Independent Auditors’ Report

Board of Directors
Illinois High School Association

We have audited the accompanying financial statements of the Illinois High School Association (the “Association”), which comprise the statements of financial position as of June 30, 2016 and 2015, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with the accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor’s Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Illinois High School Association as of June 30, 2016 and 2015, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter
Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The accompanying notes are an integral part of these statements.
Note 1 – Summary of Accounting Policies

Organization
The Illinois High School Association (the “Association”), a nonprofit association, was formed to supervise and control interscholastic activities in which its member schools within the State of Illinois may engage. The Association’s primary source of revenue is gate receipts from athletic tournaments.

Basis of Accounting
The financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

Basis of Presentation
The Association has adopted FASB ASC 958. Under FASB ASC 958, the Association is required to distinguish between contributions received for each net asset category in accordance with donor-imposed restrictions. Under these standards, the Association reports information regarding its financial position and activities according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets.

Unrestricted Net Assets are those assets presently available for use by the Association at the discretion of the Board.

Temporarily Restricted Net Assets are those assets which are subject to donor-imposed stipulations that may or will be met, either by actions of the Association and/or the passage of time.

Permanently Restricted Net Assets are those assets with a donor-imposed restriction that stipulates that resources be maintained permanently but permits the Association to use up or expend part or all of the income (or other economic benefits) derived from the donated assets.

The Association did not have any temporarily or permanently restricted net assets as of June 30, 2016 and 2015.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of the revenues, expense, gains, losses and other changes in net assets during the reporting period. Actual results could differ from those estimates.
Note 1 – Summary of Accounting Policies – Continued

Cash and Cash Equivalents
For purposes of reporting cash flows, the Association considers all liquid investments with an original maturity of three months or less to be cash and cash equivalents. Cash equivalents of $2,029,901 and $1,705,736 at June 30, 2016 and 2015, respectively, consist of interest-bearing deposits and money market accounts in financial institutions.

Receivables and Credit Policies
Accounts receivable are uncollateralized customer obligations that generally require payment within thirty days from the date of occurrence. Accounts receivable are stated at the invoice amount. Due to the uncertainty regarding collection, penalty fees, if any, are recognized as income when received. Account balances with specific amounts over 45 days old are considered delinquent.

Payments of accounts receivable are applied to the specific occurrence identified on the customer’s remittance advise or, if unspecified, to the earliest unpaid document. In the case that a customer is also a vendor, account receivable and account payable balance are netted together, which eliminates one account and reduces the other.

Management reviews accounts receivable balances that exceed one year from the occurrence and based on an assessment of current creditworthiness, estimates the portion, if any, of the balance that will not be collected. All accounts or portions thereof deemed to be uncollectible are written off to bad debt expense. Bad debt expense for the years ended June 30, 2016 and 2015 was $3,925 and $785, respectively.

Certificate of Deposit
Certificates of deposit, with a maturity of more than three months when purchased, are carried at cost, which approximates fair value.

Investment Securities
Investments are stated at fair value based on quoted market prices or recent trade activities and unrealized and realized gains (losses) are reflected in the statements of activities.

Other Assets
As further described in Note 6, the Association has a nonqualified deferred compensation plan. Assets held in the rabbi trust for the plan are recorded as other assets on the statements of financial position, measured at fair value, and are subject to claims by creditors of the Association in the event of insolvency.

Property Building and Equipment
Property, building and equipment are carried at cost. Depreciation is computed at annual rates sufficient to amortize the cost over their estimated useful lives, principally on the straight-line basis. An addition of equipment in an amount that does not exceed $500 per item is expensed as incurred.
Note 1 – **Summary of Accounting Policies – Continued**

**Income Taxes**
The Association is a not-for-profit corporation and is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code. An informational return, Form 990, is filed with the Internal Revenue Service each year.

**Deferred Revenue**
Officials’ fees collected in advance for the coming school year have been included in deferred revenue in the accompanying statement of financial position. Such deferred revenue is recognized as revenue when earned during the coming school year.

**Reclassifications**
Certain amounts for the year ended June 30, 2015 have been reclassified to conform to the current year presentation. The reclassifications have no effect on the change in net assets for the year ended June 30, 2015.

