IHSA/MaxPreps Partnership FAQ

MaxPreps is the “Official Statistician and Media Partner” for the Illinois High School Association. The IHSA partnership with MaxPreps provides great opportunities to promote your team and players and enables the IHSA to efficiently manage regular-season game results for the IHSA Score Zone, post-season seeding summary forms, statistical leaderboards, state records, media publications and more. In order to accurately manage these initiatives, all IHSA coaches are required to enter their scores into MaxPreps after each game. They are encouraged to enter statistics to be included on all IHSA stat leaderboards.

1. What do coaches need to do? Coaches need to enter their rosters and schedules at the start of each season, report scores immediately after each game and enter statistics to appear on statewide stat leaderboards.

2. What do Athletic Directors need to do? Athletic Directors need to communicate with coaches to keep their scores and other team information updated. While MaxPreps recommends coaches are responsible for their own team information, Athletic Directors can also control every single team page from their “School Administration” page on MaxPreps.

3. How do I get started? Coaches and Athletic Directors can register [here](#) by simply entering their email and following the prompts. If you are already a MaxPreps member, simply login in the top right corner using your current credentials.

4. Does MaxPreps have an app? Yes, the MaxPreps App allows coaches to update a score on their phone after the game. Coaches can also manage their schedule, stats and roster. The free app can be downloaded by ADs, coaches, athletes and parents from the [iTunes app store](#) and the [Google Play store](#).

5. Is MaxPreps compatible with other stat programs? Yes! 6. Can coaches allow a team statistician or assistant coach to help manage their team information? Yes! Once the coach has access to their team page, they

can give other individuals access to their page to help keep their team information accurate and up-to-date. Fans, parents, communities, college athletic departments and media outlets rely on this information.

7. Can I send my information to the media after each game? Yes, after scores and/or statistics are entered into MaxPreps, coaches may send that information to multiple media outlets at the same time. [Click here for instructions](#) on how to send boxscores and season statistics to media.

8. How can fans participate with their teams? Parents, fans and/or team personnel can [provide live scoring updates](#) on their mobile device during the game and post pictures, video and chat with others. All scores/updates will be available statewide on the IHSA Scoreboards and sent to those who follow the team.

9. Who can I contact with additional questions? Coaches and ADs may contact MaxPreps state representative Eric Frantz at efrantz@maxpreps.com, or may direct questions to MaxPreps coach support at support@maxpreps.com, or 800-329-7324 x1.

MaxPreps also has a support website at support.maxpreps.com that can help answer specific questions such as how to enter scores, schedules, rosters and stats, how to upload a team photo, how to sync with stat partners, etc.

MaxPreps and the IHSA are happy to provide this great partnership for member schools, coaches, student-athletes and communities.

Thank you for your important role in making this partnership a success!

STUDENT MEDIA CREDENTIALS FOR PARTICIPATING SCHOOLS

Congratulations on qualifying for an IHSA state final in a team sport. In order to provide the best possible coverage of this event for your school newspaper, yearbook and AV club, etc. you are entitled to have up to three students receive credentials to cover this event as official media members. In the event that you have less than three students, an adult sponsor may be included on this list. To apply for student media credentials, please have your Athletic Director or an individual involved with the aforementioned programs email Matt Troha (mtroha@ihsa.org) at the IHSA with the following information:

- 1) The names of individuals attending
- 2) Whether they are students or adults
- 3) If the attending individuals will serve as reporters, photographers, videographers, etc.

Student media who are registering for credentials are expected to maintain a level of professionalism while covering this event. That includes no cheering while in the press box or game coverage area. Proper attire is also required. Wearing school shirts and colors is acceptable, but students wearing face paint, costumes, carrying props, etc. will be required to change before receiving credential clearance.

The individual applying for student media credentials will receive specific information on credential pick-up and media regulations at the event via email in the days leading up to the state final.

Please note that student media credentials are only available for state final events in team sports. Due to the sheer volume of schools who qualify in individual sports, our press facilities would be unable to accommodate student media from all participating schools in individual sports. Student media are also welcome to cover IHSA state final activities. Credentials are not required for these events, but please have your students check-in with state final personnel upon arrival for media coverage regulations.

