VIII. TOURNAMENT RULES

A. Rules of Play:
The National Federation Soccer Rules are adopted as the official rules of play for the 2023-24 series of tournaments with the following provisions:

1) Each game in the tournament series will be played in two 40-minute halves.

2) During the State Tournament, if there is a seven (7) goal differential at the start of the second half or any time after the start of the second half, the clock shall be reduced by half of the remaining time.

3) During the State Tournament, if there is a nine (9) goal differential at the start of the second half or any time after the start of the second half, the game shall be terminated.

4) During Regional Quarterfinals, Semifinals, and Finals, and during Sectional Semifinals and Finals, if the first half has ended, and if play cannot be continued due to conditions such as darkness, weather, etc., the game shall be terminated unless tied. If the game is tied and cannot be continued, the game shall be considered suspended and must be continued from the point of interruption at the next available playing time (except Sunday). Once the game has begun, the game officials are solely responsible for the decision.

5) If a Super-Sectional game is suspended due to conditions that make it impossible to play, the game will be rescheduled for the next day from point of suspension or if mutually agreed upon by both head coaches that the game may be considered final. If the game cannot be played or completed by the Thursday night prior to the State Semifinals, the team with the lead will be declared the winner. If the teams are tied and the game cannot be completed, then a coin toss shall determine which team will qualify for the State Finals.

6) During weekday state series contests (M-Th), if a game is delayed (inclement weather, power outage, etc.) the game must resume by 10 p.m. Games shall not start after 9 p.m. Local ordinances take precedence and will override the above.

7) No coach or other school official shall, during the progress of a game, be allowed on the field of play except by permission of the game officials.

8) The captain and the head coach shall be the official spokesmen and the sole representatives of their team in all communications with the officials.

B. Resolution of Tie Games:
Note: If the Class 1A, 2A & 3A State Final Third place game is tied at the end of regulation, the tie is broken by proceeding straight to penalty kicks following the procedure below.

The overtime used in the Illinois High School Association tournament series shall be as follows:

Play the regulation game and if a tie exists:

5-minute break between regulation and 1st overtime
10 minutes-1st overtime period
2 minutes-between overtime period 1 and overtime period 2
10 minutes-2nd overtime period; and if a tie exists:

a) A coin toss occurs before: the overtime and the first 5 kicks. The visiting captain shall call the toss.

b) Each coach shall select five (5) players from the team roster to take tie-breaker kicks. The team winning the coin toss shall have the choice of shooting first or second. The goalkeeper for each team shall be any eligible team member determined by the coach. The teams will then each take five (5) tie-breaker kicks, alternating kickers. The team scoring on the greater number of these five (5) kicks shall be the winner.

c) If the score is still tied, a series of sudden victory tie-breaker kicks shall be taken. Each team shall designate five (5) different players to kick. Players shall kick alternately. If the first kicker from Team A scores and the first kicker from Team B does not score, the game is ended, and Team A is the winner. If both first kickers score, the second kickers from each team take tie-breaker kicks and, if one scores but the other does not, the game is ended, and the team of the scoring kicker is the winner. This process shall be repeated through as many as five (5) kickers for each team until there is a winner.

d) If the score is still tied, each team shall designate five (5) different players who did not kick under “c” above to take sudden victory tie-breaker kicks. Then the process of “c” is repeated. If the score is still tied, after these five (5) kickers from each team have taken their kicks, the process of “c” shall be repeated, with any eligible player from the roster permitted to kick. **Note:** In any sequence of either the regular or sudden victory tiebreaker kicks no player may kick more than once in each ten (10) kick series. However, a player may kick in each ten-kick series so, for example, a player may kick three times in a tie-breaker series which is not resolved until the twenty-fourth (24th) tie-breaker kick.

e) Kicking Procedure for tie-breaker kicks in the tie-breaking system: Kicks taken for tie-breaking purposes will be taken according to the following procedure:

1) The kicker and goalkeeper will take their positions in preparation for the kick without delay.

2) When ready, the referee will sound a whistle.

3) The goalkeeper shall stand with at least one foot on or in line with the goal line, and can move laterally or forward, but not permitted to come off the line with both feet until the ball is in play.

4) Once the kicker starts his approach toward the ball, he may not interrupt his movement. The kicker will be permitted only one touch on the ball in taking the kick.

C. **Tournament Officials**

2) IHSAA By-Law 2.040 gives the Board of Directors complete authority to penalize a school or individual(s) for any unsportsmanlike conduct on the part of the principal, coach, players or any member of the faculty or Board of Education, or any other official representative of any participating school.

All yellow cards must be reported by the official to the IHSAA and the member school, as currently practiced with all ejection reports.

At the start of the IHSAA tournament series, a coach and/or player will start with a clean slate if they have accumulated four or fewer yellow cards during the regular season. During the tournament series, once a coach or player accumulates five yellow cards, they are suspended for the next game; three more yellows, suspended for two games. If a coach or player enters the tournament series having accumulated five or more yellow cards during the season, their yellow card count continues.
4) All straight red cards received by a player and/or coach are to be tracked by the school and the IHSA. Recipients of the straight red card will have the following consequences: 1st straight red = 1 game suspension (current practice) 2nd straight red card = 2-game suspension for recipient 3rd straight red card = 3-game suspension for recipient etc.

