IHSA Rules Meeting Requirement

August, 2024

To the Principal/IHSA Official Representative Addressed:

IHSA By-law 2.120 requires **that a head coach** from each member school, which participates in a sport or activity for which Rules Interpretation Meetings are held, to view an IHSA On-line Rules Meeting video in that sport or activity each year. **This shall include all individual as well as team entries.**

The purpose of this by-law is not just to ensure that someone from the school views the rules meeting video. Rather, it is to ensure that a coach for each sport or activity views the video since it can affect each of the school's teams in a direct way. Therefore, in sports or activities where the same rules are used for boys and girls competition, both a boys program coach and a girls program coach must view the online Rules Meeting video.

Enforcement of the requirements of By-law 2.120 will include the following provisions:

1. Any school not meeting the requirement during the 2023-2024 school term for a sport/activity in which it participates and for which Rules Meetings were conducted was placed on probation in that sport/activity for one year. Schools with sports/activities programs placed on probation for this reason were notified by letter.
2. If a school is currently on probation in a sport/activity and does not meet the 2024-2025 Rules Meeting requirement for the sport/activity, the school will be suspended from participation in the State Tournament Series in that sport/activity for 2024-2025. Refer to the Illustrations relative to By-law 2.120 in your new [2024-2025 IHSA Handbook](#) for additional explanation, if needed.

Be sure your coaches are aware of the Rules Meeting requirements and that they refer to the IHSA web site for all Rules Meeting information. All rules meetings will be on-line. Please be sure to check the Schools Center for any changes in dates.

The IHSA Board of Directors has approved a policy requiring head coaches to rate varsity officials in the contests worked for their school. Refer to the specific requirements noted in Policy 41 of the IHSA Handbook for additional explanation.

**BE SURE YOUR HEAD COACH VIEWS THE ON-LINE RULES VIDEOS
AS REQUIRED TO AVOID PENALTIES TO YOUR SCHOOL.**

Sincerely,

SPECIAL NOTICE -- ABOUT ELIGIBILITY RULINGS FROM IHSA for the 2024-2025 SCHOOL TERM

The IHSA will be transitioning the requests for eligibility rulings regarding student residency and transfers to an on-line transfer management system. Please use the following link to gain access to the Transfer Management System to help all schools and our office navigate the transfer eligibility of students to your school. The link for the Transfer Management System (TMS) can be found in the Schools Center under Departments. During the transition, the IHSA will permit requests for eligibility rulings regarding student residency and transfers using the downloadable forms available from the IHSA website (ihsa.org). The following paragraphs note the process for securing a transfer or residence eligibility ruling outside of the Transfer Management System.

Principals' Concurrence Regarding Transfer: Complete this document-to-document concurrence with the student's transfer by *both the principal of the school from which the student transfers (Sending School) and the principal of the school into which the student transfers (Receiving School)*. This is a requirement of By-law 3.041. If you, as the receiving principal, experience any delay in obtaining the sending school principal's approval, contact the sending school and try to prompt their response. If there is a further delay, notify the IHSA Office immediately and we will intervene on the student's behalf. **Note: A student is not eligible to participate in an interscholastic contest until the Principals' Concurrence Regarding Transfer Form is fully executed by both principals and is on file in the office of the school to which the student transfers.**

Please note: *Concurrence with a transfer by both principals does not guarantee or assure eligibility.* A ruling by the Executive Director may still be required. In all cases where a ruling is sought, a fully completed Principals' Concurrence Regarding Transfer Form must be sent to the IHSA Office along with the fully completed Transfer Eligibility Form. Please include complete, correct, and accurate information on the forms.

Transfer Eligibility Form: Complete this form if your school receives a transfer from another school to facilitate determination of a student's compliance with IHSA eligibility by-laws for interscholastic athletics. This form is to be sent to the IHSA Office, along with the fully completed Principal's Concurrence Regarding Transfer in the event a ruling by the Executive Director on a student's eligibility related to transfer is to be requested.