VIDEO TAPING STATE FINALS FOR COACH FILM BREAKDOWN

Each school will be eligible to receive a pass for an individual attending the state final event to shoot game film that is for the sole purpose of being used by the coaching staff for postgame breakdown. Passes for videographers shooting highlight videos, documentaries, etc. should be included in student media application reference above. Additional passes for videotaping purposes will need to come from the allotment of state final passes given to school/head coach at or prior to the state final event.

To apply for a credential to shoot video, please have your Athletic Director email Matt Troha (mtroha@ihsa.org) at the IHSA with the name of the individual who will be taping and whether they are an adult or a student.

Please contact Matt Troha (309-663-6377) at the IHSA for any questions related to this document.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL PRIOR TO THE SEASON

1. Send a reminder card or email to the officials after you have them scheduled.
2. Reminder should include date of contest, time, level, location and sport.

Even though many schools and conferences have assignment chairpersons, sending a reminder is highly recommended. When an official does not show, people in your community won't know who the assignment chairperson is, but they do know the athletic director. **Avoid embarrassment.**

3. Have a standard wage scale set for your different sports and levels and a method in place to raise the pay periodically.
4. If possible, let the working officials know who their partner(s) will be.
5. Hire police and security along with medical assistant or athletic trainer coverage for events whenever possible.
6. Set a policy with your school board on fan, coach and player behavior.
7. Make sure all officials have a contract that is signed by your school—preferably by the principal or IHSA Official Representative.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL PRIOR TO THE CONTEST

1. Prior to the contest, provide the officials with directions and inform them of any special activities that might be occurring (i.e., Homecoming, Senior Night, etc.)
2. Give the official a number they can call in case of an emergency or postponement due to weather.
3. Have competent workers assigned at all contests (scorers, announcers, chain crew, etc.). These people are of great assistance to the official during the contest.
4. Have a host assigned to meet the officials as they arrive. The host should do the following for the officials:
 - A) Provide a reserved parking space.
 - B) Meet officials and take them to the dressing room.
 - C) Have refreshments available for halftime and postgame.
 - D) Ask for any additional needs.
 - E) Introduce the officials to those game workers pertinent to the contest (i.e., scorer, announcer, chain gang, etc.).
 - F) Get the proper pronunciation of officials' names so they are correct when given by the public address announcer.
5. Athletic director should discuss with the officials any special events, conference rules, national anthem time, etc. that would affect the game.
6. Provide the officials with the name of the adult supervisor for that contest and where that person can be found in the event a challenging situation should occur.
7. Make officials aware of location of an athletic trainer or other first responders during the contest. Have a doctor on site when possible (especially at football contests).
8. Make sure all bench personnel are properly attired.
9. Do a check on game scoreboards and lighting systems prior to the game or contest.
10. Make sure the playing area is properly marked and meets National Federation guidelines for that contest.
11. Provide appropriate secured dressing area and hot water showering facilities.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL DURING THE CONTEST

1. Insist coaches display good sportsmanship and are proper examples for your players and crowd.
2. Have your public address announcer or cheerleader read the IHSA sportsmanship statement and remain unbiased during contest.
3. Make sure the event supervisor understands the duties and responsibilities pertinent to that contest.
4. Make sure the playing area is maintained during halftime of each contest. For wrestling, make sure the mat is properly cleaned and washed.
5. Help with adverse weather conditions; monitor accordingly.
6. Make sure proper crowd control is visible and in place. Good administrative control can prevent difficult situations.
7. Observe the crowd during the contest and prevent any disturbances that may occur.
8. Work with the official during the game regarding crowd control.
9. Retrieve the game ball at the end of the contest.
10. Escort the officials back to the dressing room at halftime and at the conclusion of the contest.

SCHOOL'S RESPONSIBILITY TO AN OFFICIAL AFTER THE CONTEST

1. Escort the officials safely back to the dressing room and parking lot.
2. Do not allow unauthorized persons in the dressing room after the game. This includes coaches.
3. Have refreshments available for the officials after the contest.
4. Be sure to thank the officials for their time and effort, regardless of the outcome of the game.
5. Make sure arrangements for paying the officials have been completed. It is preferable to pay the official the day of contest.
6. Ensure that officials are not confronted by anyone after the contest.