*The straight red card(s) count accumulated during the regular season will continue through the state series.

5. Pre-Game Protocol:
   During regular season contests, when the warm-up clock runs to 0:00 (5 minutes before posted start time), officials, coaches and players meet for the equipment check, sportsmanship talk and coin flip. 6. Regular Season and State Series Contests:
   In the event a game is suspended due to conditions that make it impossible to play, the head referee shall declare it an official game if one complete half or more of the game has been played. If less than one half of the game has been played, the game may be continued from the point of interruption to the next available playing time, i.e., a delay may be called, or a game suspended until rescheduled.

7. Class 1A/2A/3A Super-Sectionals Only:
   In the event a game is suspended due to conditions that make it impossible to play, the game will be rescheduled for the next day from point of suspension. Or if mutually agreed upon by both head coaches, the game may be considered final. If the game cannot be played or completed by the end of Thursday night prior to the State Semifinals, the team with the lead will be declared the winner. If the teams are tied and the game cannot be completed on Thursday, then a coin toss shall determine which team will qualify for the State Finals.

8. Caution Count:
   All Yellow Cards received during regular season or tournament competition must be recorded by the coach. If a caution is not submitted to the IHSA Schools Center within 48 hours of the contest, the coach or an Administrator must report the yellow to the IHSA office.

   Individual Caution Count - Coach and Player
   All Cautions are counted towards the coach or player individual limitation.
   A. When a coach or player accumulates 5 yellow cards during the season, that person is suspended for the next game.
B. If a coach or player accumulates 3 additional yellow cards (for a total of 8), that person is suspended for the next two games.
C. If a coach or player accumulates 3 additional yellow cards (for a total of 11), that person is suspended for the next three games etc. These are minimum penalties.
D. At the start of the IHSA tournament series, a coach or player will begin the tournament with a clean slate if they have accumulated 4 or fewer yellow cards during the regular season.
E. If a coach or player enters the tournament series having accumulated 5 or more yellow cards during the season, their yellow card count continues through the duration of the state series.

**Team Caution Count**
Any Varsity team that receives a total of 25 or more yellow cards during the regular season will be prohibited from participating in the IHSA State Tournament series.

F14. a player who commits a foul, attempting to DOGSO, and the goal is scored  
F15. a player who commits a foul against an opponent within the player’s team penalty area in an attempt to play the ball that DOGSO by the opponent -- penalty kick awarded  
G. use of any tobacco products or electronic cigarettes at the game site during the period of jurisdiction of the officials

**Notes:**

1. Once the game restarts cards cannot be rescinded after being issued, therefore all yellow and red cards MUST be reported to the school and the IHSA.
2. Schools or coaches who do not receive a special report electronically or by fax within 48 hours of the contest must send the officials name and ID number to the IHSA office for follow up. Officials who do not submit yellow/red cards will be contacted by the IHSA and may face sanctions.
3. All yellow cards received are included in the yellow card count, regardless of how many the players or coach receives in a single game.
Example: If a player receives a caution during the game, then a subsequent straight red during the same game, that player's yellow card count will be charged for one and the red card count shall be charged for one.

4. The committee recommends that Soccer officials submit an explanation in the Yellow Card report that describes the offending behavior, or language, when a player or coach is issued a yellow card for dissent.

5. The committee recommends that administrators review yellow card reports submitted for dissent in a timely manner so they may address the offending player or coach regarding their behavior before their next game.

9. Straight Red Card Count:
   Straight red cards received by a player or coach are to be tracked by the school and the IHSA. Recipients of a straight red card will have the following consequences:
   - 1st straight red card = 1 game suspension (current practice)
   - 2nd straight red card = 2 game suspension for recipient
   - 3rd straight red card = 3 game suspension for recipient etc.
   The straight red card(s) count accumulated during the regular season will continue through the state series.

10. Goal Differential—Reducing Time
    During the regular season and State Series games, if there is a seven 7- goal differential at the start of the second half, or any time after the start of the second half, the clock shall be reduced by half of the remaining time. There are no other acceptable variations.

11. Goal Differential—Termination of Games
    During the regular season and State Series games, if there is a 9-goal differential at the start of the second half, or any time after the start of the second half, the game shall be terminated.

    - First occurrence as a staff: Warning
    - Second occurrence as a staff: Caution
    - Third occurrence as a staff: Red Card and Ejection

13. Regular Season Overtime:
    Once a regular season game begins, and overtime has not been discussed or agreed upon in the event of a tie score, there is no opportunity to play overtime or go to PKs to determine a winner. (Be cognizant of standing conference rules.)