Transfer Component from Receiving School Coach: Complete this form to facilitate determination of the eligibility of a student related to recruiting. The information on this form will provide clarification on a connection between one or more of the receiving school high school coaches and the transferring student.

Residence Eligibility: Complete this form to facilitate determination of the eligibility of a student related to residence. The information included on this form will substantiate whether the student is in full compliance with the residence eligibility by-laws and whether a determination of eligibility is required. If such determination is required, the completed form must be sent to the Executive Director for a ruling. In addition, an **Affidavit of Residence Form** is to be completed, signed by all appropriate parties and submitted with the Residence Eligibility Form to the IHSA Office.

Affidavit of Residence: The Affidavit of Residence Form must be completed and submitted along with the Residence Eligibility Form when a ruling is requested.

IMPORTANT OBSERVATIONS CONCERNING USE OF THE ELIGIBILITY RULING FORMS

1. The forms do not ask the principal or representative to make any ruling nor should use of the forms suggest that any authority has been given to the principal or other school representative to make an eligibility ruling. As you are aware, the IHSA By-laws provide that eligibility rulings are the sole responsibility of the Executive Director of the IHSA. Also, interpretations of the By-laws can only be made by the IHSA Board of Directors. The IHSA staff is available to assist a member school and it is our hope that the principal or representative of a member school has become familiar with the By-laws to at least provide some assistance to a student, in the event of an eligibility question. However, neither the advice of the IHSA staff nor any statement by anyone other than the Executive Director or Board of Directors will constitute a ruling. If an eligibility question is raised, you are to contact or write the Executive Director for a ruling.
2. The eligibility by-laws may require you, as principal, to certify or approve a student's eligibility status or transfer. **Please note: Your approval or concurrence with an eligibility case or request does not constitute a ruling.** To certify means you acknowledge that the information provided to the IHSA for a ruling is complete and correct. Approval or concurrence constitutes acknowledgment that the information provided to the IHSA for a ruling is complete and correct. Approval of or concurrence with a transfer is an acknowledgment that you have no information to provide which is contrary to the By-laws regarding a student's residence information or the transfer. Advice to a student by a principal or school representative that he/she is eligible to participate is not binding on the IHSA and could result in sanctions involving both the student and the school if the advice is found to be inaccurate by the IHSA after full investigation and a ruling.

Because of the growing number of rulings required annually, the forms and information you provide are intended to speed up the ruling process so that minimal time is lost by a student in interscholastic activities. Your participation and cooperation are appreciated, and this notice is simply intended as a reminder of your responsibility and role in the process regarding student eligibility rulings. Thank you for your continued cooperation with the IHSA.

Student Recognition

Team Academic Achievement Award:

How will the program work?

- When one of your qualifying teams achieves a 3.0 grade point average for their entire season, a representative at your school will simply have the sport and year engraved on the plate and attached to the plaque. A seasonal report will be submitted to the IHSA informing the IHSA on the number of teams recognized during each season.

Who may participate?

- IHSA Member School's whose varsity teams/groups achieve a grade point average (GPA) of 3.0 or higher (Non-Weighted) collectively.

If the varsity team includes students in grades nine through twelve, their grades must be included in the team average. Team Managers are **NOT** to be included. For those sports/activities without a varsity designation, the team entered for the IHSA State Series qualifies.

What are the Guidelines for Selection?

- The grade point average for all varsity teams must be computed on a Non-Weighted 4.0 system (A= 4, B =3, C=2, D=1).
- Must include EVERY member of the team that enters the first level of state qualifying competition.

How will the reporting work?

- Forms will be online at the IHSA website and available for submission after each of the three Sports/Activities Seasons (fall, winter, spring). The roster, including all varsity team members will be submitted with each individual members' GPA and the team total GPA. The Principal from each school will need to verify that the information submitted is accurate.