**Note 2 – Fair Value Measurements**

The Association has determined the fair value of certain assets and liabilities through application of ASC 820. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value are classified and disclosed in one of the following three categories:

- **Level 1** – Valuations for assets and liabilities traded in active exchange markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.
- **Level 2** – Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.
- **Level 3** – Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Common stocks and mutual funds listed on a national market or exchange are valued at the last sales price, or if there is no sale and the market is still considered active at the last transaction price before year end.
Note 2 – **Fair Value Measurements – Continued**

Corporate bonds are valued based on either the most recent observable trade and/or external quotes.

The fair value of municipal bonds is derived using recent trade activity, market price quotations, and new issuance levels. In the absence of this information, fair value is calculated using comparable bonds credit spreads. Current interest rates, credit events, and individual bond characteristics such as coupon, call features, maturity, and revenue purpose are considered in the valuation process.

Fair values of assets and liabilities measured on a recurring basis are as follows:

<table>

| $ 3,324,638 | $ 2,231,373         |                   | 1,093,265         | -                 |

¹Money market funds and mutual funds held in a rabbi trust are included in other assets in the statements of financial position.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Association believes its valuation methods are appropriate and consistent with our market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
Note 3 – Investment Securities and Certificates of Deposit

As of June 30, investment securities consisted of the following:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Common stock – equity (at fair value)</td>
<td>$ 1,356,577</td>

</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$ 3,471,174</strong></td>
<td><strong>$ 3,415,529</strong></td>
</tr>
</tbody>
</table>

Depreciation expense for the years ended June 30, 2016 and 2015 was $121,475 and $126,088, respectively.

Note 5 – Pension Plan

The Association has a defined benefit pension plan covering substantially all of its employees. The Association’s policy is to fund current pension costs with at least the minimum amount that is required under the Employee Retirement Income Security Act of 1974 (ERISA). Contributions are intended to provide not only benefits attributed to service to date but also for those expected to be earned in the future. The benefits are based on years of service and the employee’s compensation reduced by a social security benefit. This plan has been frozen effective July 1, 2008.
The following sets forth the plan’s funded status and amounts recognized in the Association’s financial statements at June 30:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>
<th>2015</th>
</tr>
</thead>
<tbody>
<tr>
<td>Projected benefit obligation</td>
<td>$ (13,464,803)</td>
<td>$ (12,669,887)</td>
</tr>
<tr>
<td>Plan assets at fair value</td>
<td>8,896,378</td>
<td>9,184,434</td>
</tr>

</tr>
<tr>
<td>Expected long-term rate of return on assets</td>
<td>2.50%</td>
<td>4.43%</td>
</tr>
</tbody>
</table>
Note 5 – Pension Plan – Continued

The discount rate and expected rate of return on plan assets are critical assumptions which significantly affect pension accounting. Even relatively small changes in these rates would significantly change the recorded pension expense and accrued liability. Management believes the discount rate and expected rate of return on plan assets used in determining its year end pension accounting are reasonable based on currently available information. However, it is at least reasonably possible that these assumed rates will be revised in the near term, based on future events and changes in circumstances.

The Association’s expected long-term rate of return on plan assets assumption of 2.50% is based on using the “building block” approach described by the Actuarial Standards Board in Actuarial Standards of Practice No. 27 – Selection Economic Assumptions for Measuring Pension Obligations. Based on the Association’s investment policy for the pension plan in effect as of the beginning of fiscal year, a best estimate range was determined for the expected real rate of return and using a mid-point of each expectation.

The following table summarizes plan assets measured at fair value at June 30, 2016, segregated by the level of valuation inputs within the fair value hierarchy utilized to measure fair value.