Options to determine regular season games ending in a tie:

2. Up to 2 - 10-minute periods playing both OTs to the end. If still tied, the game is recorded as a tie.
3. Up to 2 - 10-minute periods playing with golden goal. If still tied, the game is recorded as a tie.
4. Up to 2 - 10-minute periods and PK’s

Tie-Breaker Procedure

RESOLUTION OF TIE GAMES

The overtime used in the Illinois High School Association tournament series shall be as follows: Play the regulation game and, if a tie exists

<table>
<thead>
<tr>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>5-minute break between regulation and 1st overtime</td>
</tr>
<tr>
<td>10 minutes-1st overtime period</td>
</tr>
<tr>
<td>2 minutes -between overtime period 1 and overtime period 2</td>
</tr>
<tr>
<td>10 minutes-2nd overtime period; and if a tie exists:</td>
</tr>
</tbody>
</table>

a) A coin toss occurs before: the overtime and the first 5 kicks. The visiting captain shall call the toss.

b) Each coach shall select five (5) players from the team roster to take tie-breaker kicks. The team winning the coin toss shall have the choice of shooting first or second. The goalkeeper for each team shall be any eligible team member determined by the coach. The teams will then each take five (5) tie-breaker kicks, alternating kickers. The team scoring on the greater number of these five (5) kicks shall be the winner.

c) If the score is still tied, a series of sudden victory tie-breaker kicks shall be taken. Each team shall designate five (5) different players to kick. Players shall kick alternately. If the first kicker from Team A scores and the first kicker from Team B does not score, the game is ended, and Team A is the winner. If both first kickers score, the second kickers from each team take tie-breaker kicks and, if one scores but the other does not, the game is ended, and the team of the scoring kicker is the winner. This process shall be repeated through as many as five (5) kickers for each team until there is a winner.

d) If the score is still tied, each team shall designate five (5) different players who did not kick under “c” above to take sudden victory tie-breaker kicks. Then the process of “c” is repeated. If the score is still tied, after these five (5) kickers from each team have taken their kicks, the process of “c” shall be repeated, with any eligible player from the roster permitted to kick. Note: In any sequence of either the regular or sudden victory tiebreaker kicks no player may kick more than once in each ten (10) kick series. However, a player may kick in each ten-kick series so, for example, a player may kick three times in a tie-breaker series which is not resolved until the twenty-fourth (24th) tie-breaker kick.

e) Kicking Procedure for tie-breaker kicks in the tie-breaking system: Kicks taken for tie-breaking purposes will be taken according to the following procedure:

(1) The kicker and goalkeeper will take their positions in preparation for the kick without delay.

(2) When ready, the referee will sound a whistle.

(3) The goalkeeper shall stand with at least one foot on or in-line with the goal line, and can move laterally or forward, but not permitted to come off the line with both feet until the ball is in play.

(4) The kicker will be permitted only one touch on the ball in taking the kick.

IHSA/MaxPreps Partnership FAQ

MaxPreps is the “Official Statistician and Media Partner” for the Illinois High School Association. The IHSA partnership with MaxPreps provides great opportunities to promote your team and players and enables the IHSA to efficiently manage regular-season game results for the IHSA Score Zone, post-season seeding summary forms, statistical leaderboards, state records, media publications, and more. In order to accurately manage these initiatives, all IHSA coaches are required to enter their scores into MaxPreps after each game. They are encouraged to enter statistics to be included on all IHSA stats leaderboards.

1. What do coaches need to do? Coaches need to enter their rosters and schedules at the start of each season, report scores immediately after each game and enter statistics to appear on statewide stats leaderboards.

2. What do Athletic Directors need to do? Athletic Directors need to communicate with coaches to keep their scores and other team information updated. While MaxPreps recommends coaches are responsible for their own team information, Athletic Directors can also control every single team page from their “School Administration” page on MaxPreps.

3. How do I get started? Coaches and Athletic Directors can register here by simply entering their email and following the prompts. If you are already a Max-Preps member, simply login in the top right corner using your current credentials.

4. Does MaxPreps have an app? Yes, the MaxPreps App allows coaches to update a score on their phone after the game. Coaches can also manage their schedule, stats, and roster. The free app can be downloaded by ADs, coaches, athletes, and parents from the iTunes app store and the Google Play store.

5. Is MaxPreps compatible with other stat programs? Yes! In addition to MaxPreps’ own mobile, tablet, and desktop tools, MaxPreps is compatible with over 80 different stat companies across multiple sports. HUDL and GameChanger are both MaxPreps Partners. Click here to see MaxPreps’ stat partners.

6. Can coaches allow a team statistician or assistant coach to help manage their team information? Yes! Once the coach has access to their team page, they can give other individuals access to their page to help keep their team information accurate and up-to-date. Fans, parents, communities, college athletic departments, and media outlets rely on this information.

7. Can I send my information to the media after each game? Yes, after scores and/or statistics are entered into MaxPreps, coaches may send that information to multiple media outlets at the same time. Click here for instructions on how to send boxscores and season statistics to media.

8. How can fans participate with their teams? Parents, fans, and/or team personnel can provide live scoring updates on their mobile devices during the game and post pictures, video and chat with others. All scores/updates will be available statewide on the IHSA Scoreboards and sent to those who follow the team.