Click here for the form in [PDF Format](#).

Second and Third Quarter Grades:	All Winter Sports/Activities Submit By April 15
Third and Fourth Quarter Grades:	All Spring Sports/Activities Submit By June 30

NOTE: Sports/Activities that overlap two quarters need to include the grade point average for both of those quarters.

Awards

- The IHSA will provide the first plaque and plates to each member school, once the first plaque is full the member school will be responsible for ordering and purchasing additional plaques and plates through the IHSA Awards provider.

Click here for the Team Academic Achievement Award Plaque Order Form in [PDF Format](#).

The IHSA governs the equitable participation in interscholastic athletics and activities that enrich the educational experience.

Welcome to the 2024-25 school term! As we approach this school year, we know new challenges are going to be around each corner, but together we will make it a successful one. Student-athlete safety remains a priority for the IHSA, and this document is intended to provide a quick over-view of some important sports medicine initiatives of which each member school should be aware.

1. **Concussion Reporting:** Member schools are asked to report basic information on all concussions sustained by student-athletes during the school year, even if the concussion occurs outside of a school activity. Reporting is made through the Schools Center. After logging in, find the 'C' tab ("Concussion Reports") to file a report. If your school has no concussions within a month period, there is also the option to report that. Reporting is a requirement of state law (HB 4365)
2. **Pre-game medical talk:** For the 2024-25 school year, our office will be asking member schools hosting events, games, tournaments, etc., to conduct a pre-game 'Medical Talk' with contest officials and competing school(s). This 'talk' should identify what medical coverage will be provided for the event and who the contacts for competing schools will be should any weather, injury, or catastrophic event occur. More information about this initiative is attached as a separate document in this All School Mailing.
3. **Concussion Education:** As a reminder, all coaches and Concussion Oversight Team (COT) members are required to have completed a minimum two-hour training program approved by IHSA before coaching at a member school. A school can track the status of its faculty successful completion of this requirement in the IHSA Schools Center.
4. **Severe Weather:** In 2018, the IHSA's Board of Directors approved an updated Severe Weather policy. This policy discusses the use of mobile apps as well as updated language that differentiates between crowd to ground lightning and what is often referred to as heat lightning. The policy can be found on the Sports Medicine page at IHSA.org as well as in the sport specific manuals.
5. **Coaches CPR/AED Requirement:** **NEW for 2024--25** All coaches must be CPR/AED trained by a district approved course. Coaches or school administrators can enter their expiration dates in the school center under to "get the red out".
6. **Cheerleading/Spirit Rest Day:** Sideline and competitive cheerleaders, where jumping, tumbling, and building skills take place, must take 1 calendar day off from cheerleading/spirit activities once every IHSA calendar week. Programs on the off day are limited to stretching or film; no other physical activity can take place on the off day. This also applies during the summer contact period, so that the participants, individually, get a day off a week.
7. **Wet Bulb Globe Temperature:** After the completion of the KSI Conference in March, the Sports Medicine Advisory Committee issued an updated WBGT Policy for review of the IHSA Board of Directors. The updated policy is as follows:

Wet Bulb Globe Temperature

These requirements represent minimum standards that IHSA member schools must follow for all athletic activities and competitions, both outdoors and indoor facilities that are not airconditioned. Schools with more restrictive guidelines are not expected to modify any pre-existing guidelines in order to meet this policy. These guidelines will also be used by managers or their designees at all IHSA state series events when the Wet Bulb Globe Temperature (WBGT) is above 80 degrees Fahrenheit. Decisions to suspend and resume activity will be in accordance with these guidelines.

Pre-Practice Preparation:

1. Thirty minutes prior to the start of an activity, and minimally every 30 minutes after the start of the activity, temperature and humidity readings will be taken at the site of the activity. Using a Wet Bulb Globe Thermometer is required.
 - a. Record the readings in writing and maintain the information in files of the tournament manager and/or host school administration. Tournament managers may designate someone other than themselves to take these readings.
2. Provide cooling stations such as shade, ice towels, misting fans, etc. for before, during, and after activity.
3. Provide ample amounts of water. This means water should always be available and athletes should be able to take in as much water as they desire.