Emergency Action Plan (EAP)

In accordance with By-law 2.150, a school shall have on file for each student that participates (including practice) in interscholastic athletics a certificate of physical fitness issued by a licensed physician, physician's assistant or nurse practitioner as set forth in the Illinois State Statutes not more than 395 days preceding any date of participation in any such practice, contest or activity. As this By-law addresses pre-participation certification only, there is not a guideline or By-law in place to address release to interscholastic activity following an injury, with the exception of head injury/concussion. With the understanding that schools throughout the state have different needs and services available to them, this document was produced to provide guidelines on an athlete's return to activity following an injury.

Each school should have a written Emergency Action Plan (EAP) in place to address medical emergencies among athletes, staff, officials, and spectators, regardless of severity, occurring during a practice or competition. The plan should also address severe weather, fire, electrical failure, bomb threat, criminal behavior, or other possible emergencies. This plan should be developed to address the unique needs of the individual sport and venue.

EAP's should consist of the following components:

- Personnel
- Communication
- Equipment
- Emergency Medical Care
- Player Medical Information
- Game-day Responsibilities (includes appropriate sideline preparedness)
- Catastrophic Incident Plan

While each school's sports medicine/medical service needs and availability are different, guidelines should also be developed to assist the coaching staff on what injuries should be allowed to return to competition without a medical release. It is not practical to identify every situation or injury; however the following guidelines should assist the school/coaching staff on determining if the athlete should be allowed to return to activity without a release.

1. No swelling or deformity.
2. No headache, nausea, blurred vision, tingling, numbness or sensory changes.
3. Symmetrical (equal to the other side) joint range on motion and strength.
4. Ability to bear weight, without a limp, if injury occurs to the lower body.
5. Ability to complete full functional sporting activities without compensation.

Please remember that the majority of high school athletes are a minor. If there is a question as to their injury and ability to participate, the parents/guardian should be consulted.

Athletes that are unable to meet the above criteria should be encouraged to seek medical treatment prior to return to interscholastic activity. Those athletes that seek medical treatment should be required to provide a written medical release indicating their ability to participate. Without obtaining this release, the school may assume legal liability if the athlete is allowed to participate in activities not permitted by their medical provider.

A proper plan establishes accountability, should be comprehensive, yet flexible, practical, and easily understood. The written EAP must be revised, approved, distributed, and should be rehearsed regularly prior to every athletic season. The athletic department, administration, and sports medicine team share the responsibility to establish, practice, and execute the EAP.

A sample venue-specific is included as a part of this document, which was developed from portions of the third and fourth editions of National Federation of State High School Associations Sports Medicine Handbook. IHSA Protocol for Implementation of NFHS Sports Playing Rule for Concussions

“Any athlete who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the contest and shall not return to play until cleared by an appropriate health care professional.”

The above language, which first appeared in all National Federation sports rule books for the 2010-11 school term, reflects a strengthening of rules regarding the safety of athletes suspected of having a concussion, but not a revision in primary responsibilities in these areas. Previous rules required officials to remove any athlete from play who was “unconscious or apparently unconscious.” This revised language reflects an increasing focus on safety, given that the vast majority of concussions do not involve a loss of consciousness. However, the revised language does not create a duty that officials are expected to perform a medical diagnosis. The change in rule simply calls for officials to be cognizant of athletes who display signs, symptoms, or behaviors of a concussion from the lists below and remove them from play.

NOTE: The persons who should be alert for such signs, symptoms, or behaviors consistent with a concussion in an athlete include appropriate health-care professionals, coaches, officials, parents, teammates, and, if conscious, the athlete him/herself.

Definition of a Concussion

A concussion is a traumatic brain injury that interferes with normal brain function. An athlete does not have to lose consciousness (be “knocked out”) to have suffered a concussion.

Behavior or signs observed indicative of a possible concussion

- Loss of consciousness
- Appears dazed or stunned
- Appears confused
- Forgets plays
- Unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Shows behavior or personality changes
- Can’t recall events prior to or after the injury

Symptoms reported by a player indicative of a possible concussion

- Headache
- Nausea
- Balance problems or dizziness
- Double or fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish
- Feeling foggy or groggy
- Concentration or memory problems
- Confusion

This protocol is intended to provide the mechanics to follow during the course of contests/matches/events when an athlete sustains an apparent concussion. In accordance with the Youth Sports Concussion Safety Act, appropriate health care professionals are defined as: physicians licensed to practice medicine in all its branches in Illinois, certified athletic trainers, advanced practice nurses (APN) and physician assistants (PA).