9. Who can I contact with additional questions? Coaches and ADs may contact MaxPreps state representative Eric Frantz at efrantz@maxpreps.com, or may direct questions to MaxPreps coach support at support@maxpreps.com, or 800-329-7324 x1.

MaxPreps also has a support website at support.maxpreps.com that can help answer specific questions such as how to enter scores, schedules, rosters, and stats, how to upload a team photo, how to sync with stat partners, etc.

MaxPreps and the IHSA are happy to provide this great partnership for member schools, coaches, student-athletes, and communities.

Thank you for your important role in making this partnership a success!

1. Official Timer
2. Scoreboard Operator
3. Public Address Announcer
4. Public Address Spotter
5. Official Scorer/Statistician (if applicable. One spot per team for football playoff games)
6. Coaches
7. IHSA Broadcast
8. School broadcast
9. Home/Visiting Radio (priority given to season-long coverage or # of games covered, 2 individuals per station unless space allows for more)
10. Other Television/Internet Streaming (if approved by IHSA/host)
11. Other radio (2 individuals per station unless space allows for more)
12. Print Media
13. VIPs, fans, boosters, parents, etc.

*If space cannot be provided for home/visiting radio, all efforts should be made to accommodate space in the bleachers or in another area with optimal sightlines.

**Special areas adjacent or connected to the press box that have been built or functioned specifically as seating for booster clubs or other fans can continue to be used as such. An area in the working press box cannot be designated as a booster/fan area if all of the other members of the Press Box Priority List have not yet been accommodated.

***The IHSA Press Box Priority List is not applicable for regular-season contests.

IHSA Manual for Schools & Managers
Emergency Action Plan (EAP)

In accordance with By-law 2.150, a school shall have on file for each student that participates (including practice) in interscholastic athletics a certificate of physical fitness issued by a licensed physician, physician’s assistant or nurse practitioner as set forth in the Illinois State Statutes not more than 395 days preceding any date of participation in any such practice, contest or activity. As this By-law addresses pre-participation certification only, there is not a guideline or By-law in place to address release to interscholastic activity following an injury, with the exception of head injury/concussion. With the understanding that schools throughout the state have different needs and services available to them, this document was produced to provide guidelines on an athlete's return to activity following an injury.

Each school should have a written Emergency Action Plan (EAP) in place to address medical emergencies among athletes, staff, officials, and spectators, regardless of severity, occurring during a practice or competition. The plan should also address severe weather, fire, electrical failure, bomb threat, criminal behavior, or other possible emergencies. This plan should be developed to address the unique needs of the individual sport and venue.

EAP’s should consist of the following components:

- Personnel
- Communication
- Equipment
- Emergency Medical Care
- Player Medical Information
- Game-day Responsibilities (includes appropriate sideline preparedness)
- Catastrophic Incident Plan

While each school’s sports medicine/medical service needs and availability are different, guidelines should also be developed to assist the coaching staff on what injuries should be allowed to return to competition without a medical release. It is not practical to identify every situation or injury; however the following guidelines should assist the school/coaching staff on determining if the athlete should be allowed to return to activity without a release.

1. No swelling or deformity.
2. No headache, nausea, blurred vision, tingling, numbness or sensory changes.
3. Symmetrical (equal to the other side) joint range on motion and strength.
4. Ability to bear weight, without a limp, if injury occurs to the lower body.
5. Ability to complete full functional sporting activities without compensation.

Please remember that the majority of high school athletes are a minor. If there is a question as to their injury and ability to participate, the parents/guardian should be consulted.

Athletes that are unable to meet the above criteria should be encouraged to seek medical treatment prior to return to interscholastic activity. Those athletes that seek medical treatment should be required to provide a written medical release indicating their ability to participate. Without obtaining this release, the school may assume legal liability if the athlete is allowed to participate in activities not permitted by their medical provider.

A proper plan establishes accountability, should be comprehensive, yet flexible, practical, and easily understood. The written EAP must be revised, approved, distributed, and should be rehearsed regularly prior to every athletic season. The athletic department, administration, and sports medicine team share the responsibility to establish, practice, and execute the EAP.

A sample venue-specific is included as a part of this document, which was developed from portions of the third and fourth editions of National Federation of State High School Associations Sports Medicine Handbook. Persons interested in purchasing this handbook can do so at the following location: http://www.nfhs.org/resources/publications/

IHSA Severe Weather Safety Guidelines

To be used during any IHSA state series contest

When thunder is heard, or a cloud-to-ground lightning bolt is seen, the thunderstorm is close enough to strike your location with lightning. Take shelter immediately.

Lightning is one of the most consistent and underrated causes of weather-related deaths or injury in the United States. Nearly all lightning-related injuries occur between the months of May and September and between the hours of 10:00 a.m. and 7:00 p.m. Therefore, the greatest concern for injuries in an outdoor contest appears to be during that time, though it can happen any time of year.

