DIRECTIONS & RULES

You are a staff member of the Abraham High School (Middleland, Ill.) yearbook, *The Annual*. Your editor has asked you to design a double-page spread using the story and photo elements that are provided via the download link below.

Use Adobe InDesign, your school's online yearbook software, or another similar type of online program or software to complete your work. Students should use a blank layout of approximately 66 (height) and 102 (width). Somewhere off the page, type "School Code: ####" with your individualized code numbers, making sure there is enough space that the code cannot be confused as being part of the design.

Entries will be judged on good use of and variety of sizes and shapes of all elements, a design that is appropriate for the theme and audience, and use of dominant element and readability of text.

Follow these rules in completing your design:
* Only the elements provided via the download link below may be used.
* All the copy and photos do not have to be used.
* Limit yourself to three fonts of your choosing.
* You may use dummy text for your photo captions.
* Layout should be completed in color.

> Start Time: 11:30 AM
> Work must be complete: 1:00 PM

STORY/PHOTO DOWNLOAD

In hopes of eliminating format issues, photos are provided in three different formats (JPG, TIFF, EPS) & the stories in both MS Word and Word Processor. All of the elements are available for download at...