1. During the pre-game conference of coaches and officials, the official shall remind the head coaches that a school-approved appropriate health care professional (who meets the description above) will need to clear for return to play any athlete removed from a contest for an apparent head injury.
2. The officials will have no role in determining concussion other than the obvious situation where a player is unconscious or apparently unconscious as is provided for under the previous rule. Officials will merely point out to a coach that a player is apparently injured and advise the coach that the player should be examined by the school-approved health care provider.
3. If it is confirmed by the school’s approved health care professional that the student did not sustain a concussion, the head coach may so advise the officials during an appropriate stoppage of play and the athlete may re-enter competition pursuant to the contest rules.
4. Otherwise, if an athlete cannot be cleared to return to play by a school-approved health care professional as defined in this protocol, that athlete may not be returned to competition that day and is then subject to his or her school’s Return to Play (RTP) protocols before the student-athlete can return to practice or competition.
5. Following the contest, a Special Report shall be filed by the contest official(s) with the IHSA Office through the Officials Center.
6. In cases where an assigned IHSA state finals event medical professional is present, his/her decision to not allow an athlete to return to competition may not be over-ruled.

Additional information regarding concussion has been made available to IHSA member schools and licensed officials and can be accessed on the IHSA Sports Medicine website at <http://www.ihsa.org/Resources/SportsMedicine.aspx>.

Concussion Information

Return to Play (RTP) and Return to Learn (RTL)

Background: With the start of the 2010-11 school term, the National Federation of State High School Associations (NFHS) implemented a new national playing rule regarding potential head injuries. The rule requires “any player who exhibits signs, symptoms, or behaviors consistent with a concussion (such as loss of consciousness, headache, dizziness, confusion, or balance problems) shall be immediately removed from the game and shall not return to play until cleared by an appropriate health care professional.” In applying that rule in Illinois, it has been determined that only certified athletic trainers, advanced practice nurses (APN), physician’s assistants (PA) and physicians licensed to practice medicine in all its branches in Illinois can clear an athlete to return to play the day of a contest in which the athlete has been removed from the contest for a possible head injury.

In 2015, the Illinois General Assembly passed the Youth Sports Concussion Safety Act, and this legislation, among other items, required schools to develop Concussion Oversight Teams and create Return to Play (RTP) and Return to Learn (RTL) protocols that student-athletes must meet prior to their full return to athletic or classroom activity

Mandatory Concussion Education

Required concussion education for all athletic coaches and marching band directors is another component of the Youth Sports Concussion Safety Act passed by the Illinois General Assembly in the fall of 2015.

The IHSA program includes two video presentations and other supplementary materials that ALL high school athletic coaches, marching band directors, and Concussion Oversight Team members need to review prior to taking a required exam over the curriculum. Individuals will be required to demonstrate proficiency on the exam by scoring at least 80% in order to serve as an athletic coach or marching band director at an IHSA member school.

The program offers training in the subject matter of concussions, including evaluation, prevention, symptoms, risks, and long-term effects. Coaches will be able to access the program after logging into the IHSA Schools Center and clicking on the “CON” tab, which will be located under the ‘Departments’ heading on the Schools Center homepage.

For more information on the Youth Sports Concussion Safety Act, including specific requirements of the law and other concussion education providers besides IHSA, individuals can access Sports Medicine resources on the IHSA website at <http://www.ihsa.org/Resources/SportsMedicine.aspx>.

For those first adopters of this training, new curriculum from the IHSA/IESA is expected to be released in March of 2018 so those whose training will expire in 2018 will be able to remain in compliance with the law.

Unmanned Aerial Vehicle (Drone) Policy

For IHSA Tournaments

Effective February 18, 2015

The use of unmanned aerial vehicles (“UAV”), also known as drones, is prohibited for any purpose by any persons at IHSA tournament venues. Tournament management shall refuse admission or entry to anyone attempting to use a UAV; and if necessary, tournament management shall remove anyone attempting to use a UAV and/or confiscate the UAV until the event has been completed.

For purposes of this policy, a UAV is any aircraft without a human pilot aboard the device.

An exception to this policy may be made in specific cases for IHSA broadcast partners, provided the management of the tournament facility permits the presence of UAVs for broadcast purposes under the control of the IHSA.