Use the Table 1 (see below) with an on-site WBGT reading for appropriate exercise modifications during exercising in the heat:

Cat 2	Activity Guidelines
< 79.9	Normal Activities – Provide at least three separate rest breaks each hour with a minimum duration of 3 min each during the workout.
80.0 - 84.5	Use discretion for intense or prolonged exercise; Provide at least three separate rest breaks each hour with a minimum duration of 5 min each. Cold Water Immersion must be available. (see below)
84.6- 87.5	Maximum practice time is 2 h. Contests may conclude if the temperature moves to orange mid-game with the required breaks provided. No new contests may be started if the temperature is in this range. <u>For Football</u> : players are restricted to helmet, shoulder pads, and shorts during practice. If the WBGT rises to this level during practice, players may continue to work out wearing football pants without changing to shorts. <u>For All Sports</u> : There must be 20 min of rest breaks distributed throughout each hour of practice. Cold Water Immersion must be available. (see below)
87.6 - 89.9	Maximum practice time is 1 h. <u>For Football</u> : No protective equipment may be worn during practice, and there may be no conditioning activities. <u>For All Sports</u> : There must be 20 min of rest breaks distributed throughout the hour of practice. Cold Water Immersion must be available. (see below) Consider postponing games or practices until a cooler time of day.
> 89.9	No outdoor workouts. Delay practice until a cooler WBGT is reached.

Table 1 (all temperature readings as measured by WBGT devise)

Treatment of Exertional Heat Stroke and Cold-Water Immersion:

In the event of potential Exertional Heat Stroke (EHS), each school participating in interscholastic sports shall be properly prepared and equipped to activate EMS and initiate rapid whole-body cooling using an evidence-based cooling modality. The current best practice for the treatment of exertional heat stroke is rapid whole-body cooling via Cold Water Immersion (CWI) on-site followed by transport to advanced medical care (Cool first transport second). If whole-body CWI is not readily available, alternate evidence-based whole-body cooling techniques can be utilized (e.g. TACO method). The best practices shall be carried out by a licensed athletic trainer, designated healthcare provider, or EMS provider. In the event that these medical providers are not available and heat illness is suspected, cooling should be initiated until advanced medical personnel arrives.

The cooling modality shall be ready for immediate use when WBGT is at or above 80F. At WBGT temperatures below 80F the cooling modality should be readily available.

Thanks for your attention to these initiatives. The afore-mentioned Sports Medicine pre-season presentation will address these in greater detail. Individuals with questions about any of these initiatives can contact Stacey Lambert (slambert@ihsa.org) at the IHSA Office.

Re.: New initiatives for 2024-25

Greetings! I hope your summer has been an enjoyable one. It doesn't seem possible that another school is on the horizon. With a new year, there are a few reminders/initiatives concerning licensed officials to which I want to draw your attention.

1. For the past two consecutive schools (2023-23 and 2023-24), the association has seen an increase in the number of distributed officials' licenses. In other words, numbers are trending in a positive direction after years of decline. We know the need is still there for more people to obtain an officials' license, and our office remains committed to doing what we can to help those numbers grow. Programs like the Provision License for 15- and 16-year olds has been successful so we appreciate the support you offer that program. We know that officials who leave the officiating ecosystem cite poor sportsmanship/abuse as a primary reason for leaving, so any work you can do with your coaches and players to demonstrate sporting behavior will go a long way in improving the behavior of fans, and all improvement in this area will be greatly appreciated.
2. Member schools are reminded that IHSA By-law 2.080 requires that only licensed officials be used for athletic contests. The responsibility to ensure that requirement is met lies with each member school, regardless of whether a third-party assignor actually assigns officials for schools. Our office will be working on a number of behind the scenes efforts to assist schools with this monitoring over the coming year. A complete list of licensed officials can always be found in the IHSA Schools Center.
3. At their June 2024 meeting, the IHSA Board of Directors approved a recommendation to begin requiring coaches to rate officials following contests. Previously, coaches had the ability to rate the work of officials, but it was not a requirement. The 2024-25 school year will be a 'practice year' of sorts to get coaches in all sports up to speed on this new requirement, and information about the requirements by sport and the subsequent consequences coaches who fail to rate will fact – beginning with the 2025-26 school year – can be found [here](#).

