

PlayVS is the official high school esports partner of the NFHS Network.

Esports requires a tremendous amount of critical thinking, communication, collaboration, and creativity from players to achieve and sustain success. With easy access and a low cost to entry, esports creates an all-inclusive environment that breaks barriers.

PlayVS makes esports a wonderful experience - regardless of skill-level - for players and coaches. PlayVS offers the most popular titles including League of Legends, Rocket League, SMITE, FIFA 21 and Madden 21.

Like other high school sports, teams require a coach and students will practice and compete in a regular season for the opportunity to advance to playoffs and win a championship. However, since esports is played online, there is no travel required throughout the regular season. Students can participate either from school or at home and esports is a great way to safely keep students engaged during this time.