Awards Delivery Information

To Managers of All IHSA Tournaments:

In an effort to better serve our tournament sites and the suppliers of our awards, we would like to have you read this bulletin carefully and then do what you can to expedite the instructions:

1. Be advised that at **Regional and Sectional Tournaments**, medals and plaques may be shipped separately and may not arrive at your tournament site on the same day. Please open boxes immediately to check contents, as medals **CAN** be in plaque boxes. **NOTE:** There are no medals given at Regional and/or Sectional levels in the team sports of baseball, basketball, competitive cheerleading, football, soccer, softball and volleyball, and in the activities of Drama/Group Interpretation and Scholastic Bowl.

Our awards supplier, A and M Products of Princeton, IL, often ships Regional and/or Sectional medals in the box with the plaque. **PLEASE CHECK THE PLAQUE BOXES CAREFULLY AND DO NOT DISCARD THEM UNTIL YOU HAVE DETERMINED THE MEDALS ARE NOT THERE!!**

At State Final Tournaments, medallions and trophies may be shipped separately and may not arrive at your tournament site on the same day. Please open boxes immediately to check contents, as medallions can be in trophy boxes.

2. Awards will be shipped to the school sites directly from A & M Products via United Parcel Service.

Tickets for Sectional and State Final Tournaments

Per IHSA Board Policy 22, GoFan Digital Tickets will be the exclusive ticket option available for Water Polo at the Sectional and State Final levels of the State Series. Any exceptions must be approved by the IHSA Office.

Posting State Series Tickets for Sale

The IHSA and GoFan will post the tickets for each game of the State Series.

If you are a GoFan school, the IHSA will still post the game to maintain financial report continuity within the tournament, but the contest will display in your HQ page.

Restricted Tickets

* “Restricted tickets” means that due to a potential sellout, or fan restrictions on attendance at a State Series event, rather than list all tickets for sale, the ticket allotment will be to split 40% for each competing team and 20% for sale to the public (or 45-45-10 or 50-50; split will be host decision). The IHSA will provide a private link to the Athletic Director at each competing school with their ticket allotment, so they can share it with their athletes’ families, students, and fans, to allow the first opportunity to purchase tickets. There will be a pre-determined date/time at which any unsold tickets from the school allotments will be released for sale to the public.

* Restricted tickets will occur in team sports for IHSA State Series contests if determined to be prudent by the host school, if requested within 72 hours before the event by a competing school, or upon request by the IHSA office.

* Communication by hosts with potential teams competing is imperative in a postseason event they are hosting. It is encouraged for hosts to look ahead/communicate with the potential teams who could be playing in their State Series events, and couple their historic fan attendance with your venue capacity. If concerns arise based on that, contact mtroha@ihsa.org to move to restricted ticketing for that event.

Desk Functions for all Water Polo Games

Shot Timer

Each team receives 30 seconds to take a shot. If they do not take a shot within this time, the desk official sounds a horn and the other team takes a “free throw” at the spot where the ball was located when time expired.

The key to working the shot clock well is accurately timing a team’s possession and re-setting on a turnover. In order to accurately time a possession, the timer needs to understand the phrase “dead time”. “Dead time” is the period of time beginning when the referee blows his/her whistle and ending when the player takes a “free throw”. During this entire period, the clock should be stopped. It is easy to understand when to stop the clock, because you can hear the whistle. The problem lies in determining when the player puts the ball back into play. The method of putting the ball back into play is called a “free throw”. A player can take a “free throw” by throwing the ball into the air a few inches to himself, or by swimming with it. The desk official must be aware of where the official is requiring the “free throw” to be taken, in order to accurately judge whether the player has put the ball back into play.

The other function of a 30 second timer is to reset the clock for any of the following circumstances:

- The offense takes a shot.
- The defense regains possession and is clearly in control of the ball (having the ball tipped by the defense with the offense retaining the ball does not reset the clock).
- The referee calls a “face-off” where he throws the ball to neutral water.
- The 30-second clock expires on the offensive team.
- The referee calls a major foul.

If the ball goes out-of-bounds from a pass and is last touched by the defensive team, the clock does not reset.

The timer should start the clock only when the player taking the “free throw” has put the ball back in play, not when the incident occurs. In other words, the timer should reset the clock when the player takes his “free throw” or the ball is clearly in the possession of a player. The timer does not reset the clock when the foul is called or when the shot is taken. The most common mistake occurs when the timer resets the clock when the ball is shot. The clock should be reset when the rebound is controlled.