<table>

</tbody>
</table>
Note 5 – Pension Plan – Continued

The Association’s asset allocation at June 30, 2015 was as follows:

<table>
<thead>
<tr>
<th>Category</th>
<th>Percentage</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Equity</td>
<td>39%</td>
<td>$3,613,631</td>
</tr>
<tr>
<td>Fixed income</td>
<td>57%</td>
<td>$5,213,353</td>
</tr>
<tr>
<td>Cash and cash equivalents</td>
<td>4%</td>
<td>$357,450</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
<td>$9,184,434</td>
</tr>
</tbody>
</table>

The Associations’ target asset allocation as of June 30, 2015, by asset category, is as follows:

<table>
<thead>
<tr>
<th>Category</th>
<th>Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Equity</td>
<td>20-50%</td>
</tr>
<tr>
<td>Fixed income</td>
<td>50-75%</td>
</tr>
<tr>
<td>Cash and cash equivalents</td>
<td>0-10%</td>
</tr>
</tbody>
</table>

The Association’s investment policy includes various guidelines and procedures designed to ensure assets are invested in a manner necessary to meet expected future benefits earned by participants. The investment guidelines consider a broad range of economic conditions. Central to the policy are target allocation ranges (shown above) by major asset categories.

The objective of the target allocations are to maintain investment portfolios that diversify risk through prudent asset allocation parameters, achieve asset returns that meet or exceed the plan’s actuarial assumptions, and achieve asset returns that are competitive with like institutions employing similar investment strategies.

The investment policy is periodically reviewed by the Association and a designated third-party fiduciary for investment matters. The policy is established and administered in a manner so as to comply at all times with applicable government regulations. The investment statements are reviewed quarterly by the Board of Directors. The Association expects to contribute $400,000 to its pension plan for the year ending June 30, 2017.

The following benefit payments which reflect expected future service, as appropriate, are expected to be paid:

<table>
<thead>
<tr>
<th>Years Ending June 30,</th>

</tr>
</tbody>
</table>

Note 6 – Employee Benefit Plans

The Association has a 401(k) savings plan and trust covering substantially all full-time employees. The Association matches 100% of the first 3% of earnings contributed by each employee. The Association also contributes 7% of the administrators’ salaries into two lump sum payments during the year, with an exception being those who participate in the deferred compensation plan. Expense for the plan was $107,172 and $105,450 for the years ending June 30, 2016 and 2015, respectively.

Effective June 15, 2009, the Association established a nonqualified deferred compensation plan for the purpose of providing supplemental retirement benefits to certain employees in connection with the freeze of benefit accruals of the Association’s pension plan.

The following table sets forth the plan’s funded status and amounts recognized in the Association’s financial statements at June 30:

<table>
<thead>
<tr>
<th></th>
<th>2016</th>

$597,826

Note 7 – Illinois High School Activities Foundation

The Illinois High School Activities Foundation was incorporated on February 14, 1994 to promote and support educational and/or charitable interest, by scholarship, donation, loan or otherwise. The Association is the sole member of the Foundation. The Foundation’s by-laws provide the Association with the authority to appoint all directors of the Foundation. The net assets and changes in net assets of the Foundation are insignificant and, accordingly, have not been consolidated with the financial statements of the Association.
Note 8 – Commitments

The Association leases certain office equipment under noncancelable operating leases. Future minimum lease payments are as follows:

<table>
<thead>
<tr>
<th>Years Ending June 30,</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>2017</td>
<td>$13,632</td>
</tr>
<tr>
<td>2018</td>
<td>6,096</td>
</tr>
<tr>
<td>2019</td>
<td>6,096</td>
</tr>
<tr>
<td>2020</td>
<td>3,048</td>
</tr>
<tr>
<td>2021</td>
<td></td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$28,872</strong></td>
</tr>
</tbody>
</table>

Total lease expense for the years ended June 30, 2016 and 2015 was $13,632 and $13,962, respectively.

Note 9 – Litigation

The Association is subject to pending and threatened legal actions which arise in the normal course of business. While the final outcome cannot be determined at this time, management is of the opinion that the ultimate liability, if any, from the resolution of these matters will not have a material effect on the Association’s financial statements.

Note 10 – Uncertain Tax Positions

Accounting principles generally accepted in the United States of America require the Association’s management evaluate tax positions taken by the Association and recognize a tax liability if the Association has taken an uncertain position that more than likely would not be sustained upon examination by the Internal Revenue Service. Management has analyzed the tax positions taken by the Association, and has concluded that as of June 30, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Association is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years prior to 2013 are closed.

Note 11 – Subsequent Events

No events have occurred subsequent to June 30, 2016, that are required to be disclosed in the financial statements. This evaluation was made as of December 2, 2016, the date these financial statements were available to be issued.