I hope your 2024-25 school year is an enjoyable one! Our office looks forward to working with you on behalf of all the student-athletes in Illinois.

Take care.

1. one of the State Finals participants,
2. a student from the host school of the State Finals, or
3. a student from a nearby school/local area of the State Finals host site.

MEMO

To: IHSA Member School Principals/Athletic Directors/Coaches/Officials and IHSA Member School Athletic Trainers

From: Craig Anderson, Executive Director and Stacey Lambert, IHSA Administrator for the Sports Medicine Advisory Committee

RE: Pre-Game Medical Huddle

IHSA concussion protocols are predicated on the premise that schools, by law and by playing rule, need to determine who the school will authorize to assess players removed from a game/contest with a possible head injury. In accordance with state law, the only people able to authorize a player's return to a contest where he/she was removed with a possible head injury is a ***physician licensed to practice medicine in all its branches in Illinois (in other words, a physician who is credentialed as an M.D. or D.O.), a certified athletic trainer (ATC), advanced practice nurses (APN), and physician's assistants (PA).***

Prior to departure for the contest

The school administration/concussion oversight team/etc. – should notify all coaches, when the team is on the road, who can return students to play in case of a suspected concussion. Meaning, the visiting coach should know if his/her school has approved the home team's medical personnel to assess and return players to competition.

Pre-Game Medical Huddle

Prior to the contest beginning, the officials should identify the designee for returning athletes from suspected head injuries. This can be physician licensed to practice medicine in all its branches in Illinois, a certified athletic trainer, advanced practice nurses, and physician's assistants, who has the consent to treat any athlete during the contest.

The visiting team coach should confirm, at this time, if the host medical personnel, are allowed to return players to competition or not.

IF the visiting school has approved the host school medical personnel then the host school medical personnel can return players with suspected concussions to play.

IF the visiting school has not approved the host school medical personnel then players suspected of concussions cannot return.

During the contest

If a player is removed, he/she can only return to the contest at an appropriate stoppage of time in the game. If a player attempts to return, a game official needs to confirm with the head coach that player has been evaluated and cleared to return to play. At that time, the game official should confirm who the person was who evaluated the player and cleared him or her to return. *The official should confirm that this person matches with the person mentioned during the pre-game coaches/captains meeting.*

Post Game

Following a contest where a student was removed with a possible head injury, the official who removed the player shall complete a Special Report with the IHSA Office. In the report, the official should include the player's number, the approximate time in the contest when the player was removed, whether or not the player returned to the contest, and the person whom the head coach said had evaluated the player and cleared him/her to return to the contest. An official can also add any other details in his/her report deemed important.

In a situation where no school-approved medical professional is available, an official should not let a player previously removed from a contest with a possible head injury return to that same contest.

Example:

Officials please prepare to ask the following questions in the pre-game huddle

1) *where is the AED?*

And who is responsible to get it if needed?

2) *host school- do you have medical personnel here? Where will they be located?*

3) *both teams- do you have someone who can return your players to the game if someone goes down with concussion like symptoms?*

NOTE: A school is not required to answer yes to all of these questions. If no AED or medical personnel are present you may start the contest, just please note the missing AED in a special report. There is no need to note the missing medical personnel.

Thank you!