Game/Ejection Timer

A water polo game consists of four, seven-minute quarters, unless otherwise dictated by tournament constraints.

The primary job of the game timer is to start and stop the game time according to the flow of the game. As with the shot clock, the game clock stops at each whistle and does not start again until the “free throw” is taken.

The secondary job is to keep score, either by using the scoreboard or flip chart. Make sure that the scoreboard always reflects the actual score according to the scorebook.

The third job of this timer is to monitor ejection time. There are two types of major fouls, penalty shots and ejections. Each foul has its own penalty. However, only the ejection foul causes a player to sit out for 20 seconds. When this happens, the game timer must keep track of his penalty time and if necessary, let him know when to re-enter. The timer does this by writing down when the ejection occurred according to the game time (the scorer writes the same time down in the scorebook). The timer can record the ejection on

scratch paper. The timer either adds or subtracts 20 seconds, depending on whether the game clock counts up or down. The result is the time the player should re-enter. The only exception to this procedure occurs when the offensive team scores, or the defensive team regains possession. In these cases, the player may re-enter immediately.

All re-entries during “live-time” must occur from the designated re-entry areas, which are on the opposite side of the pool from the table at each corner of the pool.

If the other team scores, or if 20 seconds expire on the game clock, the game timer is responsible to let the player know. The timer does this by lifting the appropriate colored flag up until the player has re-entered the pool.

If any player receives a third major foul according to the scorer, the game timer should begin waving a red flag as soon as the foul is called. If the third foul was an ejection type foul, simply continue to show the flag until the team and player at fault see the flag. If you have been displaying the red flag and the player still re-enters, you need to let the referee know immediately by using the horn, unless the opposing team has an immediate and likely chance to score. In this instance, wait until the first available moment to use the horn, rather than take away their chance to score. If the player re-enters under a red flag, it is a penalty shot for the other team, so make sure he has three.

If an athlete commits a third foul resulting in a penalty shot, let the referee know before the shot is taken, so he can remove the defensive player from the pool. You may need to use the horn to get his attention.

Scorer

The scorer’s job is a little more complex than either of the timers. This individual is providing a minute-by-minute description of the game and is ultimately responsible for all information regarding the contest. A properly scored game can be easily reconstructed to determine who officiated, which teams and individuals played, when it took place and where, and how each individual and team performed.

The scorer must record everything that happens in the game that produces a statistic. This includes everything from scores and attempts to fouls and steals. The statistical portion is extremely valuable for coaches, players, and the media.

The first step to scoring is to record the incidental information thoroughly. You should use a No.2 pencil. This makes dark enough marks for photocopying and yet allows you to erase a mistake to keep the sheet neat.

Recording incidental information includes writing the names of the referees, timers, scorer, players, and coaches, as well as the location, date, and time of the game. Make sure you get the full name of each player spelled correctly. This is extremely important for statistics. Do not accept less than a full roster. Additionally, this should be done before the game begins. You may use the program as a guide and ask the teams if they have any changes. However, TEAMS MUST USE THE SAME NUMBERS AS LISTED IN THE PROGRAM! No Exceptions. In other words, if the athlete is playing, he must use the cap number listed in the program. If he is not in attendance and the team has another athlete to take his place, the new athlete may use that number.

Once the game starts, follow everything that happens in chronological order. In viewing the scoresheet, it is best to think of the top portion as a summary of what happens during the game and the bottom portion as the actual progress of the game. If the two do not agree, the bottom portion is the one you must abide by, so make sure it is accurate.

The symbols used to describe what takes place in the remarks column are as follows:
E = ejection foul, P = penalty shot foul, S = score

Each incident that takes place is marked by writing the time, cap number, team color, remark code, and change of score when necessary. Make sure you record the white team’s score on the left, followed by a hyphen and then the blue team’s score. If you get them switched, you will be headed towards major problems. The beginning of the game starts at the top left side and continues over to the next column, until the game is completed.

In recording the summary information at the top, each area has its own column, beginning at the left with the roster that you have already completed, and continuing with columns for attempts and scores by quarter. These areas can also be used to record the incidental statistics (steals, assists, kickouts drawn).

Moving further to your right you see the column for personal fouls. Here you should write in the type of major foul in the top triangle and the quarter it was committed in the bottom triangle. For example, e/3 would indicate an ejection occurred in the third period.

