present. It is time to seek shelter.

Criteria for Suspending Play

If the local management does not have commercial weather warning equipment at the site or an efficient method of making an accurate, timely decision on location, listening for thunder is the best way to mitigate the danger. If thunder is heard, or lightning is seen hitting the ground, the thunderstorm is close enough to strike in your location. According to the National Weather Service, lightning can strike 10 miles away from the parent thunderstorm. When thunder roars, go indoors! It is important that local manager monitor not only how far away the lightning is but also how fast it is approaching. Thunderstorms can form and move quickly and danger can arrive quickly.

Either tournament/event management or assigned contest officials have the authority to suspend or cancel interscholastic contests. It is recommended that those groups work together in making such determination and use any and all available information in doing so. Participating schools with concerns at particular events should direct those to tournament/event management or assigned contest officials.

The following guidelines should be followed in determining when to suspend an event:

1. Anytime a cloud-to-ground strike of lightning can be seen, or thunder heard, risk is present, and a contest should be suspended. At that point, the 30 minute rule for resumption should go into effect.
NOTE: Due to the layout of some outdoor facilities, contest officials or tournament managers may not be able to see lightning actually "strike the ground." However, whenever lightning is seen moving out of clouds towards the ground, it can be assumed that the lightning is, in fact, striking the ground somewhere, and, as a result, the contest should be suspended.
2. If lightning or thunder is not present but the weather is starting to become ominous, tournament management and/or contest officials should use all available information to determine if and when a contest should be suspended. Care for both participants and spectators should be taken into account at this point. If in doubt, contest officials or tournament managers are encouraged to exercise caution and suspend play. At such a point, tournament officials should be ready to implement their emergency plans. However, competing schools who pull their teams or athletes off a field of competition prior to a contest or event's suspension do so at the risk of forfeiture or disqualification from the game or event.
3. Suspended contests or events should be resumed at a time when the weather and/or field conditions allow for resumption.

Evacuation Plan

Safe Areas: All personnel, athletes and spectators should be clearly informed of available safe structures or shelters in the event a thunderstorm approaches. A safe structure is any fully enclosed building frequently used by people. In absence of that – athletes and spectators should go to any vehicle with a hard metal roof. Roll up the windows and do not touch the sides of the vehicle. If no safe structure or vehicle is available, find a thick grove of small trees surrounded by taller trees or a dry ditch. Assume a crouched position on the ground with only the balls of your feet touching the ground. Wrap your arms around your knees and lower your head. Minimize contact to the ground since lightning often travels through the ground.

Avoid: Tall trees or objects like light poles or flagpoles, individual trees, standing pools of water and open fields. Also avoid being the highest object on the field. Do not take shelter under trees. Avoid bathrooms if another building is available, and do not use a land-line telephone. A cellular phone or portable phone is a safe alternative if in a secure shelter or vehicle.

Resuming Activity

The NSSL (National Severe Storms Laboratory) recommends that everyone should wait at least 30 minutes after the last flash of lightning or sound of thunder before returning to the field or activity.

Unmanned Aerial Vehicle (Drone) Policy

For IHSA Tournaments

Effective February 18, 2015

The use of unmanned aerial vehicles (“UAV”), also known as drones, is prohibited for any purpose by any persons at IHSA tournament venues. Tournament management shall refuse admission or entry to anyone attempting to use a UAV; and if necessary, tournament management shall remove anyone attempting to use a UAV and/or confiscate the UAV until the event has been completed.

For purposes of this policy, a UAV is any aircraft without a human pilot aboard the device.

An exception to this policy may be made in specific cases for IHSA broadcast partners, provided the management of the tournament facility permits the presence of UAVs for broadcast purposes under the control of the IHSA.

Boys/Girls Soccer Required Use of the Wilson Soccer Ball

The Wilson ball referenced below is required to be used in all Boys and Girls soccer state series games. There can be no substitution of a ball manufactured by another company, nor can you substitute another legal (one which displays the registered NFHS mark) Wilson ball. If the designated supply has been exhausted, you must use the designated Wilson ball and obtain it locally.

The IHSA Official Ball Game Plan for Boys and Girls soccer is reproduced below. If you have any questions regarding “official ball” use, please contact the IHSA Office.