It is essential that local managers, competing schools, and contest officials establish dialogue in advance of contests or events to ensure that all involved are aware of what the plan will be in determining whether or when to suspend play. Local managers are encouraged to share their plan with competing schools and assigned contest officials prior to the start of the tournament/event. If competing schools have portable devices they will be bringing to a contest/event and/or have specific policy or directions from their administration that they must follow, the school must communicate those to the tournament manager. Tournament managers must know the policies of each school assigned to their tournament or event prior to its start.

PROACTIVE PLANNING

1) Assign staff to monitor local weather conditions before and during practices and contests.
2) Develop an evacuation plan, including identification of appropriate nearby safer areas and determine the amount of time needed to get everyone to a designated safer area:
   a. A designated safer place is a substantial building with plumbing and wiring where people live or work, such as a school, gymnasium or library. An alternate safer place from the threat of lightning is a fully enclosed (not convertible or soft top) metal car or school bus.
3) Develop criteria for suspension and resumption of play:
   a. When thunder is heard, or lightning is seen*, the leading edge of the thunderstorm is close enough to strike your location with lightning. Suspend play for at least 30 minutes and vacate the outdoor activity to the previously designated safer location immediately.
   b. 30 minutes rule. Once play has been suspended, wait at least 30 minutes after the last thunder is heard or lightning is witnessed* prior to resuming play.
   c. Any subsequent thunder or lightning* after the beginning of the 30-minute count will reset the clock and another 30-minute count should begin.
   d. When lightning-detection devices or mobile phone apps are available, this technology could be used to assist in making a decision to suspend play if a lightning strike is noted to be within 10 miles of the event location. However, you should never depend on the reliability of these devices and, thus, hearing thunder or seeing lightning* should always take precedence over information from a mobile app or lightning-detection device.
   *: At night, under certain atmospheric conditions, lightning flashes may be seen from distant storms. In these cases, it may be safe to continue an event. If no thunder can be heard and the flashes are low on the horizon, the storm may not pose a threat. Independently verified lightning detection information would help eliminate any uncertainty.
4) Review the lightning safety policy annually with all administrators, coaches and game personnel and train all personnel.
5) Inform student-athletes and their parents of the lightning policy at start of the season.

EVACUATION PLAN

Safe Areas: All personnel, athletes and spectators should be clearly informed of available safe structures or shelters in the event a thunderstorm approaches. A safe structure is any fully enclosed building frequently used by people. In absence of that — athletes and spectators should go to any vehicle with a hard metal roof. Roll up the windows and do not touch the sides of the vehicle. If no safe structure or vehicle is available, find a thick grove of small trees surrounded by taller trees or a dry ditch. Assume a crouched position on the ground with only the balls of your feet touching the ground. Wrap your arms around your knees and lower your head. Minimize contact to the ground since lightning often travels through the ground.

Avoid: Tall trees or objects like light poles or flagpoles, individual trees, standing pools of water and open fields. Also avoid being the highest object on the field. Do not take shelter under trees. Avoid bathrooms if another building is available, and do not use a land-line telephone. A cellular phone or portable phone is a safe alternative if in a secure shelter or vehicle.

Resuming Activity: The NSSL (National Severe Storms Laboratory) recommends that everyone should wait at least 30 minutes after the last flash of lightning or sound of thunder before returning to the field or activity.
Wet Bulb Globe Temperature

These requirements represent minimum standards that IHSA member schools must follow for all athletic activities and competitions, both outdoors and indoor facilities that are not airconditioned. Schools with more restrictive guidelines are not expected to modify any pre-existing guidelines in order to meet this policy. These guidelines will also be used by managers or their designees at all IHSA state series events when the Wet Bulb Globe Temperature (WBGT) is above 80 degrees Fahrenheit. Decisions to suspend and resume activity will be in accordance with these guidelines.

Pre-Practice Preparation:
1. Thirty minutes prior to the start of an activity, and minimally every 30 minutes after the start of the activity, temperature and humidity readings will be taken at the site of the activity. Using a Wet Bulb Globe Thermometer is required.
   a. Record the readings in writing and maintain the information in files of the tournament manager and/or host school administration. Tournament managers may designate someone other than themselves to take these readings.
2. Provide cooling stations such as shade, ice towels, misting fans, etc. for before, during, and after activity.
3. Provide ample amounts of water. This means water should always be available and athletes should be able to take in as much water as they desire.

Use the Table 1 (see below) with an on-site WBGT reading for appropriate exercise modifications during exercising in the heat:

Treatment of Exertional Heat Stroke and Cold-Water Immersion:

In the event of potential Exertional Heat Stroke (EHS), each school participating in interscholastic sports shall be properly prepared and equipped to activate EMS and initiate rapid whole-body cooling using an evidence-based cooling modality. The current best practice for the treatment of exertional heat stroke is rapid whole-body cooling via Cold Water Immersion (CWI) on-site followed by transport to advanced medical care (Cool first transport second). If whole-body CWI is not readily available, alternate evidence-based whole-body cooling techniques can be utilized (e.g. TACO method). The best practices shall be carried out by a licensed athletic trainer, designated healthcare provider, or EMS provider. In the event that these medical providers are not available and heat illness is suspected, cooling should be initiated until advanced medical personnel arrives.