Incidental Statistics

Beginning with the first column and each thereafter, you should record a statistic by making a slash in the appropriate column. Every fifth slash should be made diagonally across a group of four.

Attempt: A shot is recorded in the attempt column (ATT) whenever a player shoots the ball and it does not score, regardless of whether a field player or goalie blocks it, or whether it missed the cage completely. Attempts do not include scores. Total shots for each player are therefore the sum of scores plus attempts.

Assist: an assist occurs when one player makes a pass to another player, which results in an immediate goal. To do so, the ball must remain dry and the shooter must not fake.

Kickout Drawn: occurs when an offensive player, through his own efforts, gets his defender ejected for 20 seconds (penalty shot fouls drawn are also counted in this column). Although difficult to determine, generally the player who was fouled should receive the stat. For example, the team's two-meter set gets fouled by his defender too aggressively, and the defender is ejected. The center receives a kickout drawn.

Steal: a steal occurs when the player takes clear possession of the ball from the other team. It is not a steal when the player wins a face-off or retrieves a neutral ball. It is also not a steal for a player to be in the way of a bad pass. He must be doing something active to produce the turnover. However, a player that forces the ball underwater when guarding an opponent does receive a steal for forcing the turnover. Likewise a blocked shot that returns to his team is recorded as a steal.

Sprint: At the beginning of each quarter, the players line up at the ends and swim to the middle to get the ball. Record the winner of the two players sprinting.

Goalie Save: a goalie save is recorded any time the goalie touches a ball that would have scored, had he not intervened. It is therefore not a save if the shot would not have scored or the goalie did not touch the ball. A shot can be taken without a save recorded.

Penalty Shots Blocked (PSB): These are shots blocked by the goalie that are the result of a major foul being committed within four meters of the goal.

Quarters Played: Since goalies may alternate during the game, you should record how many quarters each goalie played. This will allow you to give the goals scored by the other team to the appropriate goalie.

Timeouts: All timeouts must be recorded on the scoresheet at the time they occur. The scorer must also update a visible record or tally board that both coaches can see from their benches, indicating how many timeouts remain for each team.

Interactive ScoreZone means live updates!

Submitting scores online means being able to submit scores during the contest. Imagine being able to track scores from dozens of hot games around the state — as they happen. The technology is here. All we need now is your help.

How to Submit "Live Updates"

1. Log on to the IHSA Schools Center and find the contest you want to report (as outlined above).
2. Submit the score and the status of the contest (the inning, or the time remaining in the quarter or the half).
3. Submit the score as often as you like (including, of course, the final score).

Think it's a great idea, but need help? Remember, you can give the ScoreZone password to a trusted student or adult. The ScoreZone password gives access only to the ScoreZone area of the Schools Center. Live updates can be posted from the site of the contest, or even from home while listening to the radio.

No obligation: You are not required to submit "live updates" — but you just might want to!

IHSA Tournament Managers/Hosts,

The advent of greater broadcasting technology has brought about many new potential internet broadcasting partners who may contact you seeking to broadcast the postseason IHSA events you host.

The IHSA's official broadcast partner, the NFHS Network, has the first right to exclusively broadcast any postseason IHSA event. If your school streams on the NFHS Network, via either the School Broadcast Program or a fixed Pixellot camera system in your gym or stadium, then you are encouraged to exclusively stream any/all postseason games you host. Additionally, if an NFHS Network school competing in the postseason tournament you are hosting would like to broadcast on the NFHS Network, they should be given exclusivity to do so as well. The NFHS Network also partners with several third party media companies, who should be granted the same exclusivity to broadcast as a school.

If you as the postseason host are not an NFHS Network school, and no competing school contacts you about broadcasting on the NFHS Network, at that point, a third party can be granted the rights to broadcast the event on the internet. In this instance, a broadcast rights fee is due to the IHSA. The internet streaming fee schedule is listed below. Potential broadcasters should be directed to complete and submit the IHSA Broadcast Application form from the IHSA website (TV fee schedule also located in this application), which can be found here:

www.ihsa.org/documents/media/Video%20Ap.pdf

If at any time you ever have questions on the fees or any other matters related to broadcasting or media, please email/call Matt Troha at the IHSA office (mtroha@ihsa.org or 309-663-6377).