The cooling modality shall be ready for immediate use when WBGT is at or above 80F. At WBGT temperatures below 80F the cooling modality should be readily available.
Cooling Methods Due to Heat Related Illness

Exertional heat stroke (EHS) is relatively uncommon among exercise associated medical conditions but is a frequent cause of exercise related death. The majority of evidence shows that early institution of body cooling is the most effective method of decreasing mortality in EHS. The following contains recommendations regarding the methods of body cooling, including tubs, ice bags, iced towels (towels with water that have been frozen) water, fans, and shade. The recommendations are classified as essential (foundational to the implementation of treatment, should have resources and personnel directed towards implementation), and desirable (important in maximal implementation, should have resources and personnel directed towards implementation as budget and resources allow). The recommendations are only guidelines, are not intended as a standard of care, and should not be considered as such. These guidelines should only be considered in the care of athletes who can be expected to be at risk of EHS due to the sport or the environmental situation of the activity. Sports especially at risk include football with and without equipment, soccer, and long distance track. Other sports and activities, such as cycling, golf, baseball, tennis, track and field, and band, may also be at risk due to long duration exposure to extreme environmental conditions.

It is essential that member schools and school administrators/officials:

- Establish a written plan coordinated with local EMS for emergency treatment of EHS that includes transport to a hospital and conduct drills in the implementation of the plan as practicable.
- Know how to assess environmental conditions and determine when extreme conditions exist.
- Identify a specific spot at the athletic facility that has shade.
- Have immediate access to ice and bags to contain ice.
- Have access to water, and provide water breaks as outlined in the IHSA Managing Heat and Humidity Policy.
- Know the most effective sites for application of ice to the body.
- Obtain and use, when environmental conditions are determined to be extreme, a tub or pool, filled with water and ice before activity begins, to be used in body immersion for maximal cooling, and have personnel trained in this technique.

It is desirable that member schools and school administrators/officials:

- Have a certified athletic trainer (ATC) on staff, as budget and resources allow, to develop and implement these guidelines.
- Have immediate access to water.
- Provide shade breaks.
- Provide fans when environmental conditions are determined to be extreme.
- Have close access to an air conditioned room.
- Have access to and use iced towels that can be rotated to appropriate areas of the body, including the axilla, groin, and back of the neck.

IHSA Protocol for Implementation of NFHS Sports Playing Rule for Concussions

“Any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the contest and shall not return to play until cleared by an appropriate health care professional.”

The above language, which first appeared in all National Federation sports rule books for the 2010-11 school term, reflects a strengthening of rules regarding the safety of athletes suspected of having a concussion, but not a revision in primary responsibilities in these areas. Previous rules required officials to remove any athlete from play who was “unconscious or apparently unconscious.” This revised language reflects an increasing focus on safety, given that the vast majority of concussions do not involve a loss of consciousness. However, the revised language does not create a duty that officials are expected to perform a medical diagnosis. The change in rule simply calls for officials to be cognizant of athletes who display signs, symptoms, or behaviors of a concussion from the lists below and remove them from play.

NOTE: The persons who should be alert for such signs, symptoms, or behaviors consistent with a concussion in an athlete include appropriate health-care professionals, coaches, officials, parents, teammates, and, if conscious, the athlete him/herself.

Definition of a Concussion
A concussion is a traumatic brain injury that interferes with normal brain function. An athlete does not have to lose consciousness (be “knocked out”) to have suffered a concussion.

**Behavior or signs observed indicative of a possible concussion**
- Loss of consciousness
- Appears dozed or stumped
- Appears confused
- Forgets plays
- Unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Shows behavior or personality changes
- Can’t recall events prior to or after the injury

**Symptoms reported by a player indicative of a possible concussion**
- Headache
- Nausea
- Balance problems or dizziness
- Double or fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish
- Feeling foggy or groggy
- Concentration or memory problems
- Confusion

This protocol is intended to provide the mechanics to follow during the course of contests/matches/events when an athlete sustains an apparent concussion. For the purposes of this policy, appropriate health care professionals are defined as: physicians licensed to practice medicine in all its branches in Illinois and certified athletic trainers.

1. During the pre-game conference of coaches and officials, the official shall remind the head coaches that a school-approved appropriate health care professional (who meets the description above) will need to clear for return to play any athlete removed from a contest for an apparent head injury.
2. The officials will have no role in determining concussion other than the obvious situation where a player is unconscious or apparently unconscious as is provided for under the previous rule. Officials will merely point out to a coach that a player is apparently injured and advise the coach that the player should be examined by the school-approved health care provider.
3. If it is confirmed by the school’s approved health care professional that the student did not sustain a concussion, the head coach may so advise the officials during an appropriate stoppage of play and the athlete may re-enter competition pursuant to the contest rules.
4. Otherwise, if an athlete cannot be cleared to return to play by a school-approved health care professional as defined in this protocol, that athlete may not be returned to competition that day and is then subject to his or her school’s Return to Play (RTP) protocols before the student-athlete can return to practice or competition.
5. Following the contest, a Special Report shall be filed by the contest official(s) with the IHSA Office through the Officials Center.
6. In cases where an assigned IHSA state finals event medical professional is present, his/her decision to not allow an athlete to return to competition may not be over-ruled.

Additional information regarding concussion has been made available to IHSA member schools and licensed officials and can be accessed on the IHSA Sports Medicine website at http://www.ihsa.org/Resources/SportsMedicine.aspx.
Concussion Information

Return to Play (RTP) and Return to Learn (RTL)

Background: With the start of the 2010-11 school term, the National Federation of State High School Associations (NFHS) implemented a new national playing rule regarding potential head injuries. The rule requires “any player who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the game and shall not return to play until cleared by an appropriate health care professional.” In applying that rule in Illinois, it has been determined that only certified athletic trainers, advanced practice nurses (APN), physician’s assistants (PA) and physicians licensed to practice medicine in all its branches in Illinois can clear an athlete to return to play the day of a contest in which the athlete has been removed from the contest for a possible head injury.

In 2015, the Illinois General Assembly passed the Youth Sports Concussion Safety Act, and this legislation, among other items, required schools to develop Concussion Oversight Teams and create Return to Play (RTP) and Return to Learn (RTL) protocols that student-athletes must meet prior to their full return to athletic or classroom activity.

Mandatory Concussion Education

Required concussion education for all athletic coaches and marching band directors is another component of the Youth Sports Concussion Safety Act passed by the Illinois General Assembly in the fall of 2015.

The IHSA program includes two video presentations and other supplementary materials that ALL high school athletic coaches, marching band directors, and Concussion Oversight Team members need to review prior to taking a required exam over the curriculum. Individuals will be required to demonstrate proficiency on the exam by scoring at least 80% in order to serve as an athletic coach or marching band director at an IHSA member school.

The program offers training in the subject matter of concussions, including evaluation, prevention, symptoms, risks, and long-term effects. Coaches will be able to access the program after logging into the IHSA Schools Center and clicking on the “CON” tab, which will be located under the ‘Departments’ heading on the Schools Center homepage.

For those first adopters of this training, new curriculum from the IHSA/IESA is expected to be released in March of 2018 so those whose training will expire in 2018 will be able to remain in compliance with the law.
School's Responsibility:
Sportsmanship

School's Responsibility to an Official Prior To The Season

1. Send a reminder card or email to the officials after you have them scheduled.
2. Reminder should include date of contest, time, level, location and sport.
   Even though many schools and conferences have assignment chairpersons, sending a reminder is highly recommended. When an official does not show, people in your community won’t know who the assignment chairperson is, but they do know the athletic director. Avoid embarrassment.
3. Have a standard wage scale set for your different sports and levels and a method in place to raise the pay periodically.
4. If possible, let the working officials know who their partner(s) will be.
5. Hire police and security along with medical assistant or athletic trainer coverage for events whenever possible.
6. Set a policy with your school board on fan, coach and player behavior.
7. Make sure all officials have a contract that is signed by your school—preferably by the principal or IHSA Official Representative.

School's Responsibility to an Official Prior To The Contest

1. Prior to the contest, provide the officials with directions and inform them of any special activities that might be occurring (i.e., Homecoming, Senior Night, etc.)
2. Give the official a number they can call in case of an emergency or postponement due to weather.
3. Have competent workers assigned at all contests (scorers, announcers, chain crew, etc.). These people are of great assistance to the official during the contest.
4. Have a host assigned to meet the officials as they arrive. The host should do the following for the officials:
   a. Provide a reserved parking space.
   b. Meet officials and take them to the dressing room.
   c. Have refreshments available for halftime and postgame.
   d. Ask for any additional needs.
   e. Introduce the officials to those game workers pertinent to the contest (i.e., scorer, announcer, chain gang, etc.).
   f. Get the proper pronunciation of officials’ names so they are correct when given by the public address announcer.
5. Athletic director should discuss with the officials any special events, conference rules, national anthem time, etc. that would affect the game.
6. Provide the officials with the name of the adult supervisor for that contest and where that person can be found in the event a challenging situation should occur.
7. Make officials aware of location of an athletic trainer or other first responders during the contest. Have a doctor on site when possible (especially at football contests).
8. Make sure all bench personnel are properly attired.
9. Do a check on game scoreboards and lighting systems prior to the game or contest.
10. Make sure the playing area is properly marked and meets National Federation guidelines for that contest.
11. Provide appropriate secured dressing area and hot water showering facilities.

School's Responsibility to an Official During The Contest

1. Insist coaches display good sportsmanship and are proper examples for your players and crowd.
2. Have your public address announcer or cheerleader read the IHSA sportsmanship statement and remain unbiased during contest.
3. Make sure the event supervisor understands the duties and responsibilities pertinent to that contest.
4. Make sure the playing area is maintained during halftime of each contest. For wrestling, make sure the mat is properly cleaned and washed.
5. Help with adverse weather conditions; monitor accordingly.
6. Make sure proper crowd control is visible and in place. Good administrative control can prevent difficult situations.
7. Observe the crowd during the contest and prevent any disturbances that may occur.
8. Work with the official during the game regarding crowd control.
9. Retrieve the game ball at the end of the contest.
10. Escort the officials back to the dressing room at halftime and at the conclusion of the contest.

School’s Responsibility to an Official After The Contest

1. Escort the officials safely back to the dressing room and parking lot.
2. Do not allow unauthorized persons in the dressing room after the game. This includes coaches.
3. Have refreshments available for the officials after the contest.
4. Be sure to thank the officials for their time and effort, regardless of the outcome of the game.
5. Make sure arrangements for paying the officials have been completed. It is preferable to pay the official the day of contest.
6. Ensure that officials are not confronted by anyone after the contest.

STUDENT MEDIA CREDENTIALS FOR PARTICIPATING SCHOOLS

Congratulations on qualifying for an IHSA state final in a team sport. In order to provide the best possible coverage of this event for your school newspaper, yearbook and AV club, etc. you are entitled to have up to three students receive credentials to cover this event as official media members. In the event that you have less than three students, an adult sponsor may be included on this list. To apply for student media credentials, please have your Athletic Director or an individual involved with the aforementioned programs email Matt Troha (mtroha@ihsa.org) at the IHSA with the following information:

1) The names of individuals attending
2) Whether they are students or adults
3) If the attending individuals will serve as reporters, photographers, videographers, etc.

Student media who are registering for credentials are expected to maintain a level of professionalism while covering this event. That includes no cheering while in the press box or game coverage area. Proper attire is also required. Wearing school shirts and colors is acceptable, but students wearing face paint, costumes, carrying props, etc. will be required to change before receiving credential clearance.

The individual applying for student media credentials will receive specific information on credential pick-up and media regulations at the event via email in the days leading up to the state final.

Please note that student media credentials are only available for state final events in team sports. Due to the sheer volume of schools who qualify in individual sports, our press facilities would be unable to accommodate student media from all participating schools in individual sports. Student media are also welcome to cover IHSA state final activities. Credentials are not required for these events, but please have your students check-in with state final personnel upon arrival for media coverage regulations.

VIDEO TAPING STATE FINALS FOR COACH FILM BREAKDOWN

Each school will be eligible to receive a pass for an individual attending the state final event to shoot game film that is for the sole purpose of being used by the coaching staff for postgame breakdown. Passes for videographers shooting highlight videos, documentaries, etc. should be included in student media application reference above. Additional passes for videotaping purposes will need to come from the allotment of state final passes given to school/head coach at or prior to the state final event.

To apply for a credential to shoot video, please have your Athletic Director email Matt Troha (mtroha@ihsa.org) at the IHSA with the name of the individual who will be taping and whether they are an adult or a student.

Please contract Matt Troha (309-6336-377) at the IHSA or any questions related to this document.
IHSA Tournament Managers/Hosts,

The advent of greater broadcasting technology has brought about many new potential internet broadcasting partners who may contact you seeking to broadcast the postseason IHSA events you host.

The IHSA’s official broadcast partner, the NFHS Network, has the first right to exclusively broadcast any postseason IHSA event. If your school streams on the NFHS Network, via either the School Broadcast Program or a fixed Pixellot camera system in your gym or stadium, then you are encouraged to exclusively stream any/all postseason games you host. Additionally, if an NFHS Network school competing in the postseason tournament you are hosting would like to broadcast on the NFHS Network, they should be given exclusivity to do so as well. The NFHS Network also partners with several third party media companies, who should be granted the same exclusivity to broadcast as a school.

If you as the postseason host are not an NFHS Network school, and no competing school contacts you about broadcasting on the NFHS Network, at that point, a third party can be granted the rights to broadcast the event on the internet. In this instance, a broadcast rights fee is due to the IHSA. The internet streaming fee schedule is listed below. Potential broadcasters should be directed to complete and submit the IHSA Broadcast Application form from the IHSA website (TV fee schedule also located in this application), which can be found here:

If at any time you ever have questions on the fees or any other matters related to broadcasting or media, please email/call Matt Troha at the IHSA office (mtroha@ihsa.org or 309-663-6377).

Unmanned Aerial Vehicle (Drone) Policy
For IHSA Tournaments
Effective February 18, 2015

The use of unmanned aerial vehicles (“UAV”), also known as drones, is prohibited for any purpose by any persons at IHSA tournament venues. Tournament management shall refuse admission or entry to anyone attempting to use a UAV; and if necessary, tournament management shall remove anyone attempting to use a UAV and/or confiscate the UAV until the event has been completed.

For purposes of this policy, a UAV is any aircraft without a human pilot aboard the device.

An exception to this policy may be made in specific cases for IHSA broadcast partners, provided the management of the tournament facility permits the presence of UAVs for broadcast purposes under the control of the IHSA.
